Gold Medal Performance Without Dangerous Steroids:

Gold Medal Performance Without Dangerous Steroids Paul Yazolino, Alfred J. Garrotto, 1997-05-01 **Steroids** Rob Beamish, 2011-08-15 Sports fans or not readers will be fascinated by this revealing examination of the pressures leading to the widespread use of steroids in sport and the negative unintended consequences of their ban From Baron Pierre de Coubertin's original objectives in establishing the modern Olympic Games to the increasingly widespread use of performance enhancing drugs during the Cold War to the 1998 drug scandal during the Tour de France and beyond *Steroids A New Look at Performance Enhancing Drugs* puts the social construction of steroids as a banned substance under the microscope and interprets the implications of that particular conception of steroid use in sport Clearly written and highly accessible for all readers this book addresses a pressing issue in professional and high performance sport the use of steroids by placing it within the historical context of the ongoing desire to achieve the pinnacle of human sport Topics examined in detail include the three major crises of Ben Johnson's positive test in the 1988 Seoul Olympics the creation of the World Anti Doping Association and the House Committee on Government Oversight's probe into steroid use The author provides a critical examination of the current ban on steroids and boldly advocates a common sense solution to the complex problem of steroid use in sport the adoption of harm reduction strategies and policies rather than outright proscription *Spitting in the Soup* Mark Johnson, 2016-07-01 Doping is as old as organized sports From baseball to horse racing cycling to track and field drugs have been used to enhance performance for 150 years For much of that time doping to do better was expected It was doping to throw a game that stirred outrage Today though athletes are vilified for using performance enhancing drugs Damned as moral deviants who shred the fair play fabric dopers are an affront to the athletes who don't take shortcuts But this tidy view swindles sports fans While we may want the world sorted into villains and victims putting the blame on athletes alone ignores decades of history in which teams coaches governments the media scientists sponsors sports federations and even spectators have played a role The truth about doping in sports is messy and shocking because it holds a mirror to our own reluctance to spit in the soup that is to tell the truth about the spectacle we crave In *Spitting in the Soup* sports journalist Mark Johnson explores how the deals made behind closed doors keep drugs in sports Johnson unwinds the doping culture from the early days when pills meant progress and uncovers the complex relationships that underlie elite sports culture the essence of which is not to play fair but to push the boundaries of human performance It's easy to assume that drugs in sports have always been frowned upon but that's not true Drugs in sports are old It's banning drugs in sports that is new *Spitting in the Soup* offers a bitingly honest clear-eyed look at why that's so and what it will take to kick pills out of the locker room once and for all
