Education and Change in a Village Community: Mazières-en-Gâtine, 1848-1914 Roger Thabault, 1971 Mon Village, Ses Hommes, Ses Routes, Son École. Education and Change in a Village Community: Mazières-en-Gâtine, 1848-1914. Translated by Peter Tregear Roger THABAULT, 1971 *Education and Identity in Rural France* Deborah

Reed-Danahay, 1996 Drawing on an ethnographic study of a remote farming community in the Auvergne Dr Reed Danahay challenges conventional views about the operation of the French school system She demonstrates how parents and children subvert and resist the ideological messages of the teachers and describes the ways in which a sense of local difference is sustained and valued through a complex interplay of schooling and family life This book explores the role played by history identity and power in local responses to a national institution A significant contribution to the anthropology of education this book offers fresh insights into the ways in which French culture is transmitted to the coming generation Dr Reed Danahay also provides lucid and critical discussions of sociological theories on education including those of Bourdieu **France**

From 1851 to the Present R. Célestin, E. DalMolin, 2016-09-23 Bringing together history literature and popular culture this book provides a cultural history of France from a period of dominance in the mid 19th century to one of decline or crisis in the first few years of the third millennium Contains both chronological narrative and a selection of primary documents in translation *Village Notables in Nineteenth-Century France* Barnett Singer, 1983-01-01 Examines the role of village notables in nineteenth century France *Your Death Would Be Mine* Martha Hanna, 2009-07-01 Paul and Marie Pireaud a young peasant couple from southwest France were newlyweds when World War I erupted Drawing upon the hundreds of letters they wrote Martha Hanna tells their moving story and reveals a powerful and personal perspective on war

Bourdieu in Algeria Jane E. Goodman, Paul A. Silverstein, 2009-07-01 This is a collection of essays analyzing Pierre Bourdieu's early fieldwork in Algeria and its impact on his larger body of social theory **Ideology and Experience** Stephen Wilson, 1982-09-01 This analysis of racism in late 19th century France views the subject not in isolation but in its social context as an indicator and symptom of social change It also provides general analysis of anti Semitic ideology in France and of the Jewish response to this challenge *Socialism in Provence, 1871-1914* Tony Judt, 2011 No detailed description available for Socialism in Provence 1871 1914 *A Social History of France 1780-1914* Peter McPhee, 2017-03-03 This volume provides a lively and authoritative synthesis of recent work on the social history of France and is now thoroughly updated to cover the long nineteenth century from 1789 1914 Peter McPhee offers both a readable narrative and a distinctive coherent argument about this remarkable century and explores key themes such as Peasant interaction with the environment The changing experience of work and leisure The nature of crime and protest Changing demographic patterns and family structures The religious practices of workers and peasants The ideology and internal repercussions of colonisation At the core of this social history is the exercise and experience of social relations of power not

only because in these years there were four periods of protracted upheaval but also because the history of the workplace of relations between women and men adults and children is all about human interaction Stimulating and enjoyable to read this indispensable introduction to nineteenth century France will help readers to make sense of the often bewildering story of these years while giving them a better understanding of what it meant to be an inhabitant of France during that turbulent time

France 1814 - 1914 Robert Tombs,2014-09-25 Here is an incomparably rich portrait of France in the years when the disparate elements that made up the fragmented kingdom of the ancien regime were forged into the modern nation The survey begins with an exploration of national obsessions and attitudes It considers the tendency to revolution and war the preoccupation with the idea of a New Order and the deep strain of national paranoia that was to be intensified by the dramatic debacle of the Franco Prussian War Robert Tombs then investigates the structures of power and in Part Three he turns his attention to social identities from the individual and family to the nation at large When every aspect of the period has been put under the microscope Robert Tombs draws them all into the broad political narrative that brings the book to its rousing conclusion Bursting with life as well as learning this is quite simply a tour de force

People and Education in the Third World W. T. S Gould,2014-09-25 This text examines education and its role in Third World development Amongst the areas covered are the private and public demand for education global patterns of education the geography of educational provision the school and the community and education and population growth

A Social History of Nineteenth-Century France Roger Price,2021-12-24 First published in 1987 A Social History of Nineteenth Century France argues that the social impact of the French Revolution has been greatly exaggerated and that in 1815 France was still predominantly a rural and pre industrial society The revolution introduced only very limited changes in social structures and relationships the daily lives of ordinary people remained virtually unchanged A much more decisive turning point in French history the author suggests was the period of structural change in economy and society which began in the mid nineteenth century The first part of the book looks at many changes in the economy and their effect on living standards and social environment The second part identifies the social groups which make up French society and provides detailed analyses of their lifestyles and social relationships Part Three considers the influence of such key institutions as churches schools and the state Drawing on an exceptionally wide range of primary sources this is likely to be the definitive overview of French society for many years to come and will be of interest to researchers of French history and European history

The Politics of Transport in Twentieth-century France Joseph Jones,1984 Few aspects of economic development have had such a widespread or profound impact on the reshaping of contemporary France as transportation As a result transport policy has brought many of the major social forces into conflict Monopolistic railway companies closely aligned with the banks combated the defenders of the regions and small towns The fiercely independent truckers and barge haulers proponents of the small family firm collided with the forces of the state Apostles of the transatlantic gospel of free enterprise and technical progress clashed with

supporters of a planned socialist society **Rural Society and French Politics** Michael Burns, 2014-07-14 Michael Burns charts the rural impact of the two political watersheds of fin de siècle France Boulangism and the Dreyfus Affair Broadening our understanding of the early Third Republic he investigates its intricate village life and shows how the deindustrialization of the countryside both upset and solidified rural cultures Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The German Peasantry (Routledge Revivals) Richard J. Evans, W. R. Lee, 2015-06-03 This book first published in 1986 surveys the history of rural society in Germany from the eighteenth century to the present day The contributions include studies of Junker estates and small farming communities serfs and landless labourers maidservants and worker peasants They demonstrate the variety and complexity of the social division that structures the rural economy Throughout the book there is an emphasis on the conflicts that divided rural society and the ways and means in which these were expressed whether in serf strikes in eighteenth century Brandenburg village gossip in early twentieth century Hesse or factional struggles over planning permission in present day Swabia The rural world emerges not as traditional passive and undifferentiated but as actively participating in its own making not only responding to the changes going on around it but exploiting them for its own purposes and influencing them in its own way This book is ideal for students of history particularly German history
