Going Mad Understanding Mental Illness:

Going Mad? Understanding Mental Illness Michael Corry, Aine Tubridy, 2001-11-02 Dr Michael Corry died in 2010. He qualified in medicine from UCD in 1973 before training as a psychiatrist and a constructivist psychotherapist. A frequent and often controversial commentator on issues of mental health in national newspapers and on television and radio programmes, he was an outspoken opponent of over medication and the use of electro convulsive therapy in the treatment of mental illness, believing instead in a holistic approach to healing. He is the co author of two books with Dr Aine Tubridy: *Going Mad* and *Depression: An Emotion Not a Disease*. **Hearing Voices** Brendan Kelly, 2016-11-07 *Hearing Voices: The History of Psychiatry in Ireland* is a monumental work by one of Ireland's leading psychiatrists encompassing every psychiatric development from the Middle Ages to the present day and examining the far reaching social and political effects of Ireland's troubled relationship with mental illness. From the Glen of Lunatics said to cure the mentally ill to the overcrowded asylums of later centuries with more beds for the mentally ill than any other country in the world, Ireland has a complex unsettled history in the practice of psychiatry. Kelly's definitive work examines Ireland's unique relationship with conceptions of mental ill health throughout the centuries, delving into each medical breakthrough and every misuse of authority, both political and domestic, for those deemed to be mentally ill. Through fascinating archival records, Kelly writes a crisp and accessible history evaluating everything from individual case histories to the seismic effects of the First World War and exploring the attitudes that guided treatments spanning Brehon Law to the emerging emphasis on human rights. *Hearing Voices* is a marvel that affords incredible insight into Ireland's social and medical history while providing powerful observations on our current treatment of mental ill health in Ireland. Understanding Mental Health David Pilgrim, 2014-08-27 David Pilgrim PhD is Professor of Health Social Policy in the Department of Sociology, Social Policy and Criminology at the University of Liverpool.

Those Who Are Mad Dag Heward-Mills, 2025-02-12 Just as evil is found in the whole world, madness is also evenly distributed across the planet and the church is not exempt. Mental health issues are rampant in the church today. It is troubling to see people who were hitherto normal disintegrate into anti-social, irrational and extremely foolish behaviour because madness goes undetected and undiagnosed. In this masterpiece, world renowned author Dag Heward Mills outlines the different kinds of mental health issues and how they relate to the church today, simply stated for a lay person to appreciate and understand. Indeed, being able to make a diagnosis of madness will invoke compassion in the person who has understanding. When Panic Attacks Aine Tubridy, 2018-02-23 Hundreds of thousands of people in Ireland suffer from panic attacks and anxiety, but many struggle to access any meaningful help for these conditions. Prompted by years of working with patients suffering from panic attacks and struck by just how common and debilitating they were, medical doctor and psychotherapist Dr Aine Tubridy first published *When Panic Attacks* in 2003. Grounded in years of clinical experience and research, it has been a bestseller ever since because her methods work. A true visionary in the crusade for mental health, Dr

Tubridy uses pioneering mind body medicine methods to alleviate panic and anxiety encouraging patients to understand the root cause of their symptoms and to make tangible and fundamental changes at every level of life physical emotional mental and spiritual opening up the possibility of extensive and permanent healing In an increasingly fear driven society this book is more relevant than ever

Jones, 2017-03-14 David Jones has written a compelling book about the complex issues entailed in being family members of sufferers from mental illness The book provides us with a critical appraisal of the sociological and psychological conceptual layers and the policy context necessary for understanding these issues all too often missing in other books written about this subject Through in depth interviews of forty carers coached in a way which enables the carers to talk in their own voice we get the rare opportunity of understanding the world of these carers In letting the carers speak Jones is enabling all of us to listen to them with the respect they deserve All of us but especially mental health professionals policy makers and researchers need to learn from the methodology utilised in this study and the content of the rich experiential seam Jones exposes as to how to listen better to carers and on which themes to focus in our working partnership with users and carers Professor Shulamit Ramon Anglia Polytechnic University Cambridge This book fills a gap in our

knowledge about the experiences of families of people suffering from severe mental illness Original research material is used to support claims that families are struggling with complex feelings such as loss anger and shame It is also argued that the ideas families themselves hold about mental illness form an important part of the cultural world in which mental illnesses are understood This stimulating book challenges many conventional assumptions about family relationships by arguing that they have to be understood in terms of myths that bring a certain amount of order to complex areas of emotional life The author argues that families if properly understood can provide significant support for people with severe mental illness **Mad**
