University of New Mexico,1935      **Edmond de Goncourt and the Novel** Katherine Ashley,2021-11-22 Edmond de Goncourt s four solo novels are not simply extensions of the Goncourt brothers joint project but attempts to deviate from the Naturalism with which their name had come to be associated By analysing paratexts the relationship between documentation and fiction as well as plot devices and themes this study links the evolution of Goncourt s fiction to wider literary debates surrounding Naturalism Decadence and the renewal of the novel in fin de si cle France In bringing Goncourt s writings to an English speaking public it will be of interest to students and scholars of the literary history of late nineteenth century France

**Edmond and Jules De Goncourt** Marie Belloc Lowndes,Marie L. Shedlock,1895      Germinie Lacerteux Edmond de Goncourt,Jules de Goncourt,2022-11-20T00:07:54Z Germinie Lacerteux had a rough childhood in the French countryside but when she finds employment as a maidservant in Paris her life seems to be taking a turn for the better Her mistress Mademoiselle de Varandeuil treats her fairly and in Jupillon son of a local dairy shop owner she finds a secret lover But her generous nature and self sacrificial spirit make her vulnerable to his abuse and depravity Her boundless love and loyalty will ultimately plunge her into debt alcoholism nymphomania and depression and a never ending struggle to hide the dark side of her life from her mistress In this their fourth novel the brothers Edmond and Jules de Goncourt took inspiration from events close to home the passing of their maidservant Rose revealed her sordid hidden life much like Germinie s They called the novel that arose from their shock and surprise at Rose s secrets their clinic of love and it was met with high praise and utter disgust alike A young mile Zola adored the novel and Vincent van Gogh called it life as it is making the book one of the subjects of a still life Other contemporary writers were less enthusiastic calling it putrid and chiseled mire This could hardly have been a surprise to the Goncourt brothers for they already warned in the preface this book furnishes entertainment of a melancholy violent sort calculated to disarrange the habits and injure the health of the public This book is part of the Standard Ebooks project which produces free public domain ebooks      *Art and Fashion* Alice Mackrell,2005-01-07 Takes a detailed look at the flow of ideas between the twin worlds of art and fashion chronicling their close relationship It charts a

history of ideas highlighting key moments from the Renaissance to the present day when art and fashion interacted and influenced each other This close synergy between art and fashion has continued into the 21st century with artists working with themes that explore clothes and the body and top fashion designers feted in lavish museum exhibitions Back cover

Pages from the Goncourt Journals Edmond de Goncourt, Jules de Goncourt, 2006-11-14 No evocation of Parisian life in the second half of the nineteenth century can match that found in the journals of the brothers Goncourt The journal of the brothers Edmond and Jules de Goncourt is one of the masterpieces of nineteenth century French literature a work that in its richness of color variety and seemingly casual perfection bears comparison with the great paintings of their friends and contemporaries the Impressionists Born nearly ten years apart into a French aristocratic family the two brothers formed an extraordinarily productive and enduring literary partnership collaborating on novels criticism and plays that pioneered the new aesthetic of naturalism But the brothers talents found their most memorable outlet in their journal which is at once a chronicle of an era an intimate glimpse into their lives and the purest expression of a nascent modern sensibility preoccupied with sex and art celebrity and self exposure The Goncourts visit slums brothels balls department stores and imperial receptions they argue over art and politics and trade merciless gossip with and about Hugo Baudelaire Degas Flaubert Zola Rodin and many others And in 1871 Edmond maintains a vigil as his brother dies a slow and agonizing death from syphilis recording every detail in the journal that he would continue to maintain alone for another two decades *A World Apart* Beth W. Gale, 2010 Many of the novels analyzed in this study enjoyed mitigated success in France when they were first published and are all but forgotten today Societal conditions gave female writers secondary status and repressed the expression of subversive ideas regarding young women These novels mark the birth of French interest in the documentation and shaping of young female experience through literature Literary portrayals of the unique space of female adolescence reveal hopes and fears concerning the future gender relations social institutions and a country's place in the world

