Economic Growth In Asia Pacific Reg:

Productivity, Efficiency, and Economic Growth in the Asia-Pacific Region Jeong-Dong Lee, Almas Heshmati, 2008-09-20
Productivity growth is a keyword for sustainable economic growth in a knowledge based society. There has been significant methodological development in the literature on productivity and efficiency analysis e.g. SFA Stochastic Frontier Analysis and DEA Data Envelopment Analysis. All these methodological developments should be matched with applications in order to provide practical implications for private and public decision makers. This volume provides a collection of up to date and new applications of productivity and efficiency analysis. In particular the case studies cover various economic issues in the Asia Pacific region. The authors analyze the performance of manufacturing firms, banks, venture capital, broadcasting firms as well as the issues of efficiency in the education sector, regional development and defense industry. These case studies will shed light on the potential contribution of productivity and efficiency analysis to the enhancement of economic performance.

Economic Growth in the Asia Pacific Region James H. Gapinski, 1999-10-01

The author's analysis of growth determinants provides a natural framework from which to examine major issues that bear on Asian Pacific growth in the future. So the third part examines Hong Kong's growth under reversion to China and inquires into the growth consequences of the Asian currency crisis. Along the way, Gapinski examines implications for policy makers of the current growth trends.

The Impact of China's Economic Reforms Upon Land, Property and Construction Jean Jinghan Chen, David Wills, 2019-04-12. First published in 1999, this volume aims to explore the impact of China's recent economic reforms and dynamic economic progress on land use, the property market, and construction activity under the leadership of Deng Xiaoping until his death in 1997. Following the famine and bloody mayhem of Mao Zedong's Great Leap Forward and Cultural Revolution, Deng Xiaoping took on the task of piecing the country back together to once more become a leading world economy. Here, Jean Jinghan Chen and David Wills concentrate on his reforms and progress, examining at what point power can be said to have passed from Deng Xiaoping to Jiang Zemin, to what extent Deng's political philosophy remained in place under the new government, and what this means for China's economic reforms on land, property, and construction. The authors provide a view on how management of the physical environment needs to be considered in the context of economic progress to achieve sustainable development.
