## **Gothic North:**

**EcoGothic** Andrew Smith, William Hughes, 2015-11-01 This book will provide the first study of how the Gothic engages with ecocritical ideas Ecocriticism has frequently explored images of environmental catastrophe the wilderness the idea of home constructions of nature and images of the post apocalypse images which are also central to a certain type of Gothic literature By exploring the relationship between the ecocritical aspects of the Gothic and the Gothic elements of the ecocritical this book provides a new way of looking at both the Gothic and ecocriticism Writers discussed include Ann Radcliffe Mary Shelley Ambrose Bierce Algernon Blackwood Margaret Atwood Cormac McCarthy Dan Simmons and Rana Dasgupta The volume thus explores writing and film across various national contexts including Britain America and Canada as well as giving due consideration to how such issues might be discussed within a global context

**The Gothic North** Sacheverell Sitwell, 2013-10 This is a new release of the original 1929 edition *The Well Spring of the Goths* Ingemar Nordgren, 2004 The Goths a rumored people first known by history around the river Vistula in present Poland was the people that more than other contributed to the fall of the Roman Empire It was however also the Goths who preserved the Roman culture against other Germanic tribes Earlier it has been generally assumed the Goths originated in Scandinavia but during the 20th c many scholars have grown skeptical The author has using both Classical and Nordic sources and supplementary sciences made probable there is an intimate connection between the Goths and the Nordic countries Consequently it is quite possible that at least part of the Goths have a Nordic origin The book rests on the basic hypothesis that the Goths are not a people but a number of tribes and peoples united through a common religious cultic origin The old dispute concerning the relationship between Svear and Gautar also gets quite a new meaning The book is interdisciplinary and embraces history religion arts linguistics and archaeology In 1999 Ingemar Nordgren received his Ph D at Odense University Denmark The book builds to a considerable extent on his dissertation but has been updated and partly rewritten with brand new material

*The Development of Aspirated Fricatives in Gothic* Seiichi Suzuki, 2024-06-15 This book presents three major hypotheses concerning the development of fricatives in Gothic First Gothic introduced aspiration or a phonological feature spread glottis to the fricative system Second this acquisition of aspirated fricatives should be explained as a contact induced change Specifically a Gothic Greek bilingual community may be held responsible for initiating and diffusing the contact change Third I claim that this contact driven featural enrichment prompted an array of radical restructurings of fricatives in their phonological and morphological organizations in Gothic notably the occurrence of Final Devoicing in contrast to the nonoccurrence of medial voicing the elimination of Verner's Law effects in strong verbs the operation of Thurneysen's Law and the apparently irregular split of PGmc fl to Go fl and l Thus privileged by a Lower Danube community largely composed of Greek Gothic bilinguals this cluster of mid fourth century innovations came to define the phonological and morphological identities of Biblical Gothic

**Imagined Landscapes** Jane Stadler, Peta Mitchell, Stephen Carleton, 2015-12-21 An analysis

of the depiction of Australia's landscape in its films and literature. *Imagined Landscapes* teams geocritical analysis with digital visualization techniques to map and interrogate films, novels, and plays in which space and place figure prominently. Drawing upon *A Cultural Atlas of Australia*, a database-driven interactive digital map that can be used to identify patterns of representation in Australia's cultural landscape, the book presents an integrated perspective on the translation of space across narrative forms and pioneers new ways of seeing and understanding landscape. It offers fresh insights on cultural topography and spatial history by examining the technical and conceptual challenges of georeferencing fictional and fictionalized places in narratives. Among the items discussed are *Wake in Fright*, a novel by Kenneth Cook adapted iconically to the screen and recently onto the stage; the Australian North as a mythic space; spatial and temporal narrative shifts in retellings of the story of Alexander Pearce, a convict who gained notoriety for resorting to cannibalism after escaping from a remote Tasmanian penal colony; travel narratives and road movies set in Western Australia; and the challenges and spatial politics of mapping spaces for which there are no coordinates. It will likely be the indispensable touchstone for any future work in these areas with respect to Australian cultural studies. Robert T. Tally, Texas State University. Definitely original in its approach since it combines a conceptual approach with a more applied one. The book is a serious contribution to the field of mapping spatial narratives and to a better understanding of the production and spatial structure of fictional places. S. Bastien Caquard, Concordia University.

