Cultural Policy and Sustainable Development (ICPSD 2024) Abdul Kadir Jaelani, Irwansyah Irwansyah, Fokke Fernhout, Adolfo Antonio Paolini, Mohd Rizal Palil, Hilaire Tegnan, Okid Parama Astirin, Sutarno Sutarno, Patricia Covarrubia, Bobur Sobirov, Robbi Rahim, 2024-12-23 This is an open access book Cultural policy plays a crucial role in shaping societies influencing cultural expressions and advancing sustainable development Laws and regulations related to culture both at the national and international levels play a key role in regulating and protecting cultural heritage and supporting a healthy cultural ecosystem The First International Conference on Cultural Policy and Sustainable Development ICPSD aims to explore the impact of cultural policies in democratic and nondemocratic regimes This conference will serve as a platform for scholars policymakers and practitioners to exchange ideas share experiences and discuss strategies to promote cultural diversity creativity and sustainability in different political contexts Internationally various agreements such as the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions underscore the importance of cultural policies in supporting sustainable development and promoting cultural diversity UNESCO Convention 2005 n d At the national level laws such as the Cultural Law in Indonesia establish a framework for the protection and development of culture as well as provide a legal basis for inclusive and sustainable cultural policy making Law Number 5 of 2017 concerning the Advancement of Culture n d In democratic regimes cultural policies are often developed through participatory processes reflecting the values and aspirations of diverse communities These policies aim to support cultural expression protect

cultural heritage and promote cultural rights thereby contributing to social cohesion and inclusive development. However, challenges such as funding limitations, cultural commodification, and the impact of digital technology require ongoing dialogue and innovation in policy approaches. On the other hand, cultural policies in nondemocratic regimes are often used as tools for political control, censorship, and the promotion of state ideology. Nevertheless, cultural practitioners and activists in these contexts demonstrate resilience and creativity in navigating restrictive environments, often using digital technology to amplify their voices and preserve cultural identity. In various countries, existing legislation greatly influences the implementation of cultural policies and sustainable development. In Indonesia, for example, Law Number 5 of 2017 concerning Culture serves as the main foundation for the development of sustainable cultural policies. This law promotes the protection, preservation, development, utilization, and fostering of culture as an integral part of national development. Law Number 5 of 2017 concerning the Advancement of Culture and Cultural Policy and Sustainable Development are interrelated concepts and are the main focus of this conference, where appropriate cultural policies can strengthen sustainable development, reinforce cultural identity, and improve the quality of life for communities. In the context of the conference theme, Cultural Policies in Democratic and Nondemocratic Regimes, it is important to consider the differences in cultural policy approaches between these two types of regimes. This forum aims to facilitate communication among Law Faculty Academics worldwide with the agenda of the 1st International Conference on Cultural Policy and Sustainable Development (ICPSD) Cultural Policies in Democratic and Nondemocratic Regimes. *Proceedings of 5th Borobudur International Symposium on Humanities and Social Science (BISHSS 2023)* Zulfikar Bagus Pambuko, Muji Setiyo, Chrisna Bagus Edhita Praja, Agus Setiawan, Fitriana Yuliastuti, Lintang Muliawanti, Veni Soraya Dewi, 2024-08-01. This is an open access book. In our rapidly evolving modern era, the intersection of green technology and digital society has shifted paradigm shifts across various facets of human life. The fusion of these two domains holds the potential to profoundly impact society's social aspects. Therefore, The 5th Borobudur International Symposium with the theme Smart and Sustainable: The Synergy of Green Technology and Digital Society is designed to delve into and celebrate the strong synergy between green technology and the digital society, specifically focusing on social sciences. The background of this conference reflects the significant tensions in modern society. On the one hand, we witness innovative strides in green technology to reduce negative environmental impacts and develop more sustainable systems. On the other hand, our society is becoming increasingly interconnected in a vast digital network, enabling unprecedented information exchange that influences social interactions, work, education, and many other aspects of daily life. As green technology and the digital society converge, new and crucial opportunities and challenges emerge in the social context. Through this International Conference, we hope to provide a platform for researchers, practitioners, and stakeholders to share knowledge, experiences, and innovative ideas to better understand how green technology and the digital society can collaborate to achieve smarter and more sustainable societies. *Energy Abstracts for Policy Analysis*, 1982 World

Population: Challenge to Development Organizacja Narodów Zjednoczonych, 1966 Proceedings of the World Population Conference Margaret Sanger, 1927 Jacob Mincer Shoshana Grossbard, 2006-06-26 BY SHOSHANA GROSSBARD

In 2004 the Society of Labor Economists announced its first Award for Lifetime Achievement in Labor Economics. Jacob Mincer and Gary Becker were the recipients. The award was then renamed the Jacob Mincer Award. Two years earlier Mincer was the first to win the IZA Award in Labor Economics. These awards recognize Mincer's primary role in shaping labor economics but they only hint at the breadth of his reputation and accomplishments: he is a member of the National Academy of Sciences and has been appointed a Fellow of the American Statistical Association and the Econometric Society as well as a distinguished Fellow of the American Economic Association. Mincer is one of the principal architects of Modern Labor Economics (MLE), a premier application of micro economics in the spirit of Chicago's positive economics. There are typically three steps to such application: 1) a theoretical model is developed or borrowed leading to testable implications; 2) empirical work is performed; and 3) the findings are analyzed in light of the theoretical analysis. All of Mincer's work has followed those steps even when this was a rare occurrence. When he started in the mid 1950s labor economics was a subfield of institutional economics. Labor economics is now a major field of economics. As a result of his work and that of other pioneers MLE became an example for other applications of economic models.
