Egypt's Golden Couple John Darnell, Colleen Darnell, 2022-11-01 Two celebrated Egyptologists bring to vivid life the intriguing and controversial reign of King Tut's parents Akhenaten has been the subject of radically different even contradictory biographies The king has achieved fame as the world's first individual and the first monotheist but others have seen him as an incestuous tyrant who nearly ruined the kingdom he ruled The gold funerary mask of his son Tutankhamun and the painted bust of his wife Nefertiti are the most recognizable artifacts from all of ancient Egypt But who are Akhenaten and Nefertiti And what can we actually say about rulers who lived more than three thousand years ago November 2022 marks the centennial of the discovery of the tomb of Tutankhamun and although King Tut is a household name his nine year rule pales in comparison to the revolutionary reign of his parents Akhenaten and Nefertiti became gods on earth by transforming Egyptian solar worship innovating in art and urban design and merging religion and politics in ways never attempted before Combining fascinating scholarship detective suspense and adventurous thrills Egypt's Golden Couple is a journey through excavations museums hieroglyphic texts and stunning artifacts From clue to clue renowned Egyptologists John and Colleen Darnell reconstruct an otherwise untold story of the magnificent reign of Akhenaten and Nefertiti **Gold and Gold Mining in Ancient Egypt and Nubia** Rosemarie Klemm, Dietrich Klemm, 2012-12-13 The book presents the historical evolution of gold mining activities in the Egyptian and Nubian Desert Sudan from about 4000 BC until the Early Islamic Period 800-1350 AD subdivided into the main classical epochs including the Early Dynastic Old and Middle Kingdoms New Kingdom including Kushitic Ptolemaic Roman and Early Islamic It is illustrated with many informative colour images maps and drawings An up to date comprehensive geological introduction gives a general overview on the gold production zones in the Eastern Desert of Egypt and northern Nubian Sudan including the various formation processes of the gold bearing quartz veins mined in these ancient periods The more than 250 gold production sites presented are described both from their archaeological as far as surface inventory is concerned and geological environmental conditions resulting in an

evolution scheme of prospection and mining methods within the main periods of mining activities The book offers for the first time a complete catalogue of the many gold production sites in Egypt and Nubia under geological and archaeological aspects It provides information about the importance of gold for the Pharaohs and the spectacular gold rush in Early Arab times
