Sport Andrew McFarland, 2022-12-01 This book examines how and why sport in general and football in particular entered the country and developed successfully between 1890 and the 1920s while placing that growth within the context of Spain's larger historical experience The introduction of sport in the late 19th century permanently changed the day to day lives of thousands of Spaniards Initially the country's growing urban middle classes embraced the new activity as they built community identities and were introduced to it through economic and educational connections to foreigners To justify this these proponents argued that the adoption of physical education and sport would physically regenerate the nation In

response well rounded sporting communities grew developed medical arguments and even debated the activity s appropriateness for different groups like women As sport spread it produced the first football clubs around the turn of the century Subsequently in the 1910s and early 1920s football established the structural institutions like stadiums stars regulatory bodies and a press that enabled its rapid expansion as a mass consumer activity in the late 1920s Regeneration through Sport looks at how this process embedded the sport within the national culture and established itself as a politically neutral activity before the Spanish Second Republic allowing it to become almost ubiquitous today This book will appeal to researchers students and scholars alike who are interested in the history of sport Spain and European history *Cultural*

Disenchantments Douglas R. Holmes, 2021-03-09 Douglas Holmes develops the concept of peasant worker society to analyze a kind of social formation that has until now gone largely unrecognized and unstudied His book portrays the dissonant crosscurrents created at the interface of urban industrial and rural peasant spheres Examining the region of Friuli in northeast Italy it shows how wage labor was adopted by country folk who maintained ties to small scale cultivation and indigenous traditions Holmes draws on the Weberian notion of the disenchantment of the world to examine the cultural issues that animate peasant worker life What emerges is a vivid picture of the economic political religious and ethnic struggles that infuse the peasant worker milieu as traditional representations of reality are pitted against bureaucratic definitions and formulas emanating from Church state and market institutions In addition to providing a general theoretical framework for the analysis of peasant worker society and culture *Cultural Disenchantments* is the first anthropological study of Friuli to be published in English As such it elaborates on the historical insights developed by Carlo Ginzburg in his famous study of sixteenth century agrarian cults and folk traditions in Friuli **Beyond the Family** A. F. Robertson, 1991

Reproduction is the most vital process in the regeneration of our species and our society Nevertheless its influence on the shape of the modern world has been consistently overlooked by social scientists who have emphasized the erosion of the family in industrialized societies In A F Robertson s view families persist And the goal of reproduction plays an essential role in everything from the organization of political parties to the growth of banks and factories Robertson inverts the traditional wisdom that reproduction responds passively to the powerful transformative force of technology Reproduction he asserts requires such extensive cooperation on the state and community level as well as within the family that it has had great impact on our social and political organization Whether discussing Lesotho women and the South African economy or the effects of the family on the development of capitalism Robertson demonstrates that the ramifications of human reproduction extend far beyond the family Boldly argued and laced with cross cultural comparisons *Beyond the Family* synthesizes the writings of a range of thinkers It is sure to garner discussion and debate among divergent scholars of many stripes

Historical Dictionary of Spain Angel Smith, 2017-12-29 Following Spain s transition to democracy in the 1970s the country experienced rapid economic modernization the establishment of a functioning liberal democracy and a cultural

renaissance Along with rising living standards over the following thirty years ordinary Spaniards experienced massive improvements in the road and rail networks in local amenities from sporting facilities to centers for the aged and in the public health system As a result by the start of the 20th century Spaniards had largely overcome any sense of inferiority in comparison with other major western European countries and the United States However Spain was hit by a severe economic recession between 2008 and 2011 and unemployment levels are still very high Moreover a large number of corruption cases have come to light and tensions between the central government and Catalan autonomous government have burst into open conflict Restructuring the Spanish economy ensuring probity in public life and accommodating Catalonia within the Spanish state are therefore key tasks in the decade the lies ahead This third edition of the Historical Dictionary of Spain contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has more than 700 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture The book is an excellent resource for students researchers and anyone wanting to know more about Spain

Producing Culture and Capital Sylvia Yanagisako,2020-06-16 Producing Culture and Capital is a major theoretical contribution to the anthropological literature on capitalism as well as a rich case study of kinship and gender relations in northern Italy Drawing on ethnographic and archival research on thirty eight firms in northern Italy s silk industry Sylvia Yanagisako illuminates the cultural processes through which sentiments desires and commitments motivate and shape capitalist family firms She shows how flexible specialization is produced through the cultural dynamics of capital accumulation management succession firm expansion and diversification and the reproduction and division of firms In doing so Yanagisako addresses two gaps in Marx s and Weber s theories of capitalism the absence of an adequate cultural theory of capitalist motivation and the absence of attention to kinship and gender By demonstrating that kinship and gender are crucial in structuring capitalist action this study reveals these two gaps to be different facets of the same omission A process oriented approach to class formation and class subjectivity enables the author to incorporate the material and ideological struggles within families into an analysis of class making and self making Yanagisako concludes that both provincial and global capitalist orientations and strategies operate in an industry that has always been integrated into regional and