*Medieval Archaeology, Art and Architecture at Chester* Alan Thacker, 2024-11-01. This volume is a compilation of papers presented in the British Archaeological Association's annual conference in 1992. It focuses on the long tradition of archaeological and historical enquiry which has provided a framework for understanding Chester's development from the Roman period.

**Bombers over Sand and Snow** Alun Granfield, 2011-10-05. 205 Group RAF provided the only mobile force of heavy night bombers in the Mediterranean theater in the Second World War. It operated mainly from bases in Egypt, Libya, Tunisia, and Italy, with occasional excursions to Malta, Greece, and Iraq, attacking tactical and strategic targets according to the demands of the wider war in the theater. The force was relatively small when compared with the numbers of aircraft available to Bomber Command in the Western European theater, and it carried on using the venerable Vickers Wellington long after this aircraft had been relegated to the training role in the United Kingdom. Like their UK-based counterparts, the night bombers were intended to operate in a strategic role, bombing targets away from the immediate battlefield. However, the demands of the war in the Middle East and Mediterranean soon diverted the bombers from their strategic role and saw them operating much closer to the front line in support of the hard-pressed ground forces. The bomber squadrons in North Africa usually operated from Advanced Landing Grounds scraped out of the bare desert with only a few tents for shelter. In Italy, they did have more or less permanent bases, but they still lived in tents if they were lucky, often surrounded by a sea of mud. There were no pubs, often no beer, and the only contact with their families were the eagerly awaited letters from home. Also, the squadrons in England did not have Rommel continually knocking on their door. Thus, the

operations of the night bombers in the Middle East and Mediterranean were often governed by the general progress of the war in the theater. The ebb and flow of the land battles not only determined the activities of the night bombers but also determined their location. This book tells their story.

A great deal has been written about Elizabeth Gaskell in the past decade and Elizabeth Gaskell: An Annotated Guide to English Language Sources, 1992-2001 builds upon Weyant's 1994 work which covered some 350 sources published between 1976 and 1991. This supplement identifies almost 600 new books, book chapters, journal articles, dissertations and master and honor theses on the life and writings of Gaskell. **The Nordic Languages. Volume 1** Oskar Bandle, Kurt Braunmüller, Ernst Hakon Jahr, Allan Kärker, Hans-Peter Naumann, Ulf Telemann, Lennart Elmevik, Gun Widmark, 2002. The handbook is not tied to a particular methodology but keeps in principle to a pronounced methodological pluralism encompassing all aspects of actual methodology. Moreover, it combines diachronic with synchronic systematic aspects: longitudinal sections with cross sections, periods such as Old Norse, transition from Old Norse to Early Modern Nordic, Early Modern Nordic, 1550-1800 and so on. The description of Nordic language history is built upon a comprehensive collection of linguistic data; it consists of more than 200 articles written by a multitude of authors from Scandinavian and German and English speaking countries. The organization of the book combines a central part on the detailed chronological developments and some chapters of a more general character: chapters on theory and methodology in the beginning and on overlapping spatio-temporal topics in the end.

**A History of Art** Giulio Carotti, 1909 British Identities before Nationalism Colin Kidd, 1999-03-13 Inspired by debates among political scientists over the strength and depth of the pre modern roots of nationalism this study attempts to gauge the status of ethnic identities in an era whose dominant loyalties and modes of political argument were confessional institutional and juridical Colin Kidd's point of departure is the widely shared orthodox belief that the whole world had been peopled by the offspring of Noah In addition Kidd probes inconsistencies in national myths of origin and ancient constitutional claims and considers points of contact which existed in the early modern era between ethnic identities which are now viewed as antithetical including those of Celts and Saxons He also argues that Gothicism qualified the notorious Francophobia of eighteenth century Britons A wide ranging example of the new British history this study draws upon evidence from England Scotland Ireland and America while remaining alert to European comparisons and influences
