Economic And Financial Decisions Under Risk:

Economic and Financial Decisions under Risk Louis Eeckhoudt, Christian Gollier, Harris Schlesinger, 2011-10-30 An understanding of risk and how to deal with it is an essential part of modern economics Whether liability litigation for pharmaceutical firms or an individual's having insufficient wealth to retire risk is something that can be recognized quantified analyzed treated and incorporated into our decision making processes This book represents a concise summary of basic multiperiod decision making under risk Its detailed coverage of a broad range of topics is ideally suited for use in advanced undergraduate and introductory graduate courses either as a self contained text or the introductory chapters combined with a selection of later chapters can represent core reading in courses on macroeconomics insurance portfolio choice or asset pricing The authors start with the fundamentals of risk measurement and risk aversion They then apply these concepts to insurance decisions and portfolio choice in a one period model After examining these decisions in their one period setting they devote most of the book to a multiperiod context which adds the long term perspective most risk management analyses require Each chapter concludes with a discussion of the relevant literature and a set of problems The book presents a thoroughly accessible introduction to risk bridging the gap between the traditionally separate economics and finance literatures

Investment Risk Management Harold Kent Baker, Greg Filbeck, 2015 Investment Risk Management provides an overview of developments in risk management and a synthesis of research on the subject The chapters examine ways to alter exposures through measuring and managing risk exposures and provide an understanding of the latest strategies and trends within risk management

QFINANCE Bloomsbury Publishing, 2014-11-20 QFINANCE The Ultimate Resource 5th edition is the first step reference for the finance professional or student of finance Its coverage and author quality reflect a fine blend of practitioner and academic expertise whilst providing the reader with a thorough education in the many facets of finance Theory and Reality in Financial Economics George M. Frankfurter, 2007 The current literature on financial economics is dominated by neoclassical dogma and supposedly the notion of value neutrality However the failure of neoclassical economics to deal with real financial phenomena suggests that this might be too simplistic of an approach This book consists of a collection of essays dealing with financial markets imperfections and the inability of neoclassical economics to deal with such imperfections Its central argument is that financial economics as based on the tenets of neoclassical economics cannot answer or solve the real life problems that people face It also shows the direct relationship between economics and politics OCo something that is usually denied in academic models given that science is supposed to be value neutral In this thought provoking and avant garde book the author not only exposes what has gone wrong but also suggests reforms to both the academic and the political economic systems that might help make markets fair rather than efficient Drawing on interdisciplinary fields this book will appeal to readers who are interested in finance economics business the political economy and philosophy Sample Chapter s Foreword 37 KB Chapter 1 Method and Methodology 146 KB Contents Method and Methodology What is All Efficiency Still Autistic Finance The Young Finance Faculty s Guide to Publishing Prolific Authors in Finance For Profit Education An Idea That Should be Put to Rest Weep Not for Microsoft Monopoly s Fatal Exception The Socio Economics of Scandals Desperately Seeking Toto And Now for Something Entirely Different After the Ball Capitalism or Industrial Fiefdom The Theory of Fair Markets TFM Toward a New Finance Paradigm Readership Graduate students of finance students of economics economic methodology and philosophy of science **Investment decisions** Luiz Martins Lopes/Simão Davi

Silber/José Carlos de Souza Santos,2023-10-23 The book integrates texts prepared by a single author and is based on a variety of fundamental concepts and instruments applied in investment decisions from a diversity of texts The book approaches investment decisions from the perspective of the financial system and economic agents which can be investors and borrowers of funds firms or individuals The wide variety of assets available is one of the reasons why new methods for managing an investment portfolio often emerge Thus by opting for a more comprehensive approach it is possible to cover a more comprehensive range of financial assets and investment strategies As this is a compilation of articles the 24 chapters cover topics such as the globalization of markets leverage and working capital in corporate finance asset and liability management and corporate hedging investment decisions and business valuation besides concepts and applications of macro and microeconomics

Hormones and Economic Behavior Pablo Brañas-Garza,Levent Neyse,Martin Voracek,Ulrich Schmidt,Monica Capra,2019-01-29 Behavioral correlates of hormones emphasized by psychologists have captured the attention of economists in the past years Behavioral economists in particular have investigated the possible roles of hormones on economic decision making and behavior as well as social preferences and cognitive abilities Testosterone oxytocin dopamine serotonin and stress hormones are the foremost studied ones in economic contexts Yet the results are mixed and the relationship between hormones and economic behavior is under investigated to this date Hormone levels are measurable and manipulatable e g activate de activate block The fact that the behavioral economics also employs experimental methodology makes it possible to observe both correlational and causal relationships between hormones and economic behavior Since numerous environmental social and biological factors interact with hormone fluctuations capturing the true impacts of hormones on decisions and behavior is challenging Manipulating hormone levels in the body is a method that is used to tackle this issue Such studies compare observed behaviors of hormones or placebo administrated participants to determine causal relationships This Research Topic welcomes the studies on the direct or indirect correlates of hormones on economic behavior and decision making to create new insights on the economic consequences of endocrine activity