international relations of production and distribution Her approach to culture and capitalism as mutually constituted processes offers an alternative to both universal models of capitalism as a mode of production and essentialist models of distinctive cultures of capitalism Catalonia Kenneth McRoberts,2022 This second edition offers an overview of Catalonia s political cultural and economic life and its relations with the rest of Spain It analyzes the remarkable transformation that has taken place over the last decade and offers important insights about the origins of nationalism and politics of secessionism *Modern Spain* Pamela Beth Radcliff,2017-03-07 Modern Spain 1808 to the Present is a comprehensive overview of Spanish history from the Napoleonic era to the present day Places a large emphasis on Spain s place within broader European and global history The chronological political narrative is enriched by separate chapters on long term economic social and cultural developments This presentation of modern Spanish history incorporates the latest thinking on key issues of modernity social movements nationalism democratization and democracy

Networks of Influence and Power Robert Lee,2023-12-01 During the nineteenth century Liverpool became the heart of an international maritime network As the second city of Empire its merchants and shipowners operated within a transnational commercial and financial system while its trading connections stimulated the development of new markets and their integration within an increasingly global economy This ground breaking volume brings together ten original contributions that reflect upon the development of the city s business community from the early nineteenth century to the outbreak of the First World War with an emphasis on the period from 1851 to 1912 It offers the first detailed analysis of Liverpool s merchant community within a conceptual and historiographical framework which focuses on the economic social and cultural role of business elites in the nineteenth century It explores the extent to which business success was predicated on the maintenance of networks of trust analyses the importance of business culture in structuring commercial operations and discusses the role of ethics trust and reputation within the changing framework of the business environment Particular attention is paid to the role of women and the important contribution of the family to commercial success and the maintenance of social networks Changes in business practice and social networks are also examined within a spatial context in order to assess the impact of the development of a distinct commercial centre and the clustering of commercial activity on interaction reputation and trust while particular attention is paid to the effect of suburbanization on existing associational networks the social cohesiveness of business culture and the cultural identity of the merchant community as a whole *The Barcelona Reader* Enric Bou,Jaume Subirana,2017-07-24 The first comprehensive Reader to accompany the remarkable city of Barcelona Iberian Cities Joan Ramon Resina,2013-01-11 This multi disciplinary study explores the explosion of cultural social linguistic and architectural development in urban and rural settlements on and surrounding the Iberian peninsula during the 20th century The Splendor and Opulence of the Past Paul Freedman,2023-11-15 The Splendor and Opulence of the Past traces the career of Jaume Caresmar 1717 1791 a church historian and a key figure of the Catalan Enlightenment who transcribed tens of

thousands of parchments to preserve and glorify Catalonia's medieval past in the face of its diminishing autonomy As Paul Freedman shows Caresmar's books essays and transcriptions some only recently discovered provide fresh insights into the Middle Ages as remembered in modern Catalonia and illustrate how a nation's past glories and humiliations can inform contemporary politics and culture From the ninth to the sixteenth centuries Catalonia was a thriving independent set of principalities within what would become modern Spain In the wake of the dismantling of its autonomy by the eighteenth century Spanish state Catalan scholars looked to the region's medieval independence and wealth as a means of maintaining a distinct Catalan identity and resisting Castilian hegemony Through their writings and archival investigations Caresmar and the canons at Santa Maria de Bellpuig de les Avellanes where Caresmar was abbot laid the foundations for not only the scholarly exploration of the Middle Ages but also the development of Catalan national sentiment Although the eighteenth century is often regarded as a low point for the Catalan language and culture *The Splendor and Opulence of the Past* emphasizes the importance of this period's antiquarians to Catalan projects of modernization and economic progress and links their historiography of the Middle Ages to struggles over Catalonia's relationship to the Spanish state over two centuries

Mieres Reborn A. F. Robertson, 2012-04-09 *Mieres Reborn* reveals how patient observation and an analysis of one small community have much to tell us about human progress more generally Not long ago Mieres a village in the eastern foothills of the Pyrenees seemed destined to die As in countless thousands of rural communities around the world young people in Mieres over the years have moved to the towns and cities leaving behind abandoned fields and meadows derelict houses and their aging and disconsolate parents and grandparents Close observation of this social microcosm over two decades reveals the capacity of ordinary people in a locality to reinvent themselves reconstruct relationships with the wider world and confront new threats to their collective survival A F Robertson describes how the determination that Mieres should survive is most evident in a vigorous round of fiestas fairs and other public events in which natives exiles and newcomers work to create a lively sense of belonging Since the 1980s Mieres has been enlivened by a reverse flow of migrants from the cities new settlers who have brought an infusion of youth to the community devised new livelihoods revitalized the village school energized the native Mierencs and provided the impetus for a rediscovery of historical roots and political identity The regeneration of life in the countryside in part a reaction to urban expansion and decay is a global phenomenon of increasing political economic and social significance
