J. The Types of Economic Policies under Capitalism Uno Kōzō, 2017-06-01 Uno who proposes to study capitalism at three distinct levels of abstraction insists that there should be a mid range theory of its developmental stages danka ron between the pure theory of capital which must be couched in the form of Hegelian dialectic genriron and capitalist histories which must be recounted with full empirical detail In this book he illustrates how he would himself expose that mid range theory by summarising the three types of economic policy that the bourgeois state successively adopted mercantilism liberalism and imperialism He

moreover indicates that economics can relate and cross fertilise with other branches of social science such as law and politics only at this level of abstraction thus achieving an adequate theory of the bourgeois state Nowhere else is Marx's insight into the state as the epitome of bourgeois society more vividly endorsed than in this book First published in Japanese as Keizai Seisakuron by Kobundo Ltd in 1936 The current work is a translation of the enlarged and revised edition of 1971
