Smyth, 2005 Health care is clearly in transition but to where Managed or unmanaged care HMO s or not Are insurance companies and hospitals the enemy of health care for their own patients What about the 40 000 000 uninsured in America Don t ask the patients for they have become the ping pong balls in the health care game This book examines important issues in this ever growing maze      *Our Parents, Ourselves* Judith Steinberg Turiel, 2005-11-09 The prospect of caring for elderly relatives who may be too old fragile or forgetful to manage on their own looms large for millions of women and men who are unprepared for the difficulties such an experience can bring Written by a daughter of aging parents this book takes an honest unflinching look at aging in America weaving together personal stories with current medical information to trace exactly how social and health care policies are affecting daily lives Judith Steinberg Turiel addresses such topics as healthy aging and independent living mental impairment brought on by Alzheimer s other dementias and depression women as caregivers health care rationing the power of prescription drug makers end of life care and prospects for Medicare Her book clearly demonstrates the pressing need for quality health care for people of all ages through universal publicly funded health insurance      **Universal Health Care**

Kristina Lyn Heitkamp, 2018-07-15 With the Affordable Care Act signed into law in 2010 the United States seemed closer than ever to achieving universal health care However repealing the act has been a key goal for the Trump administration and the Republican controlled Congress with the main arguments against it including the higher premiums for middle class Americans and the abuse of government power through its control of the insurance industry This volume helps define universal health care explains the arguments for and against it and discusses attempts to implement it on an international scale      Health Services Reports United States. **Inequality** Yukiko Asada, 2007-01-01 In the last decade there has been an explosion of academic interest in health inequality Although it is seldom stated explicitly research into this area is inexorably tied to questions of morality and ethics In this study Yukiko Asada seeks to acknowledge the role that morality and theories of justice play in health inequality research and to articulate the moral philosophy underlying this field of inquiry Comprised of two distinct parts Health Inequality first proposes a framework for measuring health inequality reflecting moral concern then goes on to show how this framework can be applied to quantitative study Using a specific time period as a case study Asada questions whether or not health equity improved in the United States between 1990 and 1995 She suggests that the question of whether and by how much health inequity changed in the United States is dependent on the morality and accompanying empirical strategy used in the

analysis A unique blend of philosophy and quantitative research Health Inequality will prove a valuable tool for academics and policymakers alike *In critical condition* United States. Congress. Senate. Special Committee on Aging,2003

Transatlantic Policymaking in an Age of Austerity integrates the study of politics and public policy across a broad spectrum of regulatory and social welfare policies in the United States and several nations of Western Europe The editors and a sterling list of contributors look at policymaking in the 1990s through the present providing a comparative politics framework stressing both parallel development and the differences between and among the nations Similar prevailing ideas and political factors can be identified and transatlantic comparisons made providing for a clearer understanding of the policymaking process Faith in regulated markets and the burden of rising welfare costs are concerns found on both sides of the Atlantic Western democracies also share political climates colored by economic austerity low trust in government pressures from interest groups and a sharply divided electorate Because of differing political processes and differing policy starting points a variety of disparate policy decisions have resulted Real world policymaking in the areas of welfare health labor immigration reform disability rights consumer and environmental regulation administrative reforms and corporate governance are compared Ultimately the last decade is best characterized as one of drift sluggish changes with little real innovation and much default to the private sector In general policymakers on both sides of the ocean constrained by economic necessity have been unable to produce policy outcomes that satisfy the key segments of the electorate The contributors examine the United States Great Britain France and Germany as well as a number of other European countries and study the European Union itself as a policymaking institution Transatlantic Policymaking in an Age of Austerity distills the prominent issues politics and roles played by governmental institutions into a new understanding of the dynamics of policymaking in and among transatlantic nations **Impact of Gaps in Health Coverage on Income Security** United States.
