Goldsmith G. S. Rousseau,1985-06-01 Goldsmith, the Critical Heritage George Sebastian Rousseau,1974 **Oliver**

Goldsmith G.S. Rousseau,2013-10-31 The Critical Heritage gathers together a large body of critical sources on major figures in literature Each volume presents contemporary responses to a writer s work enabling student and researcher to read the material themselves **Community and Solitude** Anthony W. Lee,2019-04-22 Samuel Johnson s life was situated within a

rich social and intellectual community of friendships and antagonisms Community and Solitude is a collection of ten essays that explore relationships between Johnson and several of his main contemporaries including James Boswell Edmund Burke Frances Burney Robert Chambers Oliver Goldsmith Bennet Langton Arthur Murphy Richard Savage Anna Seward and Thomas Warton and analyzes some of the literary productions emanating from the pressures within those relationships In their detailed and careful examination of particular works situated within complex social and personal contexts the essays in this volume offer a thick and illuminating description of Johnson s world that also engages with larger cultural and aesthetic issues such as intertextuality literary celebrity narrative the nature of criticism race slavery and sensibility Contributors

Christopher Catanese James Caudle Marilyn Francus Christine Jackson Holzberg Claudia Thomas Kairoff Elizabeth Lambert Anthony W Lee James E May John Radner and Lance Wilcox Published by Bucknell University Press Distributed worldwide by Rutgers University Press *Patriotism and Poetry in Eighteenth-Century Britain* Dustin Griffin,2005-11-17 The poetry of the mid and late eighteenth century has long been regarded as primarily private and apolitical in this wide ranging study Dustin Griffin argues that in fact the poets of the period were addressing the great issues of national life rebellion at home imperial wars abroad an expanding commercial empire an emerging new British national identity Taking up the topic of patriotic verse Griffin shows that poets such as Thomas Gray Christopher Smart Oliver Goldsmith and William Cowper were engaged in the century long debate about the nature of true patriotism **Riches and Poverty** Donald Winch,1996-01-26 In Riches

and Poverty Donald Winch explores the implications of a fundamental and influential idea in political economy Adam Smith s science of the legislator provided a key to studying the rich and poor in commercial societies transformed an ancient debate on luxury and inequality and furnished a basis for assessing the American and French revolutions Against this background Britain embarked on its career as the first manufacturing nation and Malthus made his first contributions to a debate which concluded with the Poor Law Amendment Act of 1834 Malthus provoked fierce opposition from the Lake poets opening an intellectual rift that persisted throughout the nineteenth century and continues to influence our perceptions of cultural history Donald Winch has written a compelling and consistently argued narrative of these developments which emphasises throughout the moral and political bearings of economic ideas **The Broadview Anthology of Literature of the**

Revolutionary Period 1770-1832 ,2010 **A Careful Longing** Aaron Santesso,2006-10 This book examines the

emergence of a new genre during the eighteenth century the nostalgia poem This genre is best understood by reconceiving the premises of nostalgia itself examining it as first and foremost a mode of idealization rather than a longing for the past From the poems that make up this genre we have derived many of our modern ideas and images of nostalgia In tracing the history of the nostalgia poem this book also traces a pattern of tropic change in which a new genre is built around tropes extracted from the dying genres This new genre then begins producing its own tropes in the case of the nostalgia poem these include idealized school days and ruined villages As these tropes become overly familiar the nostalgia poem genre itself begins to fall apart This book reevaluates poems ranging from Dryden's Hastings elegy to Crabbe's The Village showing how works as varied as Gray's Eton College Ode Macpherson's forged epics and Goldsmith's The Deserted Village are all part of a doomed literary experiment an experiment that has nevertheless determined the course of modern nostalgic thought

Tradition and the Individual Poem Anne Ferry, 2001 A theoretical historical and critical inquiry this book looks at the assumptions anthologies are predicated on how they are put together the treatment of the poems in them and the effects their presentations have on their readers The Poetics of Decline in British Romanticism Jonathan Sachs, 2018-01-18

