Golden Wreck The Tragedy Of The Royal Charter:

The Golden Wreck Alexander McKee,1977 **Out of the Depths** Alan G. Jamieson,2024-08-12 A highly illustrated voyage through shipwrecks ancient and contemporary Out of the Depths explores all aspects of shipwrecks across four thousand years examining their historical context and significance showing how shipwrecks can be time capsules and shedding new light on long departed societies and civilizations Alan G Jamieson not only informs readers of the technological developments over the last sixty years that have made the true appreciation of shipwrecks possible but he also covers shipwrecks in culture and maritime archaeology their appeal to treasure hunters and their environmental impacts Although shipwrecks have become less common in recent decades their implications have become more wide ranging since the 1960s foundering supertankers have caused massive environmental disasters and in 2021 the blocking of the Suez Canal by the giant container ship Ever Given had a serious effect on global trade The Weather Experiment Peter Moore,2015-06-02 A history of weather forecasting and an animated portrait of the nineteenth century pioneers who made it possible By the 1800s a century of feverish discovery had launched the major branches of science Physics chemistry biology geology and astronomy made the natural world explicable through experiment observation and categorization And yet one scientific field remained in its infancy Despite millennia of observation mankind still had no understanding of the forces behind the weather A century after the death of Newton the laws that governed the heavens were entirely unknown and weather forecasting was the stuff of folklore and superstition Peter Moore s The Weather Experiment is the account of a group of naturalists engineers and artists who conquered the elements It describes their travels and experiments their breakthroughs and bankruptcies with picaresque vigor It takes readers from Irish bogs to a thunderstorm in Guanabara Bay to the basket of a hydrogen balloon 8 500 feet over Paris And it captures the particular bent of mind combining the Romantic love of Nature and the Enlightenment love of Reason that allowed humanity to finally decipher the skies The Most Perfect Cruiser Stephen Chapin Kinnaman,2009 The Most Perfect Cruiser is the story of how the Confederacy got to sea the most deadly of its raiders the C S S Alabama It is both a complex and a human tale one that occurred entirely outside of North America We encounter the ambitions of the brilliant James Dunwoody Bulloch the Confederate secret naval agent who brought Alabama into being thinking he would command her and her resourceful captain Raphael Semmes whose previous success had already alarmed the North As for the Alabama she began her maiden voyage in the teeth of a rising gale barely escaping the clutches of a Union warship and the belated efforts of British authorities to seize her All of these threads culminated in a three way rendezvous in the middle of the Atlantic Ocean where through a remarkable combination of luck skill and hard work the South commissioned the most successful commerce raider the world has ever known STEPHEN CHAPIN KINNAMAN is an offshore and marine technology professional with over thirty years of experience He was born in 1950 and grew up in upstate New York and New Jersey He and his wife Maureen currently reside in Chappell Hill Texas In preparation for writing The

Most Perfect Cruiser Stephen Chapin Kinnaman visited all the principal locations touched by Bulloch Semmes and Alabama gaining a first hand feel for the terrain which shaped Alabama's birth Mr Kinnaman was a director of the Mobile Alabamabased C S S Alabama Association and as such was involved with aspects of the ongoing wreck recovery efforts in France He participated in the Association's first field trip to Cherbourg during the summer of 1999 His nautical background and love of the sea has allowed him to craft a spirited account of the operational side of Alabama's creation which is so central to this book Background Lines Plan Courtesy Per Nordberg Center Samuel Walters Painting of Alabama Courtesy Vallejo Maritime Gallery Newport Beach California James Dunwoody Bulloch Picture Author's Collection