**Vermeer's Wager** Ivan Gaskell, 2000-10 Vermeer's Wager stands at the intersection of art history and criticism philosophy and museology Using a familiar and celebrated painting by Johannes Vermeer as a case study Ivan Gaskell explores what it might mean to know and use a work of art He argues that art history as generally practiced while successfully asserting certain claims to knowledge fails to take into account aspects of the unique character of works of art Our relationship to art is mediated not only through reproduction particularly photography but also through displays in museums In an analysis that ranges from seventeenth century Holland through mid nineteenth century France to artists and curators practice today Gaskell draws on his experience of Dutch art history philosophy and contemporary art criticism Anyone with an interest in Vermeer and the afterlife of his art will value this book as will all who think seriously about the role of photography in perception and the core purposes of art museums *Edmond de Goncourt and the Novel* Katherine Ashley, 2005 Edmond de Goncourt's four solo novels are not simply extensions of the Goncourt brothers joint project but

attempts to deviate from the Naturalism with which their name had come to be associated By analysing paratexts the relationship between documentation and fiction as well as plot devices and themes this study links the evolution of Goncourt's fiction to wider literary debates surrounding Naturalism Decadence and the renewal of the novel in fin de siècle France In bringing Goncourt's writings to an English speaking public it will be of interest to students and scholars of the literary history of the late nineteenth century France

**BOOK JACKET Proust, the Body and Literary Form** Michael R. Finn, 1999-03-25 This 1999 study examines the connections between Proust's fin de siècle nervousness and his apprehensions regarding literary form Michael Finn shows that Proust's anxieties both about bodily weakness and about novel writing were fed by a set of intriguing psychological and medical texts and were mirrored in the nerve based afflictions of earlier writers including Flaubert Baudelaire Nerval and the Goncourt brothers Finn argues that once Proust cast off his concerns about being a nervous weakling he was freed to poke fun both at the supposed purity of the novel form Hysteria as a figure and as a theme becomes a key to the Proustian narrative and a certain kind of wordless bodily copying of gesture and event is revealed to be at the heart of a writing technique which undermines many of the conventions of fiction

**The Colour of Paris by the Academie Goncourt** Coshio Markino, 1920 **New Americanized Encyclopedia Britannica** Encyclopaedia Britannica, inc, 1903 *The World-wide Encyclopedia and Gazetteer* William Harrison De Puy, 1899 **The Encyclopædia Britannica: New American supplement. A-ZUY** Day Otis Kellogg, Thomas Spencer Baynes, 1903 **The Encyclopædia Britannica**, 1905 **The Encyclopaedia Britannica** Day Otis Kellogg, Thomas Spencer Baynes, William Robertson Smith, 1902 Saint Hysteria Cristina Mazzoni, 1996 Saint Hysteria examines scientific literary and religious texts that share a fascination with the otherness of the female body whether in ecstatic pleasure or in neurotic pain Cristina Mazzoni focuses on material from the late nineteenth and early twentieth centuries mainly in Italy and France Her approach uses the methodologies of cultural studies and feminism but also benefits from the insights of psychoanalytic criticism She asks how the identification of mysticism with hysteria became prevalent and explores the continuing dialogue between a historicizing view of hysteria and a view of hysteria as repressed religious mysticism According to Mazzoni this dialogue is discernible at various levels and in a variety of discourses The medical history of hysteria she maintains is often linked to the religious history of supernatural phenomena and the medical discourse of positivism depends on the religious feminine element that it attempts to repress Similarly she finds a continuity between the literature of naturalism and that of decadence in their representations of the interdependence of neurosis and religion Finally the religious writings of women mystics and the discourses they inspired reveal an unresolved tension between nature and supernature body and soul or psyche which Mazzoni suggests mirrors and complicates the very issues raised by hysterical conversion Among those whose views she considers are the writers Jules and Edmond de Goncourt Gabriele d'Annunzio and Antonio Fogazzaro as well as Graham Greene and Simone Weil the mystics Angela of Foligno Gemma Galgani and Teresa of Avila and the theorists Jean Martin
