Golden Calf Which The World Worships And Adores:

The Golden Calf John Frederick Helvetius, 2011-12-04 I neither can nor will withhold from my honoured and beloved friends the knowledge of this Spagyric Art and of the most precious and miraculous Arcanum which I have not only seen with my own eyes but also executed with my own hands by changing a mass of lead into solid gold persistently resisting any test of fire through the addition of a small particle of our transmutatory powder It can no longer be pretended that our Art does not possess the power which it claims or that the Mercury of the Sages is not the great and glorious fountain of all natural marvels This wonderful secret has through the grace of God been revealed to me and as it is unworthy of man created in the image of God to maintain silence in regard to God's miraculous works like the brute beasts I have determined to unveil this grand Arcanum to you my beloved friends and I will now gird myself to tell you all that I know and have heard of the sayings and doings of the Great Artist Elias

The Hermetic Museum, Volume 2 Arthur Edward Waite, 2012 The Hermetic Museum was published in Latin at Frankfurt in the year 1678 and as its title implies it was an enlarged form of an anterior work which appearing in 1625 is more scarce but intrinsically of less value Its design was apparently to supply in a compact form a representative collection of the more brief and less ancient alchemical writers in this respect it may be regarded as a supplement to those large storehouses of Hermetic learning such as the Theatrum Chemicum and that scarcely less colossal of Mangetus the Bibliotheca Chemica Curiosa which are largely concerned with the cream of the archaic literature with the works of Geber and the adepts of the school of Arabia with the writings attributed to Hermes with those of Raymond Lully Arnold de Villa Nova Bernard Trevisan and others This is volume 2 out of 2 Contents The Golden Tripod Second Tract The Chemical Treatise Of Thomas Norton The Englishman Called Believe Me Or The Ordinal Of Alchemy The Testament Of Cremer The New Chemical Light A Preface To

The Story of Alchemy and the Beginnings of Chemistry M. M. Pattison Muir, For thousands of years before men had any accurate and exact knowledge of the changes of material things they had thought about these changes regarded them as revelations of spiritual truths built on them theories of things in heaven and earth and a good many things in neither and used them in manufactures arts and handicrafts especially in one very curious manufacture wherein not the thousandth fragment of a grain of the finished article was ever produced The accurate and systematic study of the changes which material things undergo is called chemistry we may perhaps describe alchemy as the superficial and what may be called subjective examination of these changes and the speculative systems and imaginary arts and manufactures founded on that examination We are assured by many old writers that Adam was the first alchemist and we are told by one of the initiated that Adam was created on the sixth day being the 15th of March of the first year of the world certainly alchemy had a long life for chemistry did not begin until about the middle of the 18th century *The Story of Alchemy and the Beginnings of Chemistry* Matthew Moncrieff Pattison Muir,1902 *The Hermetic Museum, Restored and Enlarged: Volume II* Various,
