## **Gold Discovery James Marshall And The California Gold Rush:**

**The Gold Discovery** William C. Dillinger, California. Department of Parks and Recreation, 2006 *The California Gold Rush* Mark A. Eifler, 2016-07-22 In January of 1848 James Marshall discovered gold at Sutter's Mill in the foothills of the Sierra Nevada. For a year afterward news of this discovery spread outward from California and started a mass migration to the gold fields. Thousands of people from the East Coast aspiring to start new lives in California financed their journey West on the assumption that they would be able to find wealth. Some were successful, many were not, but they all permanently changed the face of the American West. In this text Mark Eifler examines the experiences of the miners, demonstrates how the gold rush affected the United States, and traces the development of California and the American West in the second half of the nineteenth century. This migration dramatically shifted transportation systems in the US, led to a more powerful federal role in the West, and brought about mining regulation that lasted well into the twentieth century. Primary sources from the era and web materials help readers comprehend what it was like for these nineteenth century Americans who gambled everything on the pursuit of gold. *America's Gold Rush* Joanne Mattern, 2003-12-15 1 Copy **The California Gold Rush** Judy Monroe, 2002 Follows the development of the gold rush in California starting in the 1840s. Examines its effects on the economic, social, and political development of the area from early times through statehood and into the modern day. **A Timeline History of the California Gold Rush** Stephanie Watson, 2015-08-01 In 1848 a carpenter named James Marshall discovered that there was gold in the riverbeds of the Sacramento Valley. Gold fever quickly spread across the country and around the world. By the thousands, hopeful people left their homes, families, and jobs in search of their fortune. The California gold rush lasted for only seven years, but in that time it transformed California and affected the whole nation. People used their new riches to start businesses and build cities. People from many nations arrived to fill those cities. And in their quest for gold, the prospectors clashed with American Indians and set the stage for long-lasting tensions. Explore the history of the California gold rush. Track the important events and turning points that made this discovery a pivotal part of the westward expansion of the United States. [California Gold Rush!](#) Robin Johnson, 2013 On January 24, 1848, a man named James W. Marshall found gold at Sutter's Mill in Coloma, California.
