The Social Studies Professional ,1989 **Syndicate Directory** ,1988 **The Why Axis** Uri Gneezy,John List,2013-10-08 Can economics be passionate Can it center on people and what really matters to them day in and day out And help us understand their hidden motives for why they do what they do in everyday life Uri Gneezy and John List are revolutionaries Their ideas and methods for revealing what really works in addressing big social business and economic problems gives us new understanding of the motives underlying human behavior We can then structure incentives that can get people to move mountains change their behavior or at least get a better deal But finding the right incentive can be like looking for a needle in a haystack Gneezy and List's pioneering approach is to embed themselves in the factories schools communities and offices where people work live and play Then through large scale field experiments conducted in the wild Gneezy and List observe people in their natural environments without them being aware that they are observed Their randomized experiments have revealed ways to close the gap between rich and poor students to stop the violence plaguing inner city schools to decipher whether women are really less competitive than men to correctly price products and

services and to discover the real reasons why people discriminate To get the answers Gneezy and List boarded planes helicopters trains and automobiles to embark on journeys from the foothills of Kilimanjaro to California wineries from sultry northern India to the chilly streets of Chicago from the playgrounds of schools in Israel to the boardrooms of some of the world's largest corporations In *The Why Axis* they take us along for the ride and through engaging and colorful stories present lessons with big payoffs Their revelatory startling and urgent discoveries about how incentives really work are both revolutionary and immensely practical This research will change both the way we think about and take action on big and little problems Instead of relying on assumptions we can find out through evidence what really works Anyone working in business politics education or philanthropy can use the approach Gneezy and List describe in *The Why Axis* to reach a deeper nuanced understanding of human behavior and a better understanding of what motivates people and why

Comic Art in America Stephen D. Becker, 1959 *Kids' Stuff* Gary Cross, 1999-11-15 To sort out who's who and what's what in the enchanting vexing world of Barbies R and Ninja Turtles R Tinkertoys R and teddy bears is to begin to see what's become of childhood in America It is this changing world and what it unveils about our values that Gary Cross explores in *Kids' Stuff* a revealing look into the meaning of American toys through this century Early in the 1900s toys reflected parents' ideas about children and their futures Erector sets introduced boys to a realm of business and technology while baby dolls anticipated motherhood and building blocks honed the fine motor skills of the youngest children *Kids' Stuff* chronicles the transformation that occurred as the interests and intentions of parents children and the toy industry gradually diverged starting in the 1930s when toymakers marketing playthings inspired by popular favorites like Shirley Temple and Buck Rogers began to appeal directly to the young TV advertising blockbuster films like *Star Wars* R and Saturday morning cartoons exploited their youthful audience in new and audacious ways Meanwhile powerful social and economic forces were transforming the nature of play in American society Cross offers a richly textured account of a culture in which erector sets and baby dolls are no longer alone in preparing children for the future and in which the toys that now crowd the racks are as

perplexing for parents as they are beguiling for little boys and girls Whether we want our children to be high achievers in a competitive world or playful and free from the worries of adult life the toy store confronts us with many choices What does the endless array of action figures and fashion dolls mean Are children or parents the dupes of the film television and toy industries with their latest fads and fantasies What does this say about our time and what does it bode for our future Tapping a vein of rich cultural history Kids Stuff exposes the serious business behind a century of playthings
