Ewens,2024-08-22 While David Bowie was alive his songs and their strange commentaries on modern life had some kind of deep significance that made sense of it all for many people His music evokes something futuristic and prophetic to his fans This book shed light on Bowie s songwriting in the early most lauded part of his career his much vaunted sense of alienation and his desperate search to make music that was art Everything he did was infused with a kind of indescribable oddness like his two mismatched eyes He had a lifelong interest in ideas about life on other worlds and yet one of his many songs associated with this theme Life On Mars is more concerned with the failings of this planet When he sang Starman on Top Of The Pops in 1972 his arm draped around the shoulders of his talented lead guitarist Mick Ronson he lit up a million teenage hearts This is a complete examination of all the songs from Bowie s golden years which extends from his days as a mod saxophonist through to his astonishing 1980 hit album Scary Monsters And Super Creeps His songs run the gamut from extraordinary to esoteric but were always written from the heart Carl Ewens born in Burnley Lancashire in 1960 has previously published an absurdist science fiction novel two books of poetry and a similar book about the songwriting of Marc Bolan He also produces music under the pseudonym Psyfolk His interests range from reading novels to football art photography film and history as well as UAPs and spirituality He also has a degree in Social Anthropology and Comparative Religion He is a lover of real ale but isn t keen on the currently trendy obsession with hazy IPAs as he thinks they all taste of grapefruit He lives in West Sussex UK
