## **Economic Organization Of War Communism 1918 1921:**

*The Economic Organization of War Communism 1918-1921* Silvana Malle, 2002-08-08 An assessment of the first Soviet economic system comparing programmes with outcomes and theory with practice      **The Economic Organization of War Communism 1918-1921** Silvana Malle, 1985-11-21 This book examines the origins development and reasons for change of the first Soviet economic system Programmes are compared with outcomes and theory with practice in the fields of nationalization workers control and management money and planning industrial organization and food procurement The organization of military supply and industry is examined separately to emphasize that the initial approach to economic organization was affected not only by external events but also by ideology class struggle and social pressures The economic and social analysis which lay behind policy making was often distorted by prejudice and the economic system which emerged was the result of efforts to replace market relations by administrative measures Unexpected and unwanted outcomes induced some leaders to rethink initial policies while others continued to adhere to rigid programmes even after the conclusion of civil war      The economic organization of War Communism 1918-1921 Silvana Malle, 1985      **The economic organisation of war communism (1918-1921).** Silvana Malle, 1981      **The War Communism Economic Organization, 1918-1921** Silvana Malle, 1979      The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state      East Germany and Detente A. James McAdams, 1985-12-19 This study demonstrates the changing historical significance of the idea of detente and how non superpower states can create opportunity out of initially adverse circumstances      **Debt Problems of Eastern Europe** Iliana Zloch-Christy, 1987-11-27 This 1998 book analyzes the causes and consequences of the massive Eastern European debt to the West accumulated in the 1970s      **Britain, Poland and the Eastern Front, 1939** Anita J. Prazmowska, 1987-07-23 This book offers a revisionist interpretation of British foreign policy towards Poland and the role of the Anglo Polish relationship during the period March September 1939 It challenges and questions hitherto held views on the British determination to defend Poland and oppose German expansion eastwards It includes a study of foreign policy economic policy and military planning This book is a major contribution to our knowledge of the outbreak of the war because it contains a unique and original study of the role of the Poles in British proposals for an eastern front and the Polish

perception of their relationship with Germany Finally the inconclusive nature of British approaches to the Soviet Union and the Rumanian government are put into the context of the abortive proposal for an eastern front against Germany

**Collective Farms which Work?** Nigel Swain,1985-06-13 Analyzes the lessons learned from thirty years of actually existing socialism within the collective farm system of Hungary Provides the first thorough sociological analysis in English of this example of successful collectivization through a detailed study of its internal social structure and relevant decision making processes

*Revolutionary Pairs* Larry Ceplair,2020-07-21 A political historian examines five of the twentieth century s most significant revolutions and the partnerships that led the way Successful revolution requires two triggering elements a crisis or conjuncture and revolutionary actors who are organized in a dedicated revolutionary party armed with a radical ideology and poised to act While previous revolutions were ignited by small collectives many in the twentieth century relied on strategic relationships between two exceptional leaders Marx and Engels Communism Lenin and Trotsky Russia Ghandi and Nehru India Mao and Zhou China and Castro and Guevara Cuba These partnerships changed the world In *Revolutionary Pairs* Larry Ceplair tells the stories of five revolutionary struggles through the lens of famous duos While each relationship was unique Castro and Guevara bonded like brothers Mao and Zhou like enemies in every case these leaders seized the opportunity for revolution and recognized they could not succeed without the other The first cross cultural exploration of revolutionary pairs this book reveals the undeniable role of personality in modern political change

*Revolutionary Europe* Gavin Murray-Miller,2020-02-06 CHOICE Outstanding Academic Title 2021 *Revolutionary Europe* is an original examination of radical political movements during Europe s long 19th century It employs both national and transnational contexts incorporating new debates in Atlantic history empire studies and cultural history to give a comprehensive narrative of the period from 1775 to 1922 Rather than assessing revolution as a purely theoretical socially driven force or a structural phenomenon the book presents revolution as a process of community building and cultural identification born from instances of acute social and political crisis Taking into account various moments of political upheaval during the 19th century including the French Russian and 1848 revolutions it explores the ways in which political actors attempted to construct new definitions of sovereignty and social unity in a period characterized by vast social economic and governmental change In a wide ranging text that covers Britain and much of continental Europe in detail as well as reaching out to the Americas and Atlantic and Mediterranean Worlds Gavin Murray Miller provides an authoritative transnational study of revolution in the 19th century age of high nationalism

Nihilist Order Professor David Ohana,2016-04-19 The explosive combination of

nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements The Nihilist Order originally published in three hardcover volumes and now published in a consolidated paperback edition with an encompassing new Introduction inspired excellent review endorsements both amongst the academic and public spheres and has been heralded as a great achievement in European intellectual and cultural history

*Final Solutions* Benjamin A. Valentino, 2013-01-19 Benjamin A Valentino finds that ethnic hatreds or discrimination undemocratic systems of government and dysfunctions in society play a much smaller role in mass killing and genocide than is commonly assumed He shows that the impetus for mass killing usually originates from a relatively small group of powerful leaders and is often carried out without the active support of broader society Mass killing in his view is a brutal political or military strategy designed to accomplish leaders most important objectives counter threats to their power and solve their most difficult problems In order to capture the full scope of mass killing during the twentieth century Valentino does not limit his analysis to violence directed against ethnic groups or to the attempt to destroy victim groups as such as do most previous studies of genocide Rather he defines mass killing broadly as the intentional killing of a massive number of noncombatants using the criteria of 50 000 or more deaths within five years as a quantitative standard *Final Solutions* focuses on three types of mass killing communist mass killings like the ones carried out in the Soviet Union China and Cambodia ethnic genocides as in Armenia Nazi Germany and Rwanda and counter guerrilla campaigns including the brutal civil war in Guatemala and the Soviet occupation of Afghanistan Valentino closes the book by arguing that attempts to prevent mass killing should focus on disarming and removing from power the leaders and small groups responsible for instigating and organizing the killing

**Russia in Revolution** Stephen Anthony Smith, 2017 *Russia in Revolution* gives a full account of the Russian empire from the last years of the nineteenth century through revolution and civil war to the brutal collectivization and crash industrialization under Stalin in the late 1920s

The "Russian" Civil Wars, 1916-1926 Jonathan Smele, 2016-01-15 This volume offers a comprehensive and original analysis and reconceptualisation of the compendium of struggles that wracked the collapsing Tsarist empire and the emergent USSR profoundly affecting the history of the twentieth century Indeed the reverberations of those decade long wars echo to the present day not despite but because of the collapse of the Soviet Union which re opened many old wounds from the Baltic to the Caucasus Contemporary memorialising and de memorialising of these wars therefore form part of the book s focus but at its heart lie the struggles

between various Russian political and military forces which sought to inherit and preserve or even expand the territory of the tsars overlain with examinations of the attempts of many non Russian national and religious groups to divide the former empire The reasons why some of the latter were successful Poland and Finland for example while others Ukraine Georgia and the Muslim Basmachi were not are as much the author s concern as are explanations as to why the chief victors of the Russian Civil Wars were the Bolsheviks Tellingly the work begins and ends with battles in Central Asia a theatre of the Russian Civil Wars that was closer to Mumbai than it was to Moscow
