Empowering Your Indigo Child Wayne D. Dosick, Ellen Dosick Kaufman, 2009-03-01 Since the 1980s people have been

writing about the indigo children Today many believe that nearly 80 percent of all children born are indigos These are exceedingly creative high energy perceptive kids who often don't fit in They seem to have an awareness that is light years beyond their age and quite often they are labeled as ADD ADHD or ODD when in actuality they are in the words of the Dosicks simply children of spirit What sets this book apart from other books is that it approaches the issues facing indigos on a spiritual energetic rather than purely cognitive level and it is prescriptive teaching a specially developed set of games that can help heal indigo children both in their own bodies and in their earthly relationships Here the Dosicks name seventeen particular emotional wounds indigos hold in their bodies and give specific exercises for healing each one The games have proven enormously helpful to these often troubled kids even preteens and teenagers They celebrate the children's different ways of perception and calm their agitation The games involve some hands on healing techniques some scripted meditations and other quick and simple techniques Each game takes no more than two minutes to play and this book features 101 black and white photographs showing parents exactly how to use the practices

The Song of My Heart Nora Agaronian, 2015-03-19 This inspirational book is for those who love nature and gardening and for those who enjoy listening to the beautiful songs of the birds My garden is a symbol of love for my parents

and the legacy they left for my family and me For me the garden conveys a connection with nature and my childhood I have unforgettable memories It also symbolizes my love for my parents and appreciation for the legacy they left behind They are with me in my glorious garden all the time Our home in Armenia was adorned with beautiful flowers that glowed and glittered under the golden beams of the sun So is my garden in a secret corner of my Los Angeles backyard This book also refers to the mother daughter relationship With both sweet and sorrowful tears I dedicated this book to my dearest daughter Anoush Knowing her own family story Anoush would know where she came from and where she is heading My book also embraces those who immigrated to the United States from other countries It is about parents grandparents children and grandchildren It is about five generations living together in the twenty first century in harmony It is an interesting exciting and fulfilling opportunity for each generation to live together and learn from each other It speaks of family relationships mainly concentrates on mother daughter and father daughter relationships The family legacy continues in those families where relationships are clear and clean there is mutual respect for each other and positive approaches are used to deal with family issues In these families nobody is alone They solve their problems together It pulls in precepts from educators as well It clearly shows how the community and schools effect our childrens development *The Moral of the Story* John H. Lockwood,1999 The problem this project attempts to solve is to develop a workable moral education in light of the clash between religious forms of moral education and U S Supreme Court decisions concerning them The concept of story and storytelling has been suggested as a unifying focus for disparate prescriptions for moral education Several recent approaches to moral storytelling have been proposed The approaches of William Bennett Nel Noddings and Herbert Kohl are among those which have attempted to combine moral education and storytelling within the last decade Bennett is identified with other theorists whose primary concern is the moral content of a story Noddings is identified as a process theorist whose primary concern is the process of moral storytelling not the content Kohl is identified as a reflection theorist whose approach challenges tradition in the hope of creating a more moral society Each one of these three approaches attempts to provide a comprehensive program of moral education but they fall short of that goal The purpose of this project then is to construct a storytelling moral education program that improves upon earlier approaches Using the three levels of moral thinking posited by R M Hare a three level approach to moral storytelling is proposed The intuitive critical and meta ethical levels of moral thinking that Hare refers to are used to frame a new three level approach to moral storytelling The three level approach combines content process and reflection into a unified prescription for moral education Thus a more comprehensive plan for moral education through storytelling is developed one that respects traditional forms of moral education while remaining within the parameters set by the U S Supreme Court **The Family Handbook** Herbert Anderson,1998-01-01 This encyclopedic volume brings clarity and focus to a multitude of family issues The expert contributors deal with practical and important questions thereby providing information of significant usefulness to social workers therapists lawyers ministers

and health care professionals Those who work with families will learn new techniques and see their efforts in a larger context An extensive directory of family resources provides the reader with helpful and practical information The Family Culture and Religion series offers informed and responsible analyses of the state of the American family from a religious perspective and provides practical assistance for the family's revitalization
