International Handbook on the Economics of Mega Sporting Events Wolfgang Maennig, Andrew S. Zimbalist, 2012

From the Olympics to the World Cup mega sporting events are a source of enjoyment for tens of thousands but can also be a source of intense debate and controversy

This insightful new Handbook addresses a number of central questions including How are host cities selected and under what economic conditions How are these events organized and how is local resistance overcome

Based on historical and empirical experience what are the pitfalls for the organizers of these events What are the potential economic benefits including any international image effects How can the costs be minimized and the benefits maximized for host cities and countries

How do these mega events impact the challenges of globalization and what is their environmental legacy

Compiled and edited by two internationally renowned sports economists the expert contributions elaborate on the specific mechanisms of the bid processes analyse the determining factors of winning bids and illustrate how to construct future bid campaigns

Underpinned by case studies from four continents and by theoretical considerations the reasons for seemingly systemic cost overruns are explored and analysed as are the effects on national and regional employment and income property values non traditional economic variables such

as psychological and marketing benefits and urban branding and transformation The Handbook also reflects on important elements of design of the games in order to better plan prepare and allocate resources including for example sustainability issues and the use of campaigns to secure positive perceptions This book provides an up to date analysis of the financing and economic impact of mega sporting events as well as a full discussion of how host cities can maximize the benefits from their experience As such it will prove a fascinating read for academics students researchers and policymakers with an interest in economics and public sector economics generally and more specifically in the economics of sport
