Golden Thread Of Time:

Golden Thread of Time Crichton E.M Miller, 2014-04-10 Time is the most important commodity on Earth we live by it and we die by it it gives order to our lives and we control all of our modern society using time and its modern instruments We think we have mastered time what if we are wrong We are told in the Bible in Genesis 1 verse 14 that our ancestors measured time by the stars and moon and we are told by evolutionists that ancient people used basic astronomy to achieve a crude understanding of time What if the war between science and religion has psychologically obscured an obvious and indisputable fact from us all If our ancestors could measure time accurately then all our science and technical achievements would have been inherited in a tree of knowledge that brought us to where we are today What if the Church in its desperate struggle to keep a profitable business alive and functioning has created such division over the ages that we do not understand the simple messages left by our ancestors on the real nature of time What if both church and crown in their pact to rule Europe obscured a scientific system inherited from Palaeolithic and Neolithic sea faring hunter gatherers that was used for thousands of years to keep time while measuring and travelling the planet and developing a philosophy that maintained a balance with Nature There is a golden thread of truth running through our history that millions cannot see but that if we did it may give us hope for our children in a world adrift without an anchor where time runs faster exploitation is rife and honesty is a bye word from a lost time imagined to be better where society cared about its people and families about their children living by rules that were easy to understand and no one old poor or disabled lived in isolation The Golden Thread of Time is designed to give hope where it does not exist providing answers where there have been none while motivating people to look beyond the mundane toward the light Do you care

The Golden Thread of Time Crichton Edward McGregor Miller, 2001 Crichton has discovered that the most important icon in Christian faith is not just what it seems to be and that the cross really was the most highly sophisticated and practical mathematical instrument ever devised by ancient Man Having patented the working cross Crichton then went on to discover one in the Great Pyramid at Giza proving that the cross is older than the pyramid and that the pyramid could not exist without the cross Making an investigative voyage from the pre Ice Age peoples to the Free Masons of the present day Crichton uncovers the mysterious and often tragic past of the real cross This forgotten knowledge has been lost for over 2000 years reveals the true nature of ancient wisdom exposing the design and use of stone circles and pyramids Crichton explains the meaning of the Serpent the number of the Beast the Vine of life at finally proves that ancient sailors really were able to cross the oceans of the world long before Columbus Crichton goes on to show how Astrology and the Zodiac were invented and how the ancients used this knowledge to prophesy the future and understand the very nature of Time itself Using reason and commonsense this well written and researched work exposes the lost knowledge of the most powerful Magicians to ever walk our planet

Linke,2012-09-29 When we think we learned something new we are quite proud of it But it wears off quickly for an unknown reason So what is wrong with what we do When you start to think about the things you learn and what the reason or purpose actually is then you have to wonder sometimes is it really something new we just learned Because having in mind to learn something new can be quite exhausting at times Maybe we have to start to think about this in a different way and take a different approach in discovering new things It is like a treasure hunt imagine that we are all pirates looking for an adventure or treasures Obviously our life is about searching for something but most of the time we dont even know what we

are looking for We do this quite instinctively maybe we are preprogrammed in a way and we are not aware of it But when you find out who we are then everything seems to make sense Our entire world Universe stands on myth and mythology including our history making us wonder if it is real Lets look at life in a different way Learn more about our history maybe we can learn from old things our ancestors already new and then set that aside and try to find your own way You most certainly will see things with different eyes This is what our life is all about it is a soul search where the experience we have along the way is the reward treasure In Australia the Aboriginal people are most likely a candidate for such an idea They go on a regular Walkabout which literally means looking for something They might find something which can be worth bringing home as an idea for which the whole community can benefit from This is what a walkabout is all about looking for something which is useful and has a value in the community After all we are constantly occupied by making a living or providing for our needs The westerners actually practice the same thing we call them the Backpackers People who go and see other parts of the world enjoy the diversity and beauty of nature as well as other cultures and traditions Yes we can learn something old have a lot of fun and it can be quite rewarding This book was taking shape based on an ironic thought How much knowledge there is and we know so little How come we know so little We know all the most complicated things there can be but we know very little of what life is about What is the cause for all things How does it all work What is the reason And last but not least How do we fit into everything Is it possible that we have taken valuable information from ancient Greek knowledge but ignored one of their most important practices the philosophy of all things Has everything to us become scientific or important because sciences can explain the real world Have we forgotten that this real world we live in comes from a mystical source something unseen Something we call a different dimension because we cant possibly explain it It is such an exotic source that it would take a lot of ancient knowledge to discover the truth Do you want to discover the truth This book might have some answers

the synthesis of themes presented in the atrium Threads of Fate Riley Goodwin,2025-01-07 In the twilight world of Veyra destiny is woven on the Loom of Fate its iridescent threads binding every life to the tapestry of existence But harmony is a shattered memory Warring factions clinging to their dimming threads threaten to unravel the Loom entirely plunging Veyra into eternal darkness Seventeen year old Kaelith an apprentice weaver in the neutral Sanctuary feels the tremor of each broken thread as a pang in their own chest During a ceremonial weaving a surge of energy reveals a startling truth Kaelith s thread holds the power to mend the Loom Transformed from apprentice to beacon of hope Kaelith embarks on a perilous quest to re stitch Veyra s fractured tapestry Joined by Reysha a pacifist warrior haunted by past battles and Pharem a disgraced diplomat seeking redemption Kaelith navigates a landscape scarred by conflict They face the icy resolve of Amanda Simmons in the North and the fiery ambition of Victor Perez in the South leaders entrenched in narratives of division But the greatest threat lies hidden within the Whispering Woods where ethereal Threadlings feed on frayed emotions amplifying Veyra s discord Guided by the whispers within the threads themselves and the ostracized historian Elara Vance Kaelith uncovers a forgotten truth the Loom s fracturing isn t the result of conflict but a desperate defense against a forgotten faction the Weavers of Discord who believe true harmony lies in controlled chaos Their insidious whispers woven into the very fabric of Veyra s culture have subtly fueled generations of conflict Now Kaelith must not only mend the Loom but unravel the Weavers insidious legacy In the crumbling Sanctuary Kaelith faces a pivotal choice force reconciliation potentially unleashing catastrophe or weave a new narrative trusting in the power of shared stories Can Kaelith s tapestry of empathy and understanding mend not only the threads of the Loom but the fractured hearts of Veyra s people