Anxieties about decline were a prominent feature of British public discourse in the late eighteenth and early nineteenth century These anxieties were borne out repeatedly in books and periodicals pamphlets and poems Tracing the reciprocal development of Romantic era Britain's rapidly expanding literary and market cultures through the lens of decline Jonathan Sachs offers a fresh way of understanding British Romanticism The book focuses on three aspects of literary experience questions of value the fascination with ruins and the representation of slow time to explore how shifting conceptions of progress and change inform a post enlightenment sense of cultural decline Combining close readings of Romantic literary texts with an examination of works from political economy historical writing classical studies and media history the book reveals for the first time how anxieties about decline impacted literary form and shaped Romantic debates about poetry and the meaning of literature Samuel Johnson and the Art of Sinking 1709-1791 Freya Johnston, 2005-02-17 The traditional view of Samuel Johnson as hostile to particulars trifles and aesthetic mediocrity only half explains his authorial character Samuel Johnson and the Art of Sinking 1709-1791 argues that in a period dominated by social and literary hierarchies Johnson's works reveal a defining interest in little mean or low topics and people Freya Johnston moves away from a critical emphasis on what literature of this period excludes to consider its modes of including recalcitrant material Of necessity finite any piece of writing is informed by the subject matter it omits or to which it indirectly alludes How can we identify the peripheral topics or characters purportedly excluded from a text unless it provides compelling inferences that oblige us to supply the omission In which case something subtler is at work than barefaced proscription Rehearsing the comparative merits of great and little things Johnson and his contemporaries tested the opposing claims of pagan and Christian authority Ancient criticism and its eighteenth century adherents held that each subject required an appropriate style little matters call

for the low lofty ones for the high Yet Gospel writers stressed Christ's incarnation as a praiseworthy and imitable descent to the humanly little one that is compatible with the most sublime style Through a series of close readings this book examines how Johnson conceived of his relationships to and with the margins of writing and of society It proposes that his literary and critical practice is neither inclusive nor exclusive in its attitudes towards peripheral things *Ends of Enlightenment* John Bender,2012-08-08 *Ends of Enlightenment* explores three realms of eighteenth century European innovation that remain active in the twenty first century the realist novel philosophical thought and the physical sciences especially human anatomy The European Enlightenment was a state of being a personal stance and an orientation to the world Ways of probing experience and knowledge in the novel and in the visual arts were interleaved with methods of experimentation in science and philosophy This book's fresh perspective considers the novel as an art but also as a force in thinking The critical distance afforded by a view back across the centuries allows Bender to redefine such novelists as Defoe Fielding Goldsmith Godwin and Laclos by placing them along philosophers and scientists like Newton Locke and Hume but also alongside engravings by Hogarth and by anatomist William Hunter His book probes the kinship among realism hypothesis and scientific fact defining in the process the rhetorical basis of public communication during the Enlightenment **The Origins of the English**

Marriage Plot Lisa O'Connell,2019-07-11 Examines how and why marriage plots became the English novel's most popular form in the eighteenth century This book will be of interest to students and researchers of eighteenth and early nineteenth century English literature and culture as well as feminist literary history *Natural Theology* William Paley,2008-04-17 William Paley set out to prove the existence of God from the evidence of the beauty and order of the natural world This edition sets his work in the context of the theological philosophical and scientific debates of the nineteenth century

Boswell's Life of Johnson John A. Vance,2009-01-01 When it first appeared in 1985 Boswell's *Life of Johnson* brought together the most recent and most lively assessments of the literary merit and historical accuracy of Boswell's biography In an invigorating exchange placed at the center of the collection Donald Greene's description of the *Life* as a fictionalized biography that screens the real complex Johnson from view is challenged by Frederick Pottle's defense of Boswell's biographical method of his sturdy compilation of detail that presents the factual rather than the fictional Johnson Other essays explore the effect of Johnson's humor on the shaping of his image in the *Life* the recent developments in literary criticism and the effect they have had on eighteenth century studies and the continuing interest of Boswell's *Life* as a showcase for members of Johnson's famous circle The volume concludes with an assessment of the Boswellian problem of the difficulties the *Life* presents to readers scholars and teachers **The Broadview Anthology of Literature of the Revolutionary Period 1770-1832** D.L. Macdonald,Anne McWhir,2010-03-04 The selections from 132 authors in this anthology represent gender social class and racial and national origin as inclusively as possible providing both greater context for canonical works and a sense of the era's richness and diversity In terms of genre poetry non fiction prose
