Education for Peace ASCD 1973 Yearbook Committee, 1973-01-01 **Resources in Education** , 2001-10 **Research in Education** , 1973-12 **Exploring Betty A. Reardon's Perspective on Peace Education** Dale T.

Snauwaert, 2019-05-15 This book presents commentaries by a leading international group of peace education scholars and practitioners concerning Reardon's peace education theory and intellectual legacy. The guiding question throughout the book is: How can her foundational work be used to advance the theory and practice of peace education? In an attempt to find answers, the contributing authors explore three general areas of inquiry: 1. Theoretical Foundations of Peace and Human Rights Education; 2. Feminism and the Gender Perspective as Pathways of Transformation Toward Peace and Justice; and 3. Peace Education Pedagogy and Practices. A contemplative commentary by Reardon herself rounds out the coverage.

Routledge International Companion to Education Miriam Ben-Peretz, Sally Brown, Bob Moon, 2004-04-28 The Routledge International Companion to Education addresses the key issues underpinning the rethinking and restructuring of education at the beginning of the new millennium. The volume contains over fifty major contributions exploring a wide range of issues including philosophy of education, the economics and resourcing of education, testing and assessment, current issues and future prospects, standards, multiculturalism, anti-racism, computers in classrooms, mother tongue education, civics and moral education. Each chapter gives a contemporary account of developments in the field and looks to the future and the directions that new activity and inquiry are likely to take. All the chapters are written from an international perspective.

most radical of the ideologies because it rejects the industrial and consumerist paradigm that has dominated most economic thought including capitalism and communism Spring synthesizes and analyzes the effect of these educational ideologies on shaping the future of the global society In the concluding section he compares the effect of these ideologies on global society with the possibility of a world divided between conflicting civilizations

Around the World Stephanie Hepburn,Rita J. Simon,2013-04-09 An overview of sex trafficking forced labor organ trafficking and sex tourism across twenty four nations providing detailed accounts of the victims experiences and discussing anti trafficking measures and the conflicting policies that make trafficking so pervasive *The Gifts of Community* Anne Marie Durham,2012-11-29 We all feel the pull that innate knowing that we were put here on this earth for some important purpose greater than ourselves But how can we realize that calling in a world that seems so utterly broken and in perpetual turmoil How can one person make a difference How do we help others when overcoming our own personal problems seems so overwhelming It is simply by rediscovering our connectedness through community participation that both our inner and outer worlds begin to transform The Gifts of Community reveals the mutual path to personal and community development a path that has been well hidden behind cultural messages of competition and self preservation By sharing your gifts with others you are gifted with all that you have felt has been missing in your life You grow as a person realize your dreams develop your talents and meet your soul partners And as you realize this potential and begin to think in the mindset of community the world around you will change for the better as well Community is a grand scale gift exchange As you give good to others good comes back to you *Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 1999* United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies,1998 *Human Rights Education and the Politics of Knowledge* Joanne Coysh,2017-02-24 Around the world there are a myriad of NGOs using human rights education HRE as a tool of community empowerment with the firm belief that it will help people improve their lives One way of understanding these processes is that they translate universal human rights speak using messages and symbols which make them relevant to people s daily lives and culturally resonant However an alternative more radical perspective is that these processes should engage individuals in modes of critical inquiry into the ways that that existing power structures maintain the status quo and control not only how we understand and speak about social inequality and injustice but also act on it This book is a critical inquiry into the production distribution and consumption of HRE and how the discourse is

constructed historically socially and politically through global institutions and local NGO practice The book begins with the premise that HRE is composed of theories of human rights and education both of which are complex and multifaceted However the book demonstrates how over time a dominant discourse of HRE constructed by the United Nations institutional framework has come to prominence and the ways it is reproduced and reinforced through the practice of intermediary NGOs engaged in HRE activities with community groups Drawing on socio legal scholarship it offers a new theoretical and political framework for addressing how human rights pedagogy knowledge and power can be analysed between the global and local by connecting the critical but well trodden theories of human rights to insights on critical pedagogy It uses critical discourse analysis and ethnographic research to investigate the practice of NGOs engaged in HRE using contextual evidence and findings from fieldwork with NGOs and communities in Tanzania Sourcebook of the World's Religions Joel
