Scott,2000-05-25 In this path breaking study first published in 2000 Jonathan Scott argues that seventeenth century English history was shaped by three processes The first was destructive that experience of political instability which contemporaries called our troubles The second was creative its spectacular intellectual consequence in the English revolution The third was reconstructive the long restoration voyage toward safe haven from these terrifying storms Driving the troubles were fears and passions animated by European religious and political developments The result registered the impact upon fragile institutions of powerful beliefs One feature of this analysis is its relationship of the history of events to that of ideas Another is its consideration of these processes across the century as a whole The most important is its restoration of this

Love drives and gives life to the commerce of mankind Thus the sixteen year old Ferdinando Galiani 1728 1787 presented his project to understand the sociable nature of man This observation a reflection of his own position on the relation between trade and virtue hinted at what the mature works of Galiani one of the most noteworthy economists and wits in eighteenth century Italy would eventually yield In *Love Self Deceit and Money* Koen Stapelbroek reconstructs the Early Neapolitan Enlightenment debate on the morality of market societies a debate that hinged on the preservation of Naples independent statehood in a global arena of commercial and military competition Galiani rejected the moralizing and mercantile ideas of his contemporaries regarding the dangers threatening Naples and in his *Della moneta* 1751 he justified the systems set in

place by the Neapolitan government With reference to early previously unstudied lectures on self deceptive Platonic love Koen Stapelbroek examines Galiani's role in the wider debate arguing that his early moral philosophical and historical work suggests a great deal about his political economic stance including his assertion that money is the ultimate ordering principle in the universe As a study of one of the most idiosyncratic minds of the Enlightenment period *Love Self Deceit and Money* shows how diverse ideas of the development of individual passions into social dispositions commerce and reform politics dovetailed seamlessly in the intellectual climate of eighteenth century Europe

The History of Political Theory and Other Essays John Dunn, 1996 A collection of penetrating essays on political thought past present and future by a major commentator

Representation and Misrepresentation in Later Stuart Britain Mark Knights, 2006-09-28 In this original and illuminating study Mark Knights reveals how the political culture of the eighteenth century grew out of earlier trends and innovations Arguing that the period 1675-1720 needs to be seen as the second stage of a seventeenth century revolution that ran on until c 1720 the book traces the development of the public as an arbiter of politics the growth of a national political culture the shift towards a representative society a crisis of public discourse and credibility and a political enlightenment rooted in local and national partisan conflict The public acquired a new status in the later Stuart period as a result of frequent elections the lapse of pre-publication licensing the emergence of party politics the creation of a public debt and ideological conflict over popular sovereignty These factors enlarged the role of the public and required it to make frequent acts of judgement Yet contemporaries from across the political spectrum feared that the public might be misled by the misrepresentations peddled by their rivals Each side and those ostensibly of no side discerned a culture of passion

slander libel lies hypocrisy dissimulation conspiracy private languages and fictions Truth appeared an ambiguous political matter But the reaction to partisanship was also creative for it helped to construct an ideal form of political discourse This was one based on reason rather than passion on politeness rather than incivility on moderation rather than partisan zeal on critical reading rather than credulity and the realisation of those ideals rested on infrequent rather than frequent elections Finding synergies between social political religious scientific literary cultural and intellectual history Representation and Misrepresentation reinvigorates the debate about the emergence of the public sphere in the later Stuart period
