Economic Theories Of Peace And War:

Economic Theories of Peace and War, 2004 **Economic Theories of Peace and War** Fanny Coulomb, 2004-07-29 War often comes down to one thing money This book will be of interest not only to those involved in the burgeoning field of defence economics but also to those interested in international relations and defence studies **War, Peace, and Security** Jacques Fontanel, Manas Chatterji, 2008-10-13 In the name of international and domestic security billions of dollars are wasted on unproductive military spending in both developed and developing countries when millions are starving and living without basic human needs This book contains articles relating to military spending military industrial establishments and peace keeping *The Economics of Conflict and Peace* Shikha Basnet Silwal, Charles H. Anderton, Jurgen Brauer, Christopher J. Coyne, J. Paul Dunne, 2021-06-24 Written for an audience of students general readers and economists alike this Element is a primer on the field of the economics of conflict and peace It offers a reasonably comprehensive systematic and detailed overview even if in broad strokes of the field s orthodox and heterodox history of thought and current theories and evidence The authors view this Element as a baseline account on which to build a future separate and more fully developed work on the economics of peace economic growth and human development Altogether the Element contextualizes the field of conflict and peace economics outlines its history of thought highlights examples of current theoretical and empirical scholarship in the field and maps trajectories for further research *Handbook of Defense Economics* Todd Sandler, Keith Hartley, 2007-04-12 The second volume of the Handbook of Defense Economics addresses defense needs practices threats and policies in the modern era of globalization This new era concerns the enhanced cross border flows of all kinds e g capital and labor flows revolutionary rhetoric guerrillas and terrorists including the spillovers of benefits and costs associated with public goods and transnational externalities i e uncompensated interdependencies affecting two or more nations These ever increasing flows mean that military armaments and armies are less able to keep out security threats Thus novel defense and security barriers are needed to protect borders that are porous to terrorists pollutants political upheavals and conflicts Even increased trade and financial flows imply novel security challenges and defenses Globalization also underscores the importance of a new set of institutions e g the European Union and global governance networks and agents e g nongovernmental organizations and partnerships This volume addresses the security challenges in this age of globalization where conflicts involve novel tactics new technologies asymmetric warfare different venues and frightening weapons Volume 2 contains topics not covered in volume 1 i e civil wars peacekeeping economic sanctions the econometrics of arms races conversion peace economics and the interface of trade peace and democracy Volume 2 also revisits topics from volume 1 where there has been a significant advancement of knowledge i e conflict analysis terrorism arms races arms trade military manpower and arms industries All of the main securities concerns of today are analyzed Chapters are written by the leading contributors in the topic areas Up to date surveys on the pressing defense issues theoretical empirical and policy

issues Coverage of theoretical and empirical studies of terrorism Contributions by the leading researchers in the field of defense economics **Handbook of Research on Military Expenditure on Economic and Political Resources** Das, Ramesh Chandra, 2018-05-25 As many countries have increased their budgets to allow for newer technologies and a stronger military force defense spending has become a popular debate topic around the world As such it is vital to understand the interplay between the military expenditure and economic growth and development across countries The Handbook of Research on Military Expenditure on Economic and Political Resources is a critical scholarly publication that explores the interplay between the military expenditure and economic growth and development across countries Featuring coverage on a wide range of topics such as defense management economic growth and dynamic panel model this publication is geared towards academicians researchers and professionals seeking current research on the interplay between the military expenditure and economic growth and development across countries **Economists and War** Fabrizio Bientinesi, Rosario Patalano, 2016-11-03 War and economic power have been interwoven in the thought of scholars since the beginnings of economic science and views on the role of war in the economy have shifted dramatically as the world order has changed The centenary of World War I has offered the opportunity for increased reflection on this topic particularly as the war itself stimulated new directions for both research and the development of theory Economists and War brings together expert contributors who are united in their commitment to exploring this classic subject from innovative and heterodox points of view The chapters presented in the book delve into a wide range of perspectives from Japan in the Second World War and Italy in the First the debate on State intervention among German speaking authors to the debate on the economic bases of perpetual peace and from Keynes who wrote on the irrationality of war to Sismondi who saw war as an opportunity for economic development and not only for nation states This volume is essential reading for scholars of the history of economic thought international political economy and intellectual history It is also of great interest to those studying military and naval history *The Economics of UN Peacekeeping* Nadège Sheehan, 2011-07-25 Peacekeeping is a security concept that is very representative of the current interventionism multilateralism human rights and humanitarian ideas UN peacekeeping plays an important role in international security and includes various activities that go beyond the original roles assigned to UN armed forces e g humanitarian aid election supervision disarmament mine clearance civilian protection and peacebuilding The problem is to define the economic efficiency of these operations and to develop some recommendations in the context of an economic globalization process Although UN peacekeeping has shortcomings it must be considered essential for organizing and defending the world politico economic order UN peacekeeping is a political activity but its production strongly depends on nations economic considerations Governments make political decisions that also take into account the economic gains they expect to obtain from their contribution to any specific mission With low means and inadequate strategies to meet the challenges UN peacekeeping must pay particular attention to resolving the problems of free riding and

of prisoner's dilemma in contributions that delay deployments and create significant financial problems. Understanding how peacekeeping can be most cost effectively carried out while considering the importance of legitimacy in interventions is essential. This book believes that regional organizations can ease the UN's financial responsibility by managing conflicts in their regions. But to be most effective they must involve the UN in their interventions. This book also emphasizes UN peacekeeping trust funds as the key to better financial effectiveness. It strongly recommends that NATO be empowered by the UN with the role of global peace police and proposes the establishment of a UN high ranking team of international specialists in peacekeeping issues. This research should be of interest to students and researchers looking at international and political economics as well as international relations, defence security and peace studies. **Frontiers of Peace**

