Edmund Burke Selected Prose 1979:

Memoir, Letters, and a Selection from the Poems and Prose Writings of Anna Lætitia Barbauld Mrs. Barbauld (Anna Letitia), 1874 **Thinking from the Underside of History** Linda Martín Alcoff, Eduardo Mendieta, 2000-07-08 Enrique Dussel's writings span the theology of liberation critiques of discourse ethics evaluations of Marx Levinas Habermas and others but most importantly the development of a philosophy written from the underside of Eurocentric modernist teleologies an ethics of the impoverished and the articulation of a unique Latin American theoretical perspective This anthology of original articles by U S philosophers elucidating Dussel's thought offers critical analyses from a variety of perspectives including feminist ones Also included is an essay by Dussel that responds to these essays Global Fragments Eduardo Mendieta, 2012-02-01 Global Fragments offers an innovative analysis of globalization that aims to circumvent the sterile dichotomies that either praise or demonize globalization Eduardo Mendieta applies an interdisciplinary approach to one of the most fundamental experiences of globalization the mega urbanization of humanity The claim that globalization unsettles our epistemic maps of the world is tested against a study of Latin America Mendieta also recontextualizes the work of three major theorists of globalization Enrique Dussel Cornel West and Jürgen Habermas to show how their thinking reflects engagement with central problems of globalization and conversely how globalization itself is exemplified through the reception of their work Beyond the epistemic hubris of social theories that seek to accept or reject a globalized world Mendieta calls for a dialogic cosmopolitanism that departs from the mutuality of teaching and learning in a world that is global but not totalized **The Publishers' Trade List Annual** , 1990 *The Works of the Right Honourable Edmund Burke* Edmund Burke, 1906 Books in Print , 1987 **The speech of Edmund Burke, esq. on moving his resolutions for conciliation with the colonies, March 22, 1775. Adviser ,1986 Romance and Revolution David Duff,1994-09 Relates the revival of literary romance to the French Revolution s imaginative impact on English Romanticism **Nonfictional Romantic Prose** Steven P. Sondrup, Virgil Nemoianu,2004-03-31 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self referential fanciful creation Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction

explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age [The English Catalogue of Books Published from January, 1835, to January, 1863](#) ,1864

Serial Forms Clare Pettitt,2020-06-03 *Serial Forms* The Unfinished Project of Modernity 1815 1848 proposes an entirely new way of reading the transition into the modern It is the first book in a series of three which will take the reader up to the end of the First World War moving from a focus on London to a global perspective *Serial Forms* sets out the theoretical and historical basis for all three volumes It suggests that as a serial news culture and a stadial historicism developed together between 1815 and 1848 seriality became the dominant form of the nineteenth century Through serial newsprint illustrations performances and shows the past and the contemporary moment enter into public visibility together *Serial Forms* argues that it is through seriality that the social is represented as increasingly politically urgent The insistent rhythm of the serial reorganizes time recalibrates and rescales the social and will prepare the way for the 1848 revolutions which are the subject of the next book By placing their work back into the messy print and performance culture from which it originally appeared *Serial Forms* is able to produce new and exciting readings of familiar authors such as Scott Byron Dickens and Gaskell Rather than offering a rarefied intellectual history or chopping up the period into Romantic and Victorian Clare Pettitt tracks the development of communications technologies and their impact on the ways in which time history and virtuality are imagined

Radical Romanticism Mark S. Cladis,2025-09-16 Romanticism is often reduced to nostalgic pastoralism and solitary contemplation of the sublime But a radical strand of Romantic writers and thinkers offered sweeping political ecological and religious critiques of capitalism racism settler colonialism and environmental destruction Interweaving canonical nineteenth century authors with Black and Indigenous thinkers who transformed their work this book is a bold new account of Romanticism for today s deeply entrenched crises Mark S Cladis examines the progressive democratic religious and environmental beliefs and practices that informed European Romantic literature and its sustained legacies in North America His interpretation interweaves diverse voices such as W E B Du Bois Zora Neale Hurston and Leslie Marmon Silko while also revealing the progressive visions of Romantic authors such as Rousseau William and Dorothy Wordsworth Coleridge Mary Shelley Thoreau and Margaret Fuller Forging connections among literary and philosophical traditions while closely reading a wide range of texts *Radical Romanticism* shows how storytelling is central to the pursuit of justice and flourishing for the human and the more than human worlds Bringing together environmental humanities literary theory political theory and religious studies this book makes the case for a renewed radical Romanticism offering urgent resources for a world beset by catastrophe uncertainty and despair
