Economics A Reader:

The Economic Reader Massimo M. Augello, Marco Enrico Luigi Guidi, 2012 This book proposes a comparative study of the history of manuals of political economy in the most representative countries for the development of economics in the 19th and early 20th centuries demonstrating and the professionalisation of economics *The Economic Reader* Massimo M. Augello, Marco Enrico Luigi Guidi, 2012 The book studies the origins and evolution of economic textbooks in the nineteenth and early twentieth century up to the turning point represented by Paul Samuelson's *Economics* 1948 which became the template for all the textbooks of the postwar period The case studies included in the book cover a large part of Europe the British Commonwealth the United States and Japan Each chapter examines various types of textbooks from those aimed at self education to those addressed to university students secondary school students to the short manuals aimed at the popularisation of political economy among workers and the middle classes An introductory chapter examines this phenomenon in a comparative and transnational perspective **Regional Economics** Harry Ward Richardson, 1970

Contemporary Issues in Heterodox Economics Arturo Hermann, Simon Mouatt, 2020-10-07 Heterodox economics can provide a more complete and robust explanation of economic realities than orthodox or mainstream economics Contemporary Issues in Heterodox Economics Implications for Theory and Policy Action argues that this greater explanatory power gives heterodox economics the ability to illuminate appropriate policy for the major crises of our time as well as proffer the basis for a more rounded pluralist approach to economic theory The chapters in this wide ranging volume address some of the key issues facing the global economy including the growing disparity of income wealth between persons and economic areas environmental degradation issues associated with employment and the regularity of economic financial crises The authors examine potential policy responses such as modern monetary theory models of public ownership and the need to move beyond standard concepts of growth They also explore the deficiencies of orthodox economics and contend that a more pluralist approach to economics is required in the public sphere in academia and in the classroom in order to help face the challenges of the twenty first century This book is invaluable reading for students and scholars across the social sciences who are interested in alternatives to mainstream economic thinking *Economics* Henry Clay, 1930 Reader's Guide to Periodical Literature Supplement, 1919 Economics of Development A.P. Thirlwall, Penélope Pacheco-López, 2017-09-16 This classic bestselling textbook provides a comprehensive introduction to the field of development economics The 10th edition of Tony Thirlwall's book now co written with Penélope Pacheco López provides a clear comprehensive and rigorous introduction to the theory of development economics and the experience of developing countries Balancing a historic approach with current data and references it provides a wide ranging analysis of the subject This all inclusive methodology succeeds at representing different schools of thought with a balance of micro and macro topics An ideal textbook for undergraduate students of economics and other social sciences it is also suitable for upper undergraduate and master's level
