Gold Mines in North Carolina John Hairr,Joey Powell,2004 The first gold discovery in the United States occurred in 1799 when young Conrad Reed went fishing in Little Meadow Creek in Cabarrus County North Carolina The 17 pound nugget he found was used by his family as a doorstep until they figured out what the strange rock was This chance discovery set off the first gold rush in the nation s history For more than a century men extracted gold from the rolling hills and valleys of the North Carolina piedmont as well as from the high peaks and rugged mountains of the western part of the state Prior to the California Gold Rush of 1849 North Carolina led the nation in production of this precious metal and was the largest gold producing state in the South well into the 20th century

The Bible on the Lost Dutchman Gold Mine and Jacob Waltz Helen Corbin,2002 The first book in history that documents Waltz from birth to the grave This landmark text offers historical proof such as ship manifests and German translations of his infamous directions to the mine and all major speculations that have occurred in the hundreds of books published in the 111 years following Waltz s death

The Gold Brick and the Gold Mine Emerson Hough,2006 MD97- Brookeville Project from South of Gold Mine Road to North of Holiday Drive, Montgomery County ,2004 *The Gold Brick and the Gold Mine: Fake Mining Schemes That Steal the People's Savings* Emerson Hough,2020-09-28 Mining is a legitimate and honorable enterprise It contributes immensely to the national wealth It has been the source of some of our great fortunes Because there is something magical in the suggestion of gold or coal or copper taken out of the ground sharpers have made mining an instrument of successful deception They have tricked people into investing their savings in worthless or even non existent mines Perhaps you who read this have bitten at an advertisement in a reputable publication which pretended to place the wealth of some western El Dorado at your feet for a few hundred dollars Doubtless your money has disappeared It is for the purpose of giving you the protection of a knowledge both of legitimate mining and of the ways of thieves that this article is published AMERICA is the land of the free and the country of opportunity for all Incidentally it is free hunting ground for sharpers and a land of opportunity for the unscrupulous No such chances for fraudulent business exist anywhere else in the world Americans are the richest people on earth and the most easily parted from their money Those whose sole ambition is to get rich quick very frequently help some other man to get rich quick Society owes no debt to either of these It is obliged to support them both

This is wrong both as a moral and as an industrial proposition Once a dollar was spent to mine a dollar To day two are spent One dollar goes into blasting powder the other into advertising and office furniture No doubt you have heard the age old legend of the Mother Vein of Gold which appears and vanishes now and again in this corner of the world Superstition regarding this great original vein of gold is found wherever men seek the precious metal The feverish Spaniards called this phantom lode the Madre d Oro or Mother of Gold Now it is located in Mexico now in India or Peru California or Australia Tradition says that Montezuma got his gold from this great vein which lay in a secret valley whose whereabouts was jealously guarded by three priests of the war tribe sole possessors of the knowledge Any intruder who by chance or design looked down into this valley was smitten absolutely blind Tradition among the successors of the Aztecs says that when Montezuma passed the Madre d Oro sank back again into the earth and has been seen no more Men still follow the phantom vein Those who see it even in their dreams still are smitten blind *Briggs Open Pit Heap Leach Gold Mine Project, Inyo County ,1995*

Montezuma's Gold Mines Frederick Albion Ober,1838 *Leviathans at the Gold Mine* Alex Golub,2014-02-03

Leviathans at the Gold Mine is an ethnographic account of the relationship between the Ipili an indigenous group in Papua New Guinea and the large international gold mine operating on their land It was not until 1939 that Australian territorial patrols reached the Ipili By 1990 the third largest gold mine on the planet was operating in their valley Alex Golub examines how the mine and the Ipili were brought into being in relation to one another and how certain individuals were authorized to speak for the mine and others to speak for the Ipili Considering the relative success of the Ipili in their negotiations with a multinational corporation Golub argues that a unique conjuncture of personal relationships and political circumstances created a propitious moment during which the dynamic and fluid nature of Ipili culture could be used to full advantage As that moment faded away social problems in the valley increased The Ipili now struggle with the extreme social dislocation brought about by the massive influx of migrants and money into their valley **Insiders' Guide® to Colorado Springs**
