Good Faith And Fault In Contract Law:

Good Faith and Fault in Contract Law J. Beatson, Daniel Friedmann, 1995 This collection of essays brings together the work of many of the world's leading Contract Law scholars. It focuses upon a common central theme: the question of good faith and fair dealing in the Law of Contract. The work discusses the requirement of good faith and its role in the formation of contracts, contractual obligations, and Breach of Contract and Remedial Issues.

Good Faith in European Contract Law Reinhard Zimmermann, Simon Whittaker, 2000-06-08 For some Western European legal systems the principle of good faith has proved central to the development of their law of contracts, while in others it has been marginalized or even rejected. This book starts by surveying the use or neglect of good faith in these legal systems and explaining its historical origins. The central part of the book takes thirty situations which would in some legal systems attract the application of good faith, analyses them according to fifteen national legal systems, and assesses the practical significance of both the principle of good faith and its relationship to other contractual and non-contractual doctrines and forms of regulation in each situation. The book concludes by explaining how European lawyers, whether from a civil or common law background, may need to come to terms with the principle of good faith. This was the first completed project of The Common Core of European Private Law, launched at the University of Trento.

Contract Law Neil Andrews, 2011-05-26 This textbook takes a fresh approach to contract law. As a first edition, it reflects the subject in the 21st century more accurately than other texts. Comprehensive and scholarly, it maps the curriculum perfectly, but detailed references and further reading sections encourage students to explore the subject further. Understanding is paramount, and chapter introductions clearly guide students through the material. The textbook takes an innovative approach to case law, breaking down and discussing individual elements of a case and selecting short key extracts. It gives students the tools to read cases independently and with confidence. An examination of the historical and theoretical foundations of the subject and a concluding chapter tracking emerging fields ensure the broadest possible perspective. Discussion of key recent cases such as *Durham*, *Tess Valley Airport* (2010) and *Chartbrook* (2009) make this important new text a must for contract law students.

Good Faith Obligation Alex Wan, Peng Guo, 2024-09-10 This book provides a study on the relevance of good faith obligation with a specific focus on Australia and China. Good faith has been hailed as one of the most important unresolved contractual issues in contract law. There have been numerous judicial approaches over the years to articulate a baseline for good faith application; however, the direction taken in dealing with this important issue is generally unsatisfactory, both in producing a coherent understanding of the role and sustaining a uniform application of good faith in contracts. This book concentrates on examining whether the continued relevance of good faith in arm's length contractual relationships, based on the reasonable expectations of the contracting parties, can be maintained. To accomplish this, good faith is examined by revisiting the legal approaches from a comparative perspective in understanding whether there is a continuing role for good faith in commercial contracts.

Contracts Anthony Gray,2024-10-31 This book explores the use of the doctrine of good faith in the common law when interpreting contracts and resolving disputes This doctrine is well accepted in civil law is reflected in international commercial law and is a fundamental aspect of private law in the USA However its use in the UK is extremely limited Inconsistent application has given rise to confusion and uncertainty This apparent antipathy is somewhat hard to fathom given its previous widespread acceptance in English law The book explains in depth the history of good faith in English law and clarifies its current status in English Australian and international law It explores the relationship between good faith within contractual relations and the neighbour principle in tort law and notes the workability of good faith in the commercial context of insurance This will be welcomed by contract lawyers in both common law and civil law jurisdictions A subsequent volume will explore how acceptance of good faith in the law might lead to a re interpretation of existing contract law doctrine

Howells, Reiner Schulze, 2009 In October 2008 the European Commission published the Proposal for a Consumer Rights Directive a proposal that suggests far reaching changes to the core of consumer contract law Four current directives are replaced by a new overarching piece of legislation In doing so full harmonization should for the most part take the place of the minimum standard presently in force in the EU Although a welcomed initiative the extent and possible effects of the Proposal have certainly brought a number of issues to the fore In January 2009 legal experts from universities legal practices and the civil service met at Manchester University to address the issues raised by the Proposal and to address the question of the extent to which the Proposal can indeed contribute to the modernization and harmonization of European consumer contract law This book contains the proceedings of the conference and includes papers that analyze criticize and suggest improvements for the Proposal
