This book is packed with great engaging ideas for the gifted and talented classroom sure to excite and challenge your students. Grades 5-12 **Fundamentals of Gifted Education** Carolyn M. Callahan, Holly L. Hertberg-Davis, 2012-08-21 The field of gifted education is characterized by a confusing array of perspectives concerning such fundamental issues as definition, philosophy, curriculum, social and emotional development, and underserved populations. The mission of this book is to provide a coherent framework that instructors and service providers can use in planning effective programs, providing appropriate counseling services, and evaluating programs for the gifted. Most sections are organized around fundamental issues confronting the field and follow a common structure: an introductory chapter that provides historical and theoretical background and organizing questions followed by several point of view chapters written by experts that provide varied perspectives on the topic at hand. Distinguishing Features Comprehensive Coverage The book's forty-five manageable length chapters cover the full range of topics that must be considered in planning programs and services for gifted students both within and outside of school. Coherent Structure Section introductions provide background information and organizing questions to guide chapter authors who provide varying views of the issue at hand. The emphasis is not on the right way or the wrong way except when clearly documented bad practice is discussed but on how best practice stems from well-informed and logical decision making. Decision Making Focus The book's introductory chapter addresses the need for a clearly developed and consistently applied set of values to guide decision making. Likewise each section introduction includes a decision making framework regarding some aspect of educating, counseling, or parenting gifted students. This book is appropriate for introductory level courses in gifted education or courses in program development and planning. It is also suitable for school personnel responsible for making program planning decisions in the area of gifted education and for academic libraries with holdings in this area. *Teaching Gifted and Talented Learners in Regular Classrooms* Roberta M. Milgram, 1989 Grade level 1-12 **Exploring Critical Issues in Gifted Education** Christine L. Weber, Cecelia Boswell, Wendy A. Behrens, 2021-09-03 Although the best way to provide professional development for educators is through field experiences and hands-on practice, it is not always easy or even possible to organize such encounters, especially in the field of gifted education. In order to better prepare educators to work with gifted and talented students, *Exploring Critical Issues in Gifted Education: A Case Studies Approach* presents problem-based learning scenarios that explore authentic situations found in K-12 classrooms. The scenarios can be read and discussed in a short amount of time, allow the reader to gain greater understanding through empathy, require an analysis of multiple

perspectives and support the standards of excellence set forth in the 2010 NAGC Pre K Grade 12 Gifted Education Programming Standards Using the cases in the book educators will gain the insight needed to improve the identification of and services for gifted and talented students in light of these standards **Using the National Gifted Education Standards for Teacher Preparation** National Assoc For Gifted Children,NAGC,Joyce VanTassel-Baska,Ann Robinson,2021-09-23 Standards have benefits particular to the field of gifted education In order to ensure equity and systematic talent search and programming it is essential that current and future teachers are educated in the relevant theory research pedagogy and management techniques important for developing and sustaining classroom based opportunities specifically designed for gifted learners By incorporating the 2013 NAGC CEC Teacher Preparation Standards in Gifted and Talented Education this guidebook helps university faculty at the undergraduate and graduate levels design or revise gifted education programs and partner with other educators in developing gifted education teachers
