An Introduction to the Comparative Study of Private Law James Gordley, Hao Jiang, Arthur Taylor von Mehren, 2021-01-28 This collection of readings places side by side the principal doctrines of contracts torts unjust enrichment and property in the cases of the United States England France Germany and China It presents code provisions cases and other legal materials

that describe the law in force and places each doctrine in its historical context to enable an understanding of the development of law as an ongoing process in which the resolution of current issues depends upon how past issues were resolved. It both provides a road map of the private law of these jurisdictions and illustrates how private law has been shaped by history by the effort to solve common problems and by differences in culture. This new edition reflects changes in the law and includes the addition of Chinese Law as a comparative study. Law, Wealth and Power in China John

Garrick, 2010-10-04 This book examines the law reforms of contemporary China in light of the Party state's ideological transformation and the political economy that shapes these reforms. This involves analysing three interrelated domains: law reform, power and wealth. The contributors to this volume employ a variety of perspectives and analytical techniques in their discussion of key themes including commercial law reform and its governance of wealth and regulation of economic activity, the influence and authority of the Party state over China's economic activity and the influence of wealth and the wealthy in economic governance and legal reform. Utilizing an interdisciplinary approach, this book presents analytical perspectives of new work or new lines of thinking about the new wealth, power and law reforms of China. As such, critical boundaries are explored between legal and financial reforms and what these reforms signify about deeper ideological, economic, social and cultural transformations in China. The book concludes by asking whether there is a China model of development which will produce a unique variety of capitalism and indigenous variant of rule of law and examining the winners and losers in the transition from a centrally planned economy to a market economy. Law, Wealth and Power in China will be of interest to students and academics of comparative law, Asian law, Chinese economics and politics, Chinese Studies as well as professionals in investment banking, finance and government. *Bird in a Cage* Stanley B. Kent Guy, 2000-02-01 In *The Limits of the Rule of Law in China* fourteen authors from different academic disciplines reflect on questions that have troubled Chinese and Western scholars of jurisprudence since classical times Using data from the early 19th century through the contemporary period they analyze how tension between formal laws and discretionary judgment is discussed and manifested in the Chinese context The contributions cover a wide range of topics from interpreting the rationale for and legacy of Qing practices of collective punishment confession at trial and bureaucratic supervision to assessing the political and cultural forces that continue to limit the authority of formal legal institutions in the People's Republic of China **Law and Justice in China's New Marketplace** Ronald C. Keith, 2001-01-11 *Law and Justice in China's New Marketplace* provides the first comprehensive multidisciplinary analysis of the jurisprudence and related law underlying the contemporary Chinese transition to the socialist market economy New pluralized jurisprudence has moved beyond Marxist class analysis to consider a new balance of values relating to economic efficiency and social justice in the marketplace and yet the interior debates and perspectives concerning these values are virtually unknown in the Western scholarly literature By analysing the changing Chinese approach in law to the adjustment of social interests in the context of profound economic change *Law and Justice in China's New Marketplace* provides a unique reference tool It outlines the new vocabulary of market jurisprudence and law and examines new legal thinking on rights protection with reference to widely ranging and often hot internal debate over human rights property law and procedural or judicial justice **States, Intergovernmental Relations, and Market Development** Jinhua Cheng, 2018-05-17 This book is a theoretical and empirical analysis of institutional foundation of long term economic growth from the perspective of state market and central local relations The book argues that in order to safeguard sustainable market development it is necessary to centralize certain functions of the state to overcome local predatory governmental rulings and to decentralize others to increase local governmental market incentives simultaneously This institutional approach is conceptualized as Dual Intergovernmental Transformation for Market Development DITMD This book develops the DITMD model through an in depth empirical comparison on contemporary China and the 19th century United States *China's Great Economic Transformation* Loren Brandt, Thomas G. Rawski, 2008-04-14 This landmark study provides an integrated analysis of China's unexpected economic boom of the past three decades The authors combine deep China expertise with broad disciplinary knowledge to explain China's remarkable combination of high speed growth and deeply flawed institutions Their work exposes the mechanisms underpinning the origin and expansion of China's great boom Penetrating studies track the rise of Chinese capabilities in manufacturing and in research and development The editors probe both achievements and weaknesses across many sectors including China's fiscal legal and financial institutions The book shows how an intricate minuet combining China's political system with sectorial development globalization resource transfers across geographic and economic space and partial system
