## Education And Religion:

**Education in Religion and Morals** George Albert Coe, 1909      *Education, Religion and Society* Dennis Bates, Gloria Durka, Friedrich Schweitzer, 2006 This volume brings together international scholars to honour the contributions of Professor John Hull to the field of religious education and practical theology exploring and discussing the debates and issues of a variety of important themes      *Education in Religion and Morals* George Albert Coe, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1911 edition Excerpt CHAPTER XXI THE CHURCH AND THE CHILD A GLANCE BACKWARD 205 How Can the We have seen that educa Church Keep in Touch with tion is no mechanical pro Childhood cess whereby a plastic child is molded upon fixed unyielding forms but that it is a vital and personal process in which the teacher must be plastic as well as the child This is just as true of the church as educator as it is of the individual teacher To keep in truly educational touch with humanity the church must be greatly different from any rigid completed thing which merely imposes itself upon growing life It must look to something more than mere method The possibilities of the church as educator depend upon her inmost relation to the basal forces of human life Is the church s life inclusive of life Is she herself a realisation of the vital forces of a growing soul or is she abstract removed from life incapable of the plasticity that is demanded of every teacher In a word the church s relation to education is inseparable from her relation to life in the largest sense 206 The Child in This truth is well illus 1 1 I Jewish church Here education blended into one with the national and the family life The ethnic sense the family sense and the religious sense were inseparable and the child knew no life apart therefrom As soon as he was old enough to ask questions about the meaning of family religious observances the parents told him not a creed but a story It was a story too in which he had a part for it told about his ancestors and their deeds and about his very own land and home and the things that he could see with his own eyes Through it he learned of a covenant existing between himself and God and how certain privileges rights and      **Faith Ed** Linda K. Wertheimer, 2015-08-18 An intimate cross country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth grade field trip The class was visiting a mosque to learn about world religions when a handful of boys unnoticed by their teachers joined the line of worshippers and acted out the motions of the Muslim call to prayer A video of the prayer went viral with the title Wellesley Massachusetts Public School Students Learn to Pray to Allah Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren Wellesley school officials defended the course but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom Courts long ago banned public school teachers from preaching of any kind But the question remains How much should schools teach about the world s religions Answering that question in recent decades has pitted schools against their communities Veteran education journalist Linda K Wertheimer spent months

with that class and traveled to other communities around the nation listening to voices on all sides of the controversy including those of clergy teachers children and parents who are Muslim Jewish Christian Sikh or atheist In Lumberton Texas nearly a hundred people filled a school board meeting to protest a teacher s dress up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam In Wichita Kansas a Messianic Jewish family s opposition to a bulletin board display about Islam in an elementary school led to such upheaval that the school had to hire extra security Across the country parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths But in Modesto a city in the heart of California s Bible Belt teachers have avoided problems since 2000 when the school system began requiring all high school freshmen to take a world religions course Students receive comprehensive lessons on the three major world religions as well as on Sikhism Hinduism Buddhism and often Shintoism Taoism and Confucianism One Pentecostal Christian girl terrified by idols including a six inch gold Buddha learned to be comfortable with other students beliefs Wertheimer s fascinating investigation which includes a return to her rural Ohio school which once ran weekly Christian Bible classes reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans *New Steps in Religious Education* Michael Keene,2002 Pictures and introductory features set out learning objectives in this series of RE textbooks ICT support has been added through a dedicated New Steps website Also included are new Foundation editions for lower ability pupils Identical page layout between the two editions means that core and foundation editions can be used alongside one another in class Teacher support including photocopiable worksheets and ICT activities are available on the dedicated New Steps in RE website

Roberts,2010-11-01 Raymond R Roberts makes a liberal s case for teaching religion and morality in public schools by first examining the intersection of religion and public education He shows how proposals for moral education in public schools are shaped by definitions of religion He argues that the public education s critics overstate the failures of public education because they examine public schools in isolation from negative trends in the family the economy the media etc From there he describes how a theory of spheres of influence gives us a better perspective from which to understand public education including its relationship with religion
