## **Golden Coast:**

The Gold Coast Transformed Tor Hundloe, Bridgette McDougall, Craig Page, 2015-03-23 The Gold Coast is one of Australia's premier tourism destinations a city cut out of coastal vegetation including paperbark swamps mangroves and rainforests of worldwide significance The Gold Coast Transformed is a collection of integrated chapters identifying and assessing the environmental impacts of the building of Australia's sixth largest city From the time of the first timber getters through to the present the book traces the cumulative impacts of humans on the now World Heritage listed rainforest and surrounding ecosystems The city's natural and engineered environments are both fascinating and vulnerable The construction of massive high rise apartment blocks on what were frontal beach dunes is one of the fundamental mistakes not to be repeated The book illustrates how and why major environmentally destructive development took place and discusses the impacts of such development on the Gold Coast's beaches wildlife and terrestrial and marine environments such as the destruction of riparian mangrove forest The Gold Coast Transformed also shows the possibility of sustaining natural populations and reducing the city's ecological footprint It will be of interest to ecologists environmental scientists and managers town planners economists policymakers and the general public

Gold Coast Oliver Scott, AI, 2025-03-20 Gold Coast explores the remarkable transformation of a once overlooked Queensland region into a globally recognized tourism hub It meticulously traces the area's history revealing the intricate dynamics of economic growth societal shifts and environmental concerns that have shaped its identity The book offers a unique perspective on Australian history revealing how the pursuit of tourism driven development has indelibly shaped the city's identity and its relationship with the natural world The book examines early settlement and development the pivotal role of tourism and the environmental impact of rapid development It reveals how tourism propelled the Gold Coast to international fame and how the region balances economic prosperity with ecological sustainability Structured in three parts the book first establishes the historical context then analyzes the rise of tourism and finally examines the environmental challenges posed by urbanization This approach provides a balanced view acknowledging both the economic benefits and environmental costs associated with the Gold Coast's development

The Political Economy of the Interior Gold Coast Jarvis L. Hargrove, 2015-12-09 This book analyzes the Gold Coast and the Asante kingdom in the years following the abolition of the transatlantic slave trade and prior to the start of colonial rule The Asante state one of the largest in the Gold Coast and West Africa after the eighteenth century is the central focus of this work Studying their transition from a large scale supplier of captives to the transatlantic slave trade to traders in legitimate goods is a critical component that should be analyzed across West Africa This work highlights the political and economic relationships between the interior Asante state with surrounding African groups and Europeans chiefly British traders who entered the region in the eighteenth and nineteenth centuries

**Labour, Land, and Capital in Ghana** Gareth Austin,2005 An examination of the varied ways outside and inside markets in which Asante producers obtained labor land and capital during the transformative era This is a study of the changing rules and relationships within which natural human and man made resources were mobilized for production during the development of an agricultural export economy in Asante a major West African kingdom which became by 1945 the biggest regional contributor to Ghana's status as the world's largest cocoa producer The period 1807-1956 as a whole was distinguished in Asante history by relatively favorable political conditions for indigenous as well as during colonial rule for foreign private enterprise It saw generally increasing external demands for products that could be produced on Asante land This book which fills a major gap in Asante economic history transcends the traditional divide between studies of precolonial and of twentieth century African history It analyses the interaction of coercion and the market in the context of a rich but fragile natural environment the central process being a transition from slavery and debt bondage to hired labor and

agricultural indebtedness It contributes to the broad debate about Africa's historic combination of emerging capitalist institutions and persistent precapitalist ones and tests the major theories of the political economy of institutional change It is written accessibly for an interdisciplinary readership Gareth Austin is a lecturer in Economic History London School of Economics and Political Science and Joint Editor of the Journal of African History
