Gorbachev's Information Revolution Wilson P. Dizard, 2019-10-02 This book analyzes Gorbachev's perestroika and its relationship to the information revolution. It examines the Gorbachev initiatives in scientific and technological sectors and their implications for Soviet society as well as for the world beyond Soviet borders. **1978-1989** Heinz-Dietrich

Fischer, 2020-01-20 No detailed description available for 1978-1989 **The Collapse of the Soviet Union, 1985-1991**

David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991? The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology. This book argues that the disintegration was mainly a result of two interrelated factors: the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev. Written in a clear and accessible manner, the book provides an explanation of how the national question came to dominate Soviet politics by 1990: 1. analysis of the economic crisis that occurred in the late 1980s; a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December; a discussion of the personalities of and political confrontation between the two key statesmen, Gorbachev and Yeltsin. Also containing a Chronology, Glossary, and Who's Who of key figures, *The Collapse of the Soviet Union* is essential reading for students of twentieth-century European history. **Politics, Society, And Nationality Inside**

Gorbachev's Russia Seweryn Bialer, 2019-06-04 The East West Forum is a New York-based research and policy analysis organization sponsored by the Samuel Bronfman Foundation. Its goal is to bring together experts and policy leaders from differing perspectives and generations to discuss changing patterns of East-West relations. It attempts to formulate long-term analyses and recommendations. In p **The ^ADigital Flood** Dr. James W. Cortada, 2013-02-01 In this book, historian James W. Cortada provides the first world-wide history of how computers appeared and spread to over twenty nations in less than six decades. It explores economic, political, social, and technological reasons and consequences. It is based on extensive research into primary and secondary sources and concludes with a discussion of implications for key players in the globalized economy.

Tendencies and Tensions of the Information Age Jorge Reina Schement, Terry Curtis, 1995-01-01 The development of technology and the hunger for information has caused a wave of change in daily life in America. Nearly every American's environment now consists of cable television, video cassette players, answering machines, fax machines, and personal computers. Schement and Curtis argue that the information age has evolved gradually throughout the twentieth century. National focus on the production and distribution of information stems directly from the organizing principles and realities of

the market system not from a revolution sparked by the invention of the computer Now available in paperback *Tendencies and Tensions of the Information Age* brings together findings from many disciplines including classical studies etymology political sociology and macroeconomics This valuable resource will be enjoyed by sociologists historians and scholars of communication and information studies **Adaptation And Transformation In Communist And Post-communist Systems**

Sabrina Petra Ramet,2019-03-04 This book tackles different aspects of the adaptive and transformative process in communist and post communist systems in Eastern Europe offering competing models which locate the explanatory variable in different places and account for the unfolding of change in different ways **Digital Diplomacy** Wilson Dizard Jr.,2001-04-30 Digital Diplomacy provides a comprehensive overview of the major milestones in United States international communications and information policy from the early days of the Morse telegraph to the current Internet explosion The book underlines the growing importance of the communications issues particularly as they affect American leadership in a rapidly changing information environment Dizard a former foreign service officer rejects the idea of a computer based telediplomacy arguing instead that the new technologies should be used primarily to strengthen the capabilities of American diplomats in dealing with information age issues A must read for those interested in the future of United States foreign policy and a stimulating overview for scholars researchers and students involved in the subject *Inventing Public Diplomacy* Wilson P. Dizard,2004 Public diplomacy the uncertain art of winning public support abroad for one s government and its foreign policies constitutes a critical instrument of U S policy in the wake of the Bush administration s recent military interventions and its renunciation of widely accepted international accords Wilson Dizard Jr offers the first comprehensive account of public diplomacy s evolution within the U S foreign policy establishment ranging from World War II to the present Dizard focuses on the U S Information Agency and its precursor the Office of War Information Tracing the political ups and downs determining the agency s trajectory he highlights its instrumental role in creating the policy and programs underpinning today s public diplomacy as well as the people involved The USIA was shut down in 1999 but it left an important legacy of what works and what doesn t in presenting U S policies and values to the rest of the world *Inventing Public Diplomacy* is an unparalleled history of U S efforts at organized international propaganda *Communication Yearbooks Vols 6-33 Set* Various,2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Topics dealt with include Communication as Process Research Methodology in Communication Communication Effects Taxonomy of Communication and European Communication Theory Information Systems Division Mass Communication Research Mapping the Domain of Intercultural Communication Public Relations Feminist Scholarship Communication Law and Policy Visual Communication Communication and Cross Sex Friendships Across the Life Cycle Television Programming and Sex Stereotyping InterCultural Communication Training
