Human Development and Economic Growth Gurinder Jit Singh Bhullar, 2013 Human development plays a pivotal role in the process of economic development A country's potential to grow is dependent not only on physical resources but also on human resources Human capital formation is both qualitative and quantitative in the sense that it involves attainment of the skills education and experience as well as enhancing the number of individuals who possess these qualities The modern concept of development is much more than the increase in income and output Rather it is a multi dimensional process which involves the reorganization and reorientation of the whole economic and social system It not only involves radical changes in institutional social and administrative structures but also in popular attitudes customs and beliefs Economic development in modern times is understood inter alia in terms of reduction of poverty inequality and unemployment in a growing economy Human capital formation thus is central to any development strategy This book contains a comprehensive study on the inter relationship between human development and economic

growth covering most of the countries of the world categorized as developing countries high income countries upper middle income countries lower middle income countries low income countries and all countries taken together

Contemporary Global Perspectives on Gender Economics Moore, Susanne, 2015-07-24 The rise of women in the workforce has led to many campaigns for wage equality and the impartial treatment of both sexes as they pursue careers previously designated as either a man's or a woman's job The impact of these campaigns has been felt but a sense of gender stereotyping still affects not only the social and cultural well being of the modern organization but the drive for innovation and economic success as well Contemporary Global Perspectives on Gender Economics challenges current economic theory targeting the way gender is often used for economic gain or increased market share Experts realize that company growth can no longer be achieved by taking a conventional approach but few follow through with introducing new frameworks that change the way diversity is treated By acknowledging that issues like childcare and the wage gap are not only a woman's challenge this book speaks to legislators and policymakers economic developers corporate practitioners educational faculties and students of all disciplines who are looking to change the way gender is viewed in the workforce This essential reference source features chapters that combine the concepts of gender theory sociology and economics and cover topics including economic equality gender bias the history of gender economics industrial creativity and the impact of social connectedness on life satisfaction

Global Perspectives on Technology Transfer and Commercialization John Sibley Butler, David V. Gibson, 2011-01-01 As we move further into the 21st century increasing emphasis is being placed on the importance of technology transfer Through new research and practices scholars practitioners and policymakers have made great strides in broadening our understanding and ability to implement technology transfer and commercialization processes The fruit of that research is collected in this timely volume Technology transfer is a dynamic area of study that examines traditional topics such as intellectual property management the management of risk market identification the role of public and private labs and the role of universities This volume reflects on how government business and academia influence technology transfer in different countries and how the infrastructure of a country enhances technology and contributes to each country's overall economy Interpreting and adopting the processes of technology transfer and commercialization or building innovative ecosystems is critical to seeing success in this digital age Those leading the surge toward building innovative ecosystems for technology transfer are the fellows of the Institute for Innovation Creativity and Capital IC2 Institute at The University of Texas at Austin Global in its scope of solving market economy problems for this volume the Institute has focused its lens on accelerated knowledge based development Here scholars from 13 countries come together to critique technology transfer from each of their respective nations The results of their contributions lend innovative insight to exactly how different nations are working to maximize technology transfer and commercialization in uncertain times Those with an interest in commercialization and technology transfer from students to scholars practitioners to policymakers will find this important collection of great value

Human Rights and Social Justice in a Global Perspective Susan C. Mapp, 2020-07-17 Social workers are global actors. From protecting the rights of individuals to working through the lasting impact of regional or international conflict, it is important to acknowledge the impact international social issues have on the work of social workers. In the third edition of *Human Rights and Social Justice in a Global Perspective*, Susan C. Mapp utilizes the human rights approach to examine social issues in the Global South, including AIDS, human trafficking, war and conflict, and climate change. Using the Universal Declaration of Human Rights as well as other UN human rights documents as a framework to examine social injustice and human rights violations, these issues are explained holistically to allow readers to understand the cultural context in which they arise and why they persist in society today. Each chapter closes with a Culture Box which offers an in-depth look into the issue and cultural impacts surrounding a specific country. Mapp provides suggestions for affecting change on every issue, both as a professional social worker and in one's personal life, making this an ideal text for those looking to engage with international social work.

Dry Ports - A Global Perspective Rickard Bergqvist, 2016-04-29 As centres for logistics activities, seaports have traditionally been the focus of maritime logistics chains. However, changes in production patterns supported by the development of rapid transport of goods over long distances have altered the logistics landscape. As a result, the relevance of port hinterland transport has become more important, with a consequent need for the high utilisation of transport resources and infrastructure through the consolidation of cargo flows and for seaports to extend their influence within their hinterlands to increase their competitiveness. The development worldwide of inland ports, terminals, and dryports in their various forms, together with associated new functions and strategies, address these challenges in diverse ways to realise the potential benefits that come from the successful implementation of inland ports that connect seamlessly into transportation systems. This book comprises case studies and state-of-the-art examples of dryports in different parts of the world that have varying economic, social, institutional, and environmental realities and which exhibit the complexity of and diverse approaches to this recent logistics phenomenon.

China's Reform in Global Perspective John Wong, Zhiyue Bo, 2010 This book provides a fascinating perspective of the experiences of China's reform in the past three decades by focusing on China's interaction with and learning from the external world in her unprecedented efforts to reform and open up. After three introductory chapters on the broad scope of reform in the political, economic, and social realms, this book deals with lessons from the Eastern Bloc, China's reform in the East Asian context, and China and the developed world. The book concludes with two chapters looking to the future of China's political and economic development. In the existing literature of China's reform experience, this book is unique in perspective, topic selection, and in-depth analyses. With contributions from a group of prominent scholars in the field of China studies, such as John Wong, Zheng Yongnian, Thomas P. Bernstein, Dorothy J. Solinger, and Bo Zhiyue, it will be of immense value to anyone who is interested in China.
