The Evolution of Wage Regulation in Hungary Michael Marrese,1979 *Overseas Business Reports* ,1977 Collective Farms which Work? Nigel Swain,1985-06-13 Analyzes the lessons learned from thirty years of actually existing socialism within the collective farm system of Hungary Provides the first thorough sociological analysis in English of this example of successful collectivization through a detailed study of its internal social structure and relevant decision making processes

Employment Policies in the Soviet Union and Eastern Europe Jan Adam,1987-06-18 **Contradictions and Dilemmas** János Kornai,1986 These seven essays by the Eastern block s most important economist address and explore many of the critical social and economic issues inherent in the socialist economy Published in Hungary in 1983 they are the firsthand observations of an insider who attempts to be as frank and impartial as possible about the experiment in his own country The essays distinguish the classical or traditional form of a highly centralized socialist economy from a system like that of Hungary s that is in the process of institutional reforms They focus on a few important characteristics of social economies rather than providing a broad description and analysis of socialist systems in order to stimulate thinking along comparative lines The wider problems and issues related to socialist systems that they address will interest sociologists and political scientists historians and philosophers as well as economists Kornai points out that because real modern societies are different from the pure models of capitalism and socialism combinations and mixtures of socialist and capitalist systems sellers and buyers markets centralized and decentralized management occur widely and intensively in both socialist and highly developed industrial market economies and in the nonsocialist third world countries in some segments and to a certain degree Looking at these phenomena comparatively reveals both the deep differences and the similarities and analogies between the systems The essays are The Reproduction of Shortage Hard and Soft Budget Constraint Degrees of Paternalism Economics and Psychology Comments on the Present State and the Prospects of the Hungarian Economic Reform Efficiency and the Principles of Socialist Ethics The Health of Nations J nos Kornai is Professor of Economics at the Institute of Economics Hungarian Academy of Sciences Budapest **Business and Economic Ethics** Arthur Rich,2006 This book is a fundamental and unique masterpiece which reflects the discussions on business and economic ethics over decades in German speaking countries and does so by systematically developing an Ethics of Economic Systems from a Christian theological perspective with a firm foundation in the western philosophical and economic literature Neither in German speaking nor English speaking regions has this complex theme been dealt with in such a comprehensive and thorough manner Ethics is a matter of doing justice to the human without twisting the facts and ignoring the constraints The study introduces seven criteria of human justice that fundamentally relate to the Christian revelation and at the same time establish a humanistic and universal approach Subsequently it focuses on the concrete economic systems and their problems It describes and

analyses various models of market and centrally planned economies and evaluates them in the light of middle level principles which are informed by both ethical criteria and economic knowledge Thus the most legitimate economic system is the one which offers the most potential for reforms and self critique The merits of this approach are considerable if the system of the market economy has the advantage of being thoroughly reformable it also requires regulations which are equitable and responsible In this view one better understands the inescapable failure of Marxism but also the ethical ramifications of savage deregulations Arthur Rich 1910 1992 was Professor of Systematic Theology and Director of the Institute of Social Ethics at the University of Zurich Switzerland He worked in the field of business and economic ethics for nearly 40 years Georges Enderle is Arthur and Mary O Neil Professor of International Business Ethics at the Mendoza College of Business University of Notre Dame Indiana USA and President of the International Society of Business Economics and Ethics 2001 2004 which organizes the ISBEE World Congress of Business and Economic Ethics every four years
