*The Translator as Writer* Susan Bassnett, Peter Bush, 2007-11-15 Over the last two decades interest in translation around the world has increased beyond any predictions International bestseller lists now contain large numbers of translated works and writers from Latin America Africa India and China have joined the lists of eminent bestselling European writers and those from the global English speaking world Despite this translators tend to be invisible as are the processes they follow and the strategies they employ when translating *The Translator as Writer* bridges the divide between those who study translation and those who produce translations through essays written by well known translators talking about their own work as distinctive creative literary practice The book emphasises this creativity arguing that translators are effectively writers or rewriters who produce works that can be read and enjoyed by an entirely new audience The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating away from more abstract speculation about what translation might involve

**Posterity** Rocco

Rubini, 2022-01-18 Reading a range of Italian works Rubini considers the active transmittal of traditions through generations of writers and thinkers Rocco Rubini studies the motives and literary forms in the making of a tradition not understood narrowly as the conservative stubborn preservation of received conventions values and institutions but instead as the deliberate effort on the part of writers to transmit a reformulated past across generations Leveraging Italian thinkers from Petrarch to Gramsci with stops at prominent humanists in between including Giambattista Vico Carlo Goldoni Francesco De Sanctis and Benedetto Croce Rubini gives us an innovative lens through which to view an Italian intellectual tradition that is at once premodern and modern a legacy that does not depend on a date or a single masterpiece but instead requires the reader to parse an expanse of writings to uncover deeper transhistorical continuities that span six hundred years Whether reading work from the fourteenth century or from the 1930s Rubini elucidates the interplay of creation and the reception

underlying the enactment of tradition the practice of retrieving and conserving and the revivification of shared themes and intentions that connect thinkers across time Building on his award winning book *The Other Renaissance* this will prove a valuable contribution for intellectual historians literary scholars and those invested in the continuing humanist legacy
