Economics And Home Production Theory And Measurement:

Economics and Home Production Euston Quah,1993 Deals with recent developments in economic theory pertaining to the study of household production and valuation The text examines the major theoretical and methodological issues involved in measuring and valuing household production such as definition quantification and valuation **International Economic Integration: Theory and measurement** Miroslav Jovanovic,1998 [Social Policy in Post-Industrial Singapore](#) Kwen Fee Lian,Chee-Kiong Tong,2008-03-31 Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counterfactual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind [The New Palgrave Dictionary of Economics](#) ,2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product *Inflation Theory in Economics* Max Gillman,2009-03-23 These essays bring together a progression in monetary theory The major theme that runs through all of the chapters is that in order to do monetary economics well in general equilibrium it helps to have a good money demand underlying the theory A proper underlying money demand sets up arguably the best foundation from which to make extensions of monetary economics from the basic model At the same time that money demand is modelled this also endogenizes the velocity of money This has been a challenge in the literature that these essays solve and then use to extend basic neoclassical growth and business cycle theory Solving this problem in a way that is a natural direct and micro founded extension of the standard monetary theory is the first major contribution of the collection The second major contribution is the extension of the neoclassical monetary models using this solution to reinvigorate classic issues of monetary economics and take them to the frontier **The Household** Robert C. Ellickson,2010-08-02 Some people dwell alone many in family based households and an adventuresome few in communes The Household is the first book to systematically lay bare the internal dynamics of these and other home arrangements Legal underpinnings social considerations and economic constraints all influence how household participants select their homemates and govern their interactions around the hearth Robert Ellickson applies transaction cost economics sociological theory and legal analysis to explore issues such as the sharing of household output the control of domestic misconduct and

the ownership of dwelling units Drawing on a broad range of historical and statistical sources Ellickson contrasts family based households with the more complex arrangements in medieval English castles Israeli kibbutzim and contemporary cohousing communities He shows that most individuals when structuring their home relationships pursue a strategy of consorting with intimates This he asserts facilitates informal coordination and tends ultimately to enhance the quality of domestic interactions He challenges utopian critics who seek to enlarge the scale of the household and legal advocates who urge household members to rely more on written contracts and lawsuits Ellickson argues that these commentators fail to appreciate the great advantages in the home setting of informally associating with a handful of trusted intimates The Household is a must read for sociologists economists lawyers and anyone interested in the fundamentals of domestic life

earners and shared decision making This approach is used to present a fundamentally new view of consumption It then applies this to an analysis of tax systems combining theoretical analysis of optimal taxation and tax reform with careful empirical study of the characteristics of income tax systems in four different countries Australia Germany the UK and the USA The book is particularly concerned with analysing both theoretically and empirically the impact of taxation on female labour supply and identifying its effects on work incentives and fairness of income distribution All this adds up to a fascinating new approach to the economics of household for researchers in both public and private sectors **Frontiers of Business Cycle Research** Thomas F. Cooley, 1995-02-26 This introduction to modern business cycle theory uses a neoclassical growth framework to study the economic fluctuations associated with the business cycle Presenting advances in dynamic economic theory and computational methods it applies concepts to t **Women and Work** Sonia Carreon, Amy Cassedy, Kathryn Borman, Paula J. Officer,2014-04-08 This book presents the lifelong and ongoing research of Lawrence H Officer in a systematic

way The result is an authoritative treatment of such issues as market structure and economic efficiency where more than one characteristic of a commodity is priced both in general and in application to shipping conferences financing of the United Nations and International Monetary Fund monetary history of the UK and US and central bank preferences between gold and dollars The book first examines multidimensional pricing defined as pricing when a commodity or service has several characteristics that are priced The second part is concerned with country group conflicts in the United Nations and International Monetary Fund The book then takes a fresh look at historical experiences of monetary standard upheavals and the final part considers a crucial time 1958-67 during which central bank gold dollar decisions were power politically determined Women, Work and Welfare in the Middle East and North Africa Nadereh Chamlou, Massoud Karshenas, 2015

In the aftermath of the Arab Spring and in light of socio economic and geopolitical challenges facing governments old and new women's rights and empowerment have gained new urgency and relevance Groups in power or groups contesting for power are more conservative than expected and there are serious threats to roll back some of the gains women had achieved over the past 20-30 years on economic and social fronts The global gender debate has neglected the economic dimension of women's empowerment and a great deal of debate and interest among researchers is needed to push the topics further This timely book brings together leading regional researchers to offer original research linking gender equality with economic policy reinforcing the agenda from a broad based perspective Publisher summary *Feminist Legal Theory (Vol. 2)* Frances Olsen, 1995-10 A collection of previously published articles

Trade-related Investment Measures: Theory And Applications Eden Siu-hung Yu, Chi-chur Chao, 2014-06-20 This unique book makes a contribution to the deeper understanding of various trade related investment measures TRIMs The issues have been largely inspired by the use of trade policies on foreign investment adopted in China and many other nations from the 1960s to the 1990s Building upon the existing literature and the authors own work the 20 chapters in the book examine using several versions of general equilibrium frameworks resource allocation and welfare effects of both trade related investment measures and investment related trade environmental measures Traditional and duality microeconomic tools and modelling techniques have been extensively utilised in analysing various real world investment and environmental issues especially those encountered in developing economies Policy implications regarding optimal trade investment and environmental policies that emerged from the analyses are also provided This book is self contained in applications of trade theories and related general equilibrium modelling techniques It may be used as an advanced textbook in trade theory and policy as well as a reference book for policy makers professional practitioners and academic researchers in designing trade policies **Family, Household And Work**

Klaus F. Zimmermann, Michael Vogler, 2012-12-06 During the last decades the appearance of a family has changed substantially Not long ago a typical family consisted of an employed man and a home managing woman living together for their whole life times and having one or more children which primarily were raised by the wife Today differing living models

are much more common than before. House husbands, late motherhood, and a delayed work entry of the children are some of the related phenomena which at the same time are reasons for and consequences of the changed view on the favorite family. Not surprisingly, this change has provoked much scientific interest. In this book we present a collection of recent economic research work on the resources management and development of families and households respectively. Assorting three general topics we focus on the time allocation within the household, the family structure and development, and the transition to work of young adults.
