to his autobiography explicitly draws attention to France as the site of his authorial glory but elsewhere he dismisses his work for the Parisian Com die Italienne as a failure and this view has come to dominate modern readings of his French experience This study sets out to explore this apparent contradiction By reading Goldoni s own contemporary and subsequent accounts through the lens of his context as a dramatic author in 1760s Paris Jessica Goodman sheds new light on both his experience and critical reactions to that experience A key part of this contextualisation is an examination of contemporary Com die Italienne archives resulting in the most comprehensive existing account of this oft neglected theatre and its authorial relations in the period When material and artistic conditions at the Com die Italienne thwarted the self fashioning strategies Goldoni had developed in Italy he turned his attention to other areas of French life notably the court and the Com die Fran aise Yet despite relative success in this regard his career as an eclectic homme de lettres was lost in translation to posterity In his French M moires he constructed the claim of Parisian glory according to an out dated understanding of what it meant to succeed in the French literary field focusing predominantly on the power of Com die Fran aise success Ultimately this construction was a failure in modern France Goldoni is remembered as a famous foreigner not the consecrated French litt rateur he believed he had become
