for me at that time Going solo was the rule and not an exception But things changed later while working It was a different matter altogether I never knew when the call would come from the top for me to get myself to such and such place by such and such time to attend such and such a meeting or meet XYZ At that time I always had a bag packed in a corner because I never knew when I had to drop everything and fly down to all corners of the compass on official duty Sometimes I had my team of colleagues and juniors with me Sometimes I was needed to go alone And half of them just hated the idea of traveling because they were not used to it Even when tickets hotel stay transport and all other facilities were laid out for them they just did not want to go and see a brand new place and experience a brand new culture How much they have missed out of life This book is for all those adventurous souls who want to go out somewhere and experience new experiences but there always daunted by the thought that it is not safe for women to travel anywhere in their own country or outside And definitely not traveling solo in this world full of crime and xenophobia This book is to explode some of those myths This book is also going to give you lots of useful information about safety tips for women traveling alone based on my experiences as well as the experiences of my other peripatetic friends Also there are some amusing anecdotes and episodes recounted to me by my well traveled father which may not exactly touch on safety but can touch on some of the experiences that you may face when visiting a new country So let the adventure begin
