Goldfish have long been one of the most popular pets, and for good reason. They are easy to care for, and they can live for up to 10 years. They are also very colorful, and they can be found in many different shapes and sizes.

What do goldfish eat?
Goldfish are omnivores, and they will eat anything that is small enough to fit in their mouths. This includes algae, plants, and small insects. They are also very curious, and they will often investigate new things that are put in their tanks.

How do I care for my goldfish?
Goldfish are very hardy, and they can live in a variety of different environments. However, they do need a clean, well-maintained tank. This means regular water changes, and a good filtration system. They also need a good diet, and they should be kept in a tank with other goldfish.

wrong plants are used in a Goldfish aquarium you will find just stalks left by the next morning

Section 3 How and What to Feed Goldfish Feeding Goldfish is one of the most important parts of Goldfish care The fancier the variety the more important it is that their diet doesn't cause digestive problems such as swim bladder disorder

Section 4 Common Diseases and Dangers This section covers fungal bacterial and parasitical diseases and covers 14 of the more common diseases

Section 5 Commonly Available Goldfish Varieties Although there are well over 100 varieties of goldfish there are only 12-13 that are commonly available in Europe and America Each variety has its own special needs Learn which varieties can and shouldn't be mixed together

Section 6 Breeding Goldfish and Raising Fry Many enthusiasts breed their fish few raise any to adulthood Once you have successfully spawned your Goldfish the book details how to avoid parasite infestation and the best and easiest food to prepare and feed your fry is explained

Section 7 Live Food Cultures To be successful raising Goldfish from fry to adult requires culturing live foods especially when the fry are under a month old One of the easiest live foods to grow is brine shrimp which is ideal as a first food for fry

Section 8 Ponds Filters and Clarifiers Installing a Goldfish pond can be a large commitment There are many decisions to be made before work starts Location is one of the most important as is filter selection Even heavily filtered ponds will go green because most pond filters can't filter out suspended algae A UV clarifier can provide crystal clear water all year round Learn how to calculate what size clarifier you need for your pond or aquarium
