Gold and Gilt, Pots and Pins David Alban Hinton, 2005      **Gold and Gilt, Pots and Pins** David A. Hinton, 2005-03-24 In medieval Britain people wore jewellery made of gold if they were rich of base metal if they were poor they might hoard their property or give it away to guarantee that they would have friends when needed and many of them paid tax on their possessions In *Gold and Gilt Pots and Pins* David Hinton reviews the significance of artefacts in this period From elaborate gold jewellery to clay pots he looks at what possessions meant to people at every level of society His emphasis is on their reasons for acquiring keeping displaying and disposing of the things that they wore and had in their houses Drawing on a wide range of physical and documentary evidence including objects from archaeological excavations and written sources he argues that the significance of material culture has not been properly taken into account in explanations of social change particularly in the later Middle Ages He also explores how identity was created and how social division was expressed and reinforced An overall review that looks at evidence in Scotland and Wales as well as in England this book ranges chronologically from the end of the Roman rule of Britain to the introduction of the new modes and practices that are usually termed Renaissance marked by the changes in religion Profusely illustrated the author provides a fascinating and illuminating window into the society of the Middle Ages      **The Art of Anglo-Saxon England** Catherine E. Karkov, 2011 Providing a fresh appraisal of the art of Anglo Saxon England this text looks at its influence upon the creation of an identity as a nation      *The Lost Art of the Anglo-Saxon World* Alexandra Lester-Makin, 2019-11-01 This latest title in the highly successful *Ancient Textiles* series is the first substantial monograph length historiography of early medieval embroideries and their context within the British Isles The book brings together and analyses for the first time all 43 embroideries believed to have been made in the British Isles and Ireland in the early medieval period New research carried out on those embroideries that are accessible today involving the collection of technical data stitch analysis observations of condition and wear marks and microscopic photography supplements a survey of existing published and archival sources The research has been used to write for the first time the story of embroidery including what we can learn of its producers their techniques and the material functions and metaphorical meanings of embroidery within early medieval Anglo Saxon society The author presents embroideries as evidence for the evolution of embroidery production in Anglo Saxon society from a community based activity based on the extended family to organized workshops in urban settings employing standardized skill levels and as evidence of changing material use from small amounts of fibers produced locally for specific projects to large batches brought in from a distance and stored until needed She demonstrate that embroideries were not simply used decoratively but to incorporate and enact different meanings within different parts of society for example the newly arrived Germanic settlers of the fifth century used embroidery to maintain links with their homelands and to create tribal ties and obligations As such the results inform discussion of embroidery contexts use and deposition and the significance of this form of material culture

within society as well as an evaluation of the status of embroiderers within early medieval society The results contribute significantly to our understanding of production systems in Anglo Saxon England and Ireland      **The Watlington Hoard** John Naylor,Eleanor Standley,2022-06-16 Presenting the complete publication of the objects and coins in the Watlington Hoard the authors discuss its wider implications for our understanding of hoarding in late 9th century southern Britain interactions between the kingdoms of Wessex and Mercia and the movements of the Viking Great Army after the Battle of Edington in 878      **Daughters of London** Kate Kelsey Staples,2011-03-18 From an examination of medieval London s Hustling wills Daughters of London offers a new framework for considering urban women s experiences as daughters The wills reveal daughters equipped with economic opportunities through bequests of real estate and movable property      **The Ties that Bind** Katherine L.
