Sherman, 1997-05-01 Ever since Max Weber started an argument about the role of Protestantism in jump starting northern Europe s economic development scholars have clashed over the influence of religion and culture on a society s or an individual s economic prospects Today many wonder whether the explosion of Protestantism in Latin America will effect a similar wave of growth and democratization In this book Sherman compiles the results of her field study and national survey of 1000 rural Guatemalan households She offers persuasive evidence that in Guatemala and throughout the region religious world views significantly influence economic life Sherman explains how the change in attitude and behavior that accompanies conversion from animism to a Biblically orthodox world view has improved the domestic welfare and economic status of many families Further she asserts that this new attitude sympathetic to democratic capitalism has created a moral cultural soil in which freedom personal empowerment an enhanced status for women and a desire to get ahead can be nurtured *Coffee and Community* Sarah Lyon, 2011-05-18 We are told that simply by sipping our morning cup of organic fair trade coffee we are encouraging environmentally friendly agricultural methods community development fair prices and shortened commodity chains But what is the reality for producers intermediaries and consumers This ethnographic analysis of fair trade coffee analyzes the collective action and combined efforts of fair trade network participants to construct a new economic reality Focusing on La Voz Que Clama en el Desierto a cooperative in San Juan la Laguna Guatemala and its relationships with coffee roasters importers and certifiers in the United States *Coffee and Community* argues that while fair trade does benefit small coffee
