Gold in Placer Deposits Warren E. Yeend, Geological Survey (U.S.), 1990 *Placer Gold Deposits of the Sierra Nevada* Paul D. Morrison, 1997 Now available in one volume the major placer locations of the Sierra Nevada taken from the original publications of that region Complete with maps and descriptive text *Placer Gold Deposits of Arizona* Maureen G. Johnson, 1972 A catalog of location geology and production with lists of annotated references pertaining to the placer districts **Placer Examination; Principles and Practice** John H. How to Mine and Prospect for Placer Gold J. M. West, Depart U. S. Department of the Interior, 2005-12 Increased leisure time and increased interest in the outdoors is leading more and more families to experiment with placer mining of gold and sometimes even to going on into small scale production This book supplies basic information on areas of occurrence equipment needed prospecting sampling mining and regulations concerning the possession and sale of gold Selected references are given for further study Placer gold has tantalized many a person who has tried his luck and skill in the hope of striking it rich Separating gold from embedded materials is basically simple and can be done effectively on nearly any scale depending upon the deposit and the capital available for investment The final product is consistently in demand at a relatively stable price Historically however one must be advised that rewards for the majority of small scale miners those who operate on a shoestring have been depressingly small First of all the placer miner must know where the placer deposits are located and he must have the technical knowledge to extract the gold Additionally he must face problems of land ownership water supply and water pollution all of which have grown in complexity with the population The costs of labor and equipment are relatively high now although this may not seem significant to an individual mining a small deposit Secondhand equipment may become available at relatively low cost because of a slowdown in construction or as surplus at the end of a war By taking advantage of such opportunities one can sometimes make an otherwise unprofitable operation successful at least as long as the equipment holds up To the novice or weekend prospector the more complex of placer mining may seem hard to comprehend At any rate the novice is often more interested in the recreational values offered by gold placering than in its profitability Thus the search for and discovery of even a small grain or nugget of gold is an achievement worth of considerable effort As a start the beginner may gain some benefit from visiting one of the many pan for a fee tourist establishments typically found in gold mining areas **Methods of Placer Mining** Garnet Basque, 1999 Many creeks and rivers in the west are still good gold producers This book describes methods of extracting placer gold including rocker tom sluice electrostatic and hydraulic concentrators *Placer Gold Deposits of Arizona* Maureen G. Johnson, 2010-10 A reprint of the Original US Geological Survey Bulletin 1355 This publication is a catalog of locations Geology and production from the placer districts of Arizona Over 90 Arizona Placer District covered in this publication **Placer Gold Deposits of Arizona**

Geological Survey (U.S.),Maureen G. Johnson,1969 **Placer Mining for Gold in California (Classic Reprint)** Charles Volney Averill,2017-10-11 Excerpt from Placer Mining for Gold in California The increase in the price of gold from in 1932 to in 1933 and to in 1934 made such stories seem even more plausible and helped further to stimulate the migration of men to the creeks despite the unfortunate experiences related by most of those drifting back from the gold bearing areas Stories of those who succeeded in making a living and of the very few who made strikes continued to be magnified out of all proportion both in passing from mouth to mouth and in the press and brought new recruits to the streams as late as 1937 It is obvious to those versed in gold mining that the facts are greatly exaggerated in these stories To the hard pressed unemployed however these accounts sounded like the answer to their need How could they know that for every one who made a strike in placer mining tens of thousands would find little or nothing that not more than a few score at most could possibly expect to develop a profitable lode mine and that large amounts of capital would be required for most of these mines The experience of the thousands who are unsuccessful in placer ing does not make news the story of the man here and there who is lucky does Most of the accounts were stories of success stories which were news but which were misleading to the unemployed About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Placer Mining for Gold in California** Charles Volney Averill,1946 *Gold Placer Deposits of the Pioneer District Montana* J. T. Pardee,2014-10-08 Placer Gold Deposits of New Mexico Maureen G. Johnson,2003-06-01 Authoritative guides to placer locations Maps of placer deposits included **Placer Gold Deposits of Alaska** Edward H. Cobb,2016-08-12 Placer deposits in addition to their intrinsic value serve as indicators of areas of potential development of lode deposits Alaska is known for its very rich Placer Deposits that are being discovered and mined even today This book is a complete inventory of known placer deposits and prospects in the state along with their history and geologic setting 14 Regions and 67 mining districts are covered in this book Originally Published as Bulletin 1374 by the USGS this long out of print publication is now available from Sylvanite Publishing once again *PLACER GOLD DEPOSITS OF ARIZONA* MAUREEN G.
