Modernization and the Crisis of Development in Africa Jeremiah I. Dibua, 2017-11-28 In this book Jeremiah I Dibua challenges prevailing notions of Africa's development crisis by drawing attention to the role of modernization as a way of understanding the nature and dynamics of the crisis and how to overcome the problem of underdevelopment. He specifically focuses on Nigeria and its development trajectory since it exemplifies the crisis of underdevelopment in the continent. He explores various theoretical and empirical issues involved in understanding the crisis including state, class, gender, and culture, often neglected in analysis from an interdisciplinary radical political economy perspective. This is the first book to adopt such an approach and to develop a new framework for analyzing Nigeria's and Africa's development crisis. It will influence the debate on the development dilemma of African and Third World societies and will be of interest to scholars and students of race and ethnicity, modern African history, class analysis, gender studies, and development studies. **Reforms and Nigerian Labour and Employment Relations** Otoo, Dafe, 2016-07-25 This collection of papers from twenty-seven chapters is on aspects of reforms and labour and employment relations in Nigeria over the past three decades. **African Economies and the Politics of Permanent Crisis, 1979-1999** Nicolas Van de Walle, 2001-09-24 This 2001 book explains why African countries have remained mired in a disastrous economic crisis since the late 1970s. It shows that dynamics internal to African state structures largely explain this failure to overcome economic difficulties rather than external pressures on these same structures as is often argued. Far from being prevented from undertaking reforms by societal interest and pressure groups, clientelism within the state elite, ideological factors, and low state capacity have resulted in some limited reform but much prevarication and manipulation of the reform process by governments which do not really believe that reform will be effective, which often oppose reforms because they would undercut the patronage and rent-seeking practices which undergird political authority and which lack the administrative and technical capacity to implement much reform. Over time, state decay has increased. **Economic Reforms and Nigeria's Political Crisis** Rose Umoren, 2001 **Nigeria's Political Crisis** Debra A. Liang, 1995 **Political Conflict and Economic Change in Nigeria** Henry Bienen, 1985 First Published in 1985 Routledge is an imprint of Taylor & Francis, an information company. Aid and Reform in Africa Shantayanan Devarajan, David Dollar, Torngny Holmgren, 2001-01-01 Finally, when the country enters the second generation of reforms such as public sector institutional reform, short-term conditionality-based aid can once again be harmful by reducing ownership, participation, and sustainability of the reform process. **BOOK JACKET** *Economic Transition in Eastern Europe and Russia: Realities of Reform*, An evaluation of the efficacy of different forms of liberalization since the fall of communism in Eastern Europe in the form of 13 essays on economic and political reforms. Following an extensive introductory essay, *Economic Reform: Appropriate Steps and Actual Policies*, the remaining essays are organized in three parts: fundamental components of economic reform, specific problems in reform, and comparisons and evaluations. Knowledge, Productivity, and Innovation in Nigeria Ismail Radwan, Giulia Pellegrini, 2010-03-09 Nigeria has a bold national vision of becoming one of the world's top 20 economies by 2020 However despite being the 8th most populous country in the world it ranks 41st in terms of GDP and 161st in terms of GDP per capita Nigeria has long depended on oil for its exports and government revenues This dependence has led to rent seeking and a reluctance to examine potential avenues for economic diversification The authors of Knowledge Productivity and Innovation in Nigeria believe that the goal of becoming a top twenty economy can only be achieved if Nigeria makes the transition to a new economy rooted in the 21st century that harnesses the power of knowledge and avoids a static oil based growth strategy Knowledge has always been central to development but new technologies have made it globally accessible Countries such as the Republic of South Korea India and the United States that have exploited new technologies and know how have pushed their innovation and productivity frontiers Countries that have failed to do so risk remaining mired in poverty In order to achieve Vision 2020 Nigeria must move beyond the stop start patterns of oil based development that have characterized it since independence It must create a stable and prosperous economy based on a critical mass of knowledge workers Knowledge Productivity and

Akinola, 2018-01-26 The Nigerian state has been oil rich for decades and yet perennially incapable of converting its oil resources into wealth for ordinary Nigerians Adeoye O Akinola tackles this vexed oil question by examining the political economy of efforts to deregulate the Nigerian downstream oil industry Focusing on themes of globalization and democratization this book considers how a resource rich developing country like Nigeria can exploit the opportunities of globalization and navigate the pressures of democratization and the challenges of liberalization Pairing sophisticated theoretical frameworks with firsthand accounts from actors in the oil industry this book identifies the root causes of Nigeria's development struggles and offers practical policy solutions for successfully deregulating the oil sector For public officials and policymakers as well as researchers this book offers a critical new lens on the future of natural resource management in Nigeria and the Global South **New Directions in Development Economics** Mats Lundahl, Benno Ndulu, 2005-08-10 This volume is divided into two thematic parts economic growth or its absence in developing countries and contributions to the debate on the role of the state versus the market It outlines possible policy prescriptions of relevance both in the North and South *The Changing Forms of Identity Politics in Nigeria Under Economic Adjustment* Cyril I. Obi, 2001 The Niger delta region of Nigeria which is at the heart of the country's oil industry has a long history of struggles for self determination dating back to the early years of the 20th century In the 1980s and 1990s these struggles unfolding as they did within the context of military authoritarianism and structural adjustment took the form of widespread agitation for greater control by local communities of the revenues accruing to the Nigerian state from exploration and extraction of oil This study attempts to capture the transformations in ethnic minority identity politics in the oil producing areas of the Niger delta In doing this attention is simultaneously drawn to the factors informing the shift from peaceful agitation to violent protest as well as the dynamic of decay and renewal in the various ethnic minority movements that are active in the delta It is suggested that part of the solution to the crisis in the delta will involve not only a thorough going restructuring of the Nigerian state but also the re orientation of the mode of operation of the giant oil multinationals in order to make them both more sensitive and accountable to the local communities BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Democracy and Democratization in Africa Udogu, 2021-11-01 The 9 contributors to this volume are Africanists whose comprehension of the political vernacular of Africa helped to sharpen their analyses of a continent on the eve of a new millennium and in the aftermath of the Cold War The debate over the most relevant political models for African countries has till recently been conducted against a backdrop of the competing claims of socialism and capitalism Attempts to consolidate democracy and constitutional have taken place in the shadow of intractable economic problems prompting the question of whether democracy can survive in Africa without economic prosperity The