Financial Decision-Making in the Foodservice Industry Amit Sharma,2019-12-20 The study of decision making in foodservice is still a relatively new area of scholarly interest The application of cost benefit analysis and behavioral finance and economics in the foodservice context is rare This volume Financial Decision Making in the Foodservice Industry Economic Costs and Benefits fills that gap and focuses on cost benefit analysis decision making behavioral finance economic theories and their application in foodservice and restaurant industry The volume synthesizes these major themes by developing new theoretical foundations and presenting findings from the investigation of managerial practice The authors cover an abundance of topical issues including ethical obligations in foodservice sustainability issues in the foodservice restaurant industry farm to school and local food expenditures in school foodservice settings managerial traits and behavior in the foodservice industry and more

Managing Water Under Uncertainty and Risk: United Nations World Water Development Report #4 (3 Vols.)

UNESCO,2012-01-01 Released every three years since March 2003 the United Nations World Water Development Report WWDR a flagship UN Water report published by UNESCO has become the voice of the United Nations system in terms of the state use and management of the world s freshwater resources The report is primarily targeted at national decision makers and water resource managers but is also aimed at educating and informing a broader audience from governments to the private sector and civil society It underlines the important roles water plays in all social economic and environmental decisions highlighting policy implications across various sectors from local and municipal to regional and international levels Similarly to the first two editions this report includes a comprehensive and up to date assessment of several key challenge areas such as water for food energy and human health and governance challenges such as institutional reform knowledge and capacity building and financing each produced by individual UN agencies Coherent Stress Testing Riccardo

Rebonato,2010-06-10 In Coherent Stress Testing A Bayesian Approach industry expert Riccardo Rebonato presents a groundbreaking new approach to this important but often undervalued part of the risk management toolkit Based on the author s extensive work research and presentations in the area the book fills a gap in quantitative risk management by introducing a new and very intuitively appealing approach to stress testing based on expert judgement and Bayesian networks It constitutes a radical departure from the traditional statistical methodologies based on Economic Capital or Extreme Value Theory approaches The book is split into four parts Part I looks at stress testing and at its role in modern risk management It discusses the distinctions between risk and uncertainty the different types of probability that are used in risk management today and for which tasks they are best used Stress testing is positioned as a bridge between the statistical areas where VaR can be effective and the domain of total Keynesian uncertainty Part II lays down the quantitative foundations for the concepts described in the rest of the book Part III takes readers through the application of the tools discussed in part II and introduces two different systematic approaches to obtaining a coherent stress testing output that can satisfy the needs of industry users and regulators In part IV the author addresses more practical questions such as

embedding the suggestions of the book into a viable governance structure Proceedings of the Fourteenth International Conference on Management Science and Engineering Management Jiuping Xu, Gheorghe Duca, Syed Ejaz Ahmed, Fausto Pedro García Márquez, Asaf Hajiyevev, 2020-06-29 This book gathers the proceedings of the 14th International Conference on Management Science and Engineering Management ICMSEM 2020 Held at the Academy of Studies of Moldova from July 30 to August 2 2020 the conference provided a platform for researchers and practitioners in the field to share their ideas and experiences Covering a wide range of topics including hot management issues in engineering science the book presents novel ideas and the latest research advances in the area of management science and engineering management It includes both theoretical and practical studies of management science applied in computing methodology highlighting advanced management concepts and computing technologies for decision making problems involving large uncertain and unstructured data The book also describes the changes and challenges relating to decision making procedures at the dawn of the big data era and discusses new technologies for analysis capture search sharing storage transfer and visualization as well as advances in the integration of optimization statistics and data mining Given its scope it will appeal to a wide readership particularly those looking for new ideas and research directions Rethinking Corporate Governance in Financial Institutions Demetra Arsalidou, 2015-11-06 There are many deep seated reasons for the current financial turmoil but a key factor has undoubtedly been the serious failings within the corporate governance practices of financial institutions There have been shortcomings in the risk management and incentive structures the boards supervision was at times weak disclosure and accounting standards were in some cases inadequate the institutional investors engagement with management was at times insufficient and last but not least the remuneration policies of many large institutions appeared inappropriate This book will provide a critical overview and analysis of key corporate governance weaknesses focusing primarily on three main areas directors failure to understand complex company transactions the poor remuneration practices of financial institutions and finally the failure of institutional investors to sufficiently engage with management The book while largely focused on the UK will also consider EU and Australian developments as well as offering a comparative angle looking at the corporate governance of financial institutions in the US
