Aftermath in the Indian Ocean Africa and Asia Gwyn Campbell, 2013-01-11 This important collection of essays examines the history and impact of the abolition of the slave trade and slavery in the Indian Ocean World a region stretching from Southern and Eastern Africa to the Middle East India Southeast Asia and the Far East Slavery studies have traditionally concentrated on the Atlantic slave trade and slavery in the Americas In comparison the Indian Ocean World slave trade has been little explored although it started some 3 500 years before the Atlantic slave trade and persists to the present day This volume which follows a collection of essays The Structure of Slavery in Indian Ocean Africa and Asia Frank Cass 2004 examines the various abolitionist impulses indigenous and European in the Indian Ocean World during the nineteenth and

twentieth centuries It assesses their efficacy within a context of a growing demand for labour resulting from an expanding international economy and European colonisation The essays show that in applying definitions of slavery derived from the American model European agents in the region failed to detect or deliberately ignored other forms of slavery and as a result the abolitionist impulse was only partly successful with the slave trade still continuing today in many parts of the Indian Ocean World

Encyclopedia of the Peoples of Africa and the Middle East Jamie Stokes, 2009 Encyclopedia of the Peoples of Africa and the Middle East is a two volume A to Z reference to the history and culture of the peoples of Africa and the Middle East

Africa in the Indian Ocean Tor Sellström, 2015-05-26 The four sovereign Indian Ocean states of Comoros Madagascar Mauritius and Seychelles the two French overseas departments of Mayotte and Reunion as well as the British colony of BIOT Chagos all form part of Africa As insular nations and territories in an increasingly globalized militarized and largely unregulated ocean they face particular challenges Commonly overlooked in the fields of African and international studies this text traces the islands history and explores their diverse contemporary social political and economic trajectories From human settlement and slavery to conflict resolution and piracy the relations with continental Africa and the African Union feature prominently Richly sourced this comprehensive and up to date introduction to Africa s Indian Ocean islands covers a significant lacuna

Feeding Globalization Jane Hooper, 2017-05-15 Between 1600 and 1800 the promise of fresh food attracted more than seven hundred English French and Dutch vessels to Madagascar Throughout this period European ships spent months at sea in the Atlantic and Indian Oceans but until now scholars have not fully examined how crews were fed during these long voyages Without sustenance from Madagascar European traders would have struggled to transport silver to Asia and spices back to Europe Colonies in Mozambique Mauritius and at the Cape relied upon frequent imports from Madagascar to feed settlers and slaves In *Feeding Globalization* Jane Hooper draws on challenging and previously untapped sources to analyze Madagascar s role in provisioning European trading networks within and ultimately beyond the Indian Ocean The sale of food from the island not only shaped trade routes and colonial efforts but also encouraged political centralization and the slave trade in Madagascar Malagasy people played an essential role in supporting European global commerce with far reaching effects on their communities *Feeding Globalization* reshapes our understanding of Indian Ocean and global history by insisting historians should pay attention to the role that food played in supporting other exchanges

Political Identity and Conflict in Central Angola, 1975-2002 Justin Pearce, 2015-07-02 This book examines the internal politics of the war that divided Angola for more than a quarter century after its independence It emphasises the Angolan people s relationship to the rival political forces that prevented the development of a united nation an aspect of the conflict that has received little attention in earlier studies Drawing upon interviews with farmers town dwellers soldiers and politicians in Central Angola Justin Pearce examines the ideologies about nation and state that elites deployed in pursuit of hegemony and traces how people responded to these attempts at politicisation The book not only demonstrates the potency

of the rival conceptions of state and nation in shaping perceptions of self interest and determining political loyalty but also shows the ways in which allegiances could and did change for much of the Angolan population in response to the experience of military force

Reinterpreting Indian Ocean Worlds Stefan C. A. Halikowski Smith, 2011-05-25 The Indian Ocean World was an idea borne out by researchers in economic history and trade in the 1980s in response to the compartmentalization of specific area studies within the wider rubric of Asian civilisations and culture Professor Kirti N Chaudhuri s books *Trading World of Asia and the English East India Company* 1978 and then *Trade and Civilization in the Indian Ocean* 1985 figured amongst the forefront of this new movement in historical thinking undertaking detailed historical analysis first of the English East India Company and then a comparative cultural history of Asian material life and civilisation Today historians continue to hold on to the idea of an Indian Ocean world although studies now follow a number of different threads from themes like linguistics and creolization to the seeds of national consciousness By presenting a number of studies here gathered into the themes of *Intermixing The World of Trade and Colonial Paths* it is hoped we can render tribute to one of the outstanding historians in this field and reflect the plenitude of current research in this subject area

Channelling Mobilities Valeska Huber, 2013-08-01 The history of globalisation is usually told as a history of shortening distances and acceleration of the flows of people goods and ideas *Channelling Mobilities* refines this picture by looking at a wide variety of mobile people passing through the region of the Suez Canal a global shortcut opened in 1869 As an empirical contribution to global history the book asks how the passage between Europe and Asia and Africa was perceived staged and controlled from the opening of the Canal to the First World War arguing that this period was neither an era of unhampered acceleration nor one of hardening borders and increasing controls Instead it was characterised by the channelling of mobilities through the differentiation regulation and bureaucratisation of movement Telling the stories of tourists troops workers pilgrims stowaways caravans dhow skippers and others the book reveals the complicated entanglements of empires internationalist initiatives and private companies

nation ummat through four disciplinary approaches historiography politics linguistics and ethnology Over the past two centuries rapid transitions and discontinuities have produced the profound tensions which have resulted from the willful amnesia of their pre Islamic Indic civilizational past for an ideological and politicized Islamic present This study aims to document theorize and engage this theological transformation of modern Kh j religious identities as expressed through dimensions of power language space and the body