Economics and Peace Science Manas Chatterji, Chen Bo, Rameshwar Mishra, 2011-06-17 A considerable amount of work has been conducted in the field of peace studies, conflict management, peace science in economics, sociology, anthropology and management. This title presents research with an emphasis on theoretical and mathematical constructs in the area of peace economics, peace science. The Marketing of War in the Age of Neo-Militarism Kostas Gouliamos, Christos

Kassimeris, 2013-05-13 The post 9/11 era and the overall impact of international terrorism have generated much debate regarding the role of military apparatus in modern society. This book assesses the inherent meaning of the militarization from a critical interdisciplinary perspective. Against the background of democracy and capitalism, The Marketing of War in the Age of Neo-Militarism challenges prevailing accounts of the military industrial complex as it explores significant interrelated themes denoting the accelerating process of militarization of society. Designed to address pressing socio-political phenomena, this book is the first of its genre contesting conventional wisdom about the perceived link between war and the military industrial complex. It is unique not merely because of its approach but also for its thorough analysis of deeply affected social institutions and processes such as education, popular culture, geopolitics, military expenditure, space and the environment. Contributing authors advance the discussion by exposing factual information demonstrating the nature and scope of society's militarization. Their analysis is also broadened to encompass key concepts and diverse aspects of the subject matter that provoke a lively debate. The book offers compelling arguments that will be indispensable to scholars, students, professionals and policy and decision makers with an interest in social and political sciences as well as in other related fields. **Global**

Challenges: Peace and War Yih-Jye Hwang, Lucie Cerna, 2013-07-04 What is the idea of peace? Is peace merely the absence of war or can it also mean something else? Is peace a condition of emancipation, the status quo or is it a system of hegemonic stability? How can peace be acquired whatever it may mean? And above all, what is the relationship between peace and war? This textbook aims to offer a comprehensive and up to date introduction to studies of peace and war from both theoretical and empirical perspectives. Rather than providing students the answer of what the idea of peace means, this volume is designed to make and assist students to contemplate how peace can be thought by investigating its opposite war broadly.

defined *Routledge Handbook of Peacebuilding* Roger Mac Ginty, 2013-02-15 This new Routledge Handbook offers a comprehensive state of the art overview of the meanings and uses of the term peacebuilding and presents cutting edge debates on the practices conducted in the name of peacebuilding The term peacebuilding has had remarkable staying power Other terms such as conflict resolution have waned in popularity while the acceptance and use of the term peacebuilding has grown to the extent that it is the hegemonic and over arching term for many forms of mediation reconciliation and strategies to induce peace Despite this however it is rarely defined and often used to mean different things to different audiences Routledge Handbook of Peacebuilding aims to be a one stop comprehensive resource on the literature and practices of contemporary peacebuilding The book is organised into six key sections Section 1 Reading peacebuilding Section 2 Approaches and cross cutting themes Section 3 Disciplinary approaches to peacebuilding Section 4 Violence and security Section 5 Everyday living and peacebuilding Section 6 The infrastructure of peacebuilding This new Handbook will be essential reading for students of peacebuilding mediation and post conflict reconstruction and of great interest to students of statebuilding intervention civil wars conflict resolution war and conflict studies and IR in general *War, Peace and the Military* Franz Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society *Making War and Building Peace* Michael W. Doyle, Nicholas Sambanis, 2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn't Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to

decrease the risk of new fighting in the long run the authors also argue that the UN's role in launching development projects after civil war should be expanded

Making Peace in Drug Wars Benjamin Lessing, 2018 State crackdowns on drug cartels often backfire producing entrenched cartel state conflict deterrence approaches have curbed violence but proven fragile This book explains why

War, Peace, and Alliance in Demosthenes' Athens Peter Hunt, 2010-01-28 Every Athenian alliance every declaration of war and every peace treaty was instituted by a decision of the assembly where citizens voted after listening to speeches that presented varied and often opposing arguments about the best course of action The fifteen preserved assembly speeches of the mid fourth century BC thus provide an unparalleled body of evidence for the way that Athenians thought and felt about interstate relations to understand this body of oratory is to understand how the Athenians of that period made decisions about war and peace This book provides a comprehensive treatment of this subject It deploys insights from a range of fields from anthropology to international relations theory in order not only to describe Athenian thinking but also to explain it Athenian thinking turns out to have been complex sophisticated and surprisingly familiar both in its virtues and its flaws
