**in Online Education During Global Crises** Kyei-Blankson, Lydia,Blankson, Joseph,Ntuli, Esther,2021-05-07 In response to the COVID 19 pandemic many educational institutions implemented social distancing interventions such as initiating closure developing plans for employees to work remotely and transitioning teaching and learning from face to face classrooms to online environments The abrupt switch to online teaching and learning for the most part has been a massive change for administration faculty and students at traditional brick and mortar universities and colleges as concerns regarding the pedagogical soundness of this mode of delivery remain among some stakeholders Not only that but the switch has also revealed the inequities in the system when it comes to the types of students universities serve It is important as institutions move forward with online instruction that consideration be made about all students and what policies and strategies need to be put into place to help support and meet the needs of all constituents now or when unprecedented situations arise The only way this can be done is by documenting the experiences through the eyes of faculty who were at the frontline of providing instruction and advising services to students The Handbook of Research on Inequities in Online Education During Global Crises brings to light the struggles faculty and students faced as they were required to switch to online education during the global COVID 19 health crisis This crisis has revealed inequities in the educational system as well as the specific effects of inequities when it comes to learning online and the chapters in this book provide information to help institutions be better prepared for online education or remote learning in the future While highlighting topics such as new educational trends remote instruction diversity in education and teaching and learning in a pandemic this book is ideal for in service and preservice teachers administrators teacher educators practitioners stakeholders researchers academicians and students interested in the inequalities within the educational systems and the new policies and strategies put in place with online education to combat these issues and support the needs of all diverse student populations      Anatomy of Injustice Raymond Bonner,2013-01-08 From Pulitzer Prize winner Raymond Bonner the gripping story of a grievously mishandled murder case that put a twenty three year old man on death row In January 1982 an elderly white widow was found brutally murdered in the small town of Greenwood South Carolina Police immediately arrested Edward Lee Elmore a semiliterate mentally retarded black man with no previous felony record His only connection to the victim was having cleaned her gutters and

windows but barely ninety days after the victim's body was found he was tried, convicted and sentenced to death. Elmore had been on death row for eleven years when a young attorney named Diana Holt first learned of his case. With the exemplary moral commitment and tenacious investigation that have distinguished his reporting career, Bonner follows Holt's battle to save Elmore's life and shows us how his case is a textbook example of what can go wrong in the American justice system. Moving, enraging, suspenseful and enlightening, *Anatomy of Injustice* is a vital contribution to our nation's ongoing, increasingly important debate about inequality and the death penalty.

[The Essential Mystery Lists](#) Roger M. Sobin, 2011-09-30  
 For the first time in one place, Roger M. Sobin has compiled a list of nominees and award winners of virtually every mystery award ever presented. He has also included many of the best of lists by more than fifty of the most important contributors to the genre. Mr. Sobin spent more than two decades gathering the data and lists in this volume; much of that time he used to recheck the accuracy of the material he had collected. Several of the best of lists appear here for the first time in book form. Several others have been unavailable for a number of years. Of special note are Anthony Boucher's Best Picks for the Year, Boucher, one of the major mystery reviewers of all time, reviewed for *The San Francisco Chronicle*, *Ellery Queen Mystery Magazine* and *The New York Times*. From these resources, Mr. Sobin created Boucher's Best and Important Lists to Consider, lists that provide insight into important writing in the field from 1942 through Boucher's death in 1968. This is a great resource for all mystery readers and collectors. Winner of the 2008 Macavity Awards for Best Mystery Nonfiction.

[Education and Celtic Myth](#) Pádraic Frehan, 2012-01-01  
 The book examines one aspect of the national self-image of Ireland as it was trans-generationally transmitted in the Irish National School environment through the medium of the Celtic mythology tales. Celtic mythology embodied a unique Irishness without being contentious in the wider social and political spheres and the texts had the capability to impart a national self-image.

character and ideological model for the young generation to follow and exemplify while concurrently act as a sanctuary in which a unique neutral Irish self past and contemporary self image could be connected to From 1922 onwards a state run National School curriculum was set up to propagate a national ideal through the teaching of the Irish language Irish history and a rekindled awareness of Ireland's unique past The mythology tales were employed to portray this unique past and their inclusion in the textbooks provided a platform for the policies of the inculcation of national pride self respect and self image in the Irish nation official government and Department policy following the Second National Programme Conference and Report in 1926 The aim of this book is an imagological one focusing on what made these tales ideological The study incorporates a triangular approach contextual intertextual and textual It is at the point of intersection between 4 specialisms the historical study of Irish nationalism the history of culture and education in 20th century Ireland imagology and corpus linguistics The conclusions drawn are based upon factual statistical information garnered from the analyses conducted on the corpus and utilise information that is concrete and not hypothetical This volume is of interest for all those working in Irish school literature Irish studies especially cultural intellectual and educational history of Ireland imagology and European studies
