Barnhizer,2024-01-16 The United States education system especially its universities is under attack by the ideological Left dominated by advocates of Wokeism and Critical Race Theory Marshall McLuhan was a brilliant thinker best known for his insight that the medium is the message Universities as well as our entire educational medium including the K 12 system that feeds its graduates into the university and societal systems are powerful and overarching mechanisms that we use to shape our understanding For Western nations the ideal of the university and of education generally has been to provide us with analytical skills knowledge and the ability to create and nurture a healthy society that benefits as many people as possible That ideal and the university as educational and social medium is under severe attack The power to use the university as an overarching medium that offers a strong sense of legitimacy to even flawed and overstated arguments and assertions is why the institution is a target of an ideological Left that is now dominated by advocates of Wokeism and Critical Race Theory Once obtaining a strong power base in university disciplines and administrations the revolutionaries of race gender and other radical interests metamorphosed from heroic moral beacons fighting and railing against injustice and revealed themselves as ideological dictators The truth is that what

we now refer to as the Woke Critical Race Theory activist movement particularly that controlled by those who came to power in the past thirty years or so were not simply seeking to expand the nature and content of the university curriculum or even what is taught in the K 12 system Their intent was and is to destabilize transform and supplant what is taught They seek to create a culture that elevates their interests while aggressively repressing anything they see as an obstacle to power including healthy discourse and debate The activists of the Woke Critical Race Theory Movement are not an honest intellectual movement They are intense and aggressive political strategists self styled revolutionaries seeking to use our educational systems with the framed narrative of Diversity Equity and Inclusion DEI that is actually one of Division Enmity and Intimidation Indoctrination all the while claiming their interests are benign and aimed at healing In reality they are fracturing our fundamental social order sowing discord and deliberately suppressing the freedom of speech and thought essential to the well being of our democratic republic Conformity Colleges The Destruction of Intellectual Creativity and Dissent in America s Universities will help you understand what is happening and come to grips with the need to challenge counter and reverse this revolution Nothing of significance can be done to stop what is going on unless the DEI administrative bureaucracy that now controls universities is dismantled or substantially weakened **Medical Education:**

Theory and Practice E-Book Tim Dornan, Karen V. Mann, Albert J J A Scherpbier, John A. Spencer, 2011-12-02 Medical Education Theory and Practice is a new text linking the theory and the practice for graduate students and educators who want to go beyond the basics The scholarship of medical education is above all a practice but one that has a strong theoretical foundation Neither theory nor practice stand still and both are grounded in research The novelty of this book lies in its interweaving of practice theory innovation and research The book starts with a theorised contemporary overview of the field Next it explores the theoretical foundations of medical education in depth The remainder of the book reviews a whole a range of educational contexts processes and outcomes This work has been edited by a distinguished international team of medical educationalists and written by equally accomplished authors from across the globe representing a spectrum of disciplines This will be an invaluable text for all Masters Students in health professions education as well as PhD students and education researchers wanting a background to the discipline Educators and medical students will also find it a very useful resource Written by key figures in medical educational research combined with a strong editorial influence from the international editorial team The text has a strong evidence based approach that is fully cognisant of research methodology issues The book provides a scholarly explanation on the topic rather than aiming to say the last word Written throughout in a clear and comprehensible style The content is extensively referenced with additional suggestions for further reading

Newble, 2012-12-06 GEOFF NORMAN McMaster University Hamilton Canada CEES VAN DER VLEUTEN University of Maastricht Netherlands DA VID NEWBLE University of Sheffield England The International Handbook of Research in Medical Education is a review of current research findings and contemporary issues in health sciences education The orientation is toward research evidence as a basis for informing policy and practice in education Although most of the research findings have accrued from the study of medical education the handbook will be useful to teachers and researchers in all health professions and others concerned with professional education The handbook comprises 33 chapters organized into six sections Research Traditions Learning The Educational Continuum Instructional Strategies Assessment and Implementing the Curriculum The research orientation of the handbook will make the book an invaluable resource to researchers and scholars and should help practitioners to identify research to place their educational decisions on a sound empirical footing THE FIELD OF RESEARCH IN MEDICAL EDUCATION The discipline of medical education began in North America more than thirty years ago with the founding of the first office in medical education at Buffalo New York by George Miller in the early 1960s Soon after large offices were established in medical schools in Chicago University of Illinois Los Angeles University of Southern California and Lansing Michigan State University All these first generation offices mounted master s level programs in medical education and many of their graduates went on to found offices at other schools

Doing Great Harm? Stanley Goldfarb, 2025-09-30 The doctor who leads the movement to restore sanity to American medicine explains why we must rid it of identity politics Wokeness has taken over the medical establishment of the United States and the future of healthcare hangs in the balance So does the health of every American Dr Stanley Goldfarb a distinguished nephrologist and medical school dean was cancelled for questioning the effect that DEI Diversity Equity and

Inclusion was having on medical schools and the wider world of medicine But Dr Goldfarb didn't stay cancelled He founded Do No Harm the nation's leading organization in the fight to protect healthcare from the disastrous consequences of identity politics Dr Goldfarb refused to accept the repurposing of medical schools as places to produce gun control and climate change activists rather than doctors whose job it is to heal the sick In *Doing Great Harm* he exposes the ways in which identity politics DEI and gender radicalism have infected medical schools and the practice of medicine Besides doing a disservice to the many outstanding physicians of color identity politics have dismantled standards for admission to medical school decreased the quality of medical students increased the number of incompetent doctors throughout the land and enabled the chemical and surgical mutilation of minors A radical divisive and discriminatory ideology has captured the commanding heights of the medical profession But Americans don't want this in healthcare any more than they do in public safety or education and neither do most physicians Dr Stanley Goldfarb calls woke medicine what it is dangerous un-
