Work Engagement and Teacher Autonomy among Secondary School Teachers Samson R Victor,Umadevi Patil,2016-07-11 Teacher autonomy is essential for ensuring a learning environment that addresses children s diverse needs As much as the learner requires space freedom flexibility and respect the teacher also requires the same Currently the system of administrative hierarchies and control examinations and centralized planning for curriculum reform all constrain the autonomy of the teacher Even when there is curricular freedom teachers do not feel confident that they can exercise it without being taken to task by the administration for doing things differently Therefore it is essential to enable and support them in exercising choice As much as the classroom needs to nurture a democratic flexible and accepting culture the school institution and the bureaucratic structure need to do the same Not only should the teacher receive orders and information but the voice of the teacher should also be heard by the superiors who often make decisions that affect the immediate classroom life and culture in the school Relationships between teachers and their heads and principals must be informed by equality and mutual respect and decision making must be on the basis of dialogue and discussion The annual monthly and weekly calendars of activities need to provide time for such staff interactions for reviewing and planning This book intends to help the readers to understand how a research study can be conducted on teacher autonomy and work engagement of secondary school teachers Report of the Department of the

President,2000 Containing the public messages speeches and statements of the President 1956 1992 *Evidence-Based Policy* Nancy Cartwright,Jeremy Hardie,2012-09-20 Over the last twenty or so years it has become standard to require policy makers to base their recommendations on evidence That is now uncontroversial to the point of triviality of course policy should be based on the facts But are the methods that policy makers rely on to gather and analyze evidence the right ones In *Evidence Based Policy* Nancy Cartwright an eminent scholar and Jeremy Hardie who has had a long and successful career in both business and the economy explain that the dominant methods which are in use now broadly speaking methods that imitate standard practices in medicine like randomized control trials do not work They fail Cartwright and Hardie contend because they do not enhance our ability to predict if policies will be effective The prevailing methods fall short not just because social science which operates within the domain of real world politics and deals with people differs so much from the natural science milieu of the lab Rather there are principled reasons why the advice for crafting and implementing policy now on offer will lead to bad results Current guides in use tend to rank scientific methods according to the degree of trustworthiness of the evidence they produce That is valuable in certain respects but such approaches offer little advice about how to think about putting such evidence to use *Evidence Based Policy* focuses on showing policymakers how to effectively use evidence It also explains what types of information are most necessary for making reliable policy and offers lessons on how to organize that information **How Power Works in Schools and Why It Matters for Maximizing Students' Learning** Jacob W. Neumann,2024-02-02 People typically misunderstand how power works in schools Common thinking says that things like high stakes testing school reform efforts and political mandates exert the most power on schools The reality however is that power comes from everywhere It isn t a thing that only certain people possess nor does it operate linearly as in simple actions and reactions Instead power acts more like a web if you exert power in one part of a school the effects often spread across the rest of it The usual emphasis on big easy to see influences causes schools to focus on the wrong concerns the big public ones instead of the ones which make the most impact the small daily ones This book examines everyday phenomena inside schools to reveal the complexity and nuance of power and makes practical suggestions for how schools can manage power more effectively to maximize students learning **Education and National Defense Series** ,1942 [HBR Working Parents Starter Set \(5 Books\)](#) Harvard Business Review,Daisy Dowling,Eve Rodsky,Bruce Feiler,Alice Boyes,2022-08-02 All the advice you need to succeed as a first time working parent The year after having your first baby can be one of the most challenging and disorienting periods of your career From finding the best childcare when you return to work to setting expectations with your manager to getting enough
