Dietrich Bonhoeffer and Simone Weil Vivienne Blackburn, 2004 The book is the first major study to bring together the two early twentieth century theologians Dietrich Bonhoeffer German Lutheran pastor and Simone Weil French philosopher and convert to Christianity Both were victims of Nazi oppression and neither survived the war The book explores the two theologians reflections on Christian responsiveness to God and neighbour being the interdependence of the two great commandments of the Jewish Law reiterated by Jesus It sets out the common ground and the differing emphases in their interpretations For Bonhoeffer responsiveness was the transformation of the whole person effected by faith Gestaltung and the responsibility Verantwortung for one s actions which it implies For Weil responsive ness was the hope and expectation of grace attente reflected in attention the capacity to listen to understand and help others Both Bonhoeffer and Weil faced a world dominated by aggression and horrendous suffering Both endeavoured to articulate their responses as Christians to that world The relevance of their thought to the twenty first century is explored in relation to perspectives on grace and freedom on aggression suffering and forgiveness and on the role of the church in society Conclusions are illustrated by reference to contemporary theologians including Rowan Williams Daniel Hardy Frances Young and David Tracy

A Philosophical Anthropology Drawn from Simone Weil's Life and Writings Helen E. Cullen, 2017-11-07 A Philosophical Anthropology Drawn from Simone Weil s Life Writings situates Weil s thought in the time between the two world wars through which she lived and traces Weil s consistent conception of a mind body dualism in the Cartesian sense to a dualism that places the mind within a carnal part of the soul and establishes an eternal part of the soul as the essence of human beings Helen Cullen argues that in Weil s early conception of human nature her Cartesian conception of perception already shows a glimpse of the eternal Weil s dualistic conception also forms the basis of her political analysis of the left of her time and through working in factories and in the fields she develops a conception of labour as a theory of action and work with a method Weil

was influenced by leading thinkers of her time prompting her to do an analysis of current scientific theories Cullen argues that Weil's analysis of Christianity already present in Greek philosophy shows us a theory of identical thought inherited from the East India and China and brought forth by peoples around Israel This theory leads to Weil's analysis developed in *The Need for Roots* of how we've been uprooted through colonization and how we can grow roots in a free local society both rural and urban

The Origin of the Political Roberto Esposito, 2017-04-03 In this book Roberto Esposito explores the conceptual trajectories of two of the twentieth century's most vital thinkers of the political Hannah Arendt and Simone Weil Taking Homer's *Iliad* that great prism through which every gesture has the possibility of becoming public precisely by being observed by others as the common origin and point of departure for our understanding of Western philosophical and political traditions Esposito examines the foundational relation between war and the political Drawing actively and extensively on Arendt's and Weil's voluminous writings but also sparring with thinkers from Marx to Heidegger *The Origin of the Political* traverses the relation between polemos and polis between Greece Rome God force technicity evil and the extension of the Christian imperial tradition while at the same time delineating the conceptual and hermeneutic ground for the development of Esposito's notion and practice of the impolitical In Esposito's account Arendt and Weil emerge in the inverse of the other's thought in the shadow of the other's light to think what the thought of the other excludes not as something that is foreign but rather as something that appears unthinkable and for that very reason remains to be thought Moving slowly toward their conceptualizations of love and heroism Esposito unravels the West's illusory metaphysical dream of peace obliging us to reevaluate ceaselessly what it means to be responsible in the wake of past and contemporary forms of war **French**

Women Writers Eva Martin Sartori, Dorothy Wynne Zimmerman, 1994-01-01 Marie de France Mme De S vign and Mme De Lafayette achieved international reputations during periods when women in other European countries were able to write only letters translations religious tracts and miscellaneous fragments There were obstacles but French women writers were more or less sustained and empowered by the French culture Often unconventional in their personal lives and occupied with careers besides writing as educators painters actresses preachers salon hostesses labor organizers these women did not wait for Simone de Beauvoir to tell them to make existential choices and have projects in the world *French Women Writers* describes the lives and careers of fifty-two literary figures from the twelfth century to the late twentieth All the contributors are recognized authorities Some of their subjects like Colette and George Sand are celebrated and others are just now gaining critical notice From Christine de Pizan and Marguerite de Navarre to Rachilde and H l _ne Cixous from Louise Labé to Marguerite Duras these women speak through the centuries to issues of gender sexuality and language *French Women Writers* now becomes widely available in this Bison Book edition **A Personalist Philosophy of History** Bennett

Gilbert, 2019-01-15 Historical study has traditionally been built around the placement of the human at the center of inquiry The de-stabilized concepts of the human in contemporary thought challenge this configuration However the ways in which

these challenges provoke new historical perspectives both expand and enrich historical study but are also weak and vulnerable in their concept of the human lacking or omitting something valuable in our self understanding A Personalist Philosophy of History argues for a robust concept of personhood in our experience of the past as a way to resolve this conflict Focused on those who know history rather than on the abstract properties of knowledge it extends the moral agency of persons into non human trans human and deep history domains It describes an approach to moral life through historical experience and study rather than through abstractions And it describes a kind of historiography that matches factual accuracy to both the constructed nature of understanding and to unavoidable moral purpose A Selection of Short Essays on Simone Weil's Life and Writings Helen E. Cullen, 2023-12-04 Simone Weil was an extraordinary French woman who born in 1909 didn't have the same freedoms women today enjoy Despite that she became a political activist a teacher and one of the world's most well respected philosophers By the time she died at the age of thirty three Weil had made significant contributions to humanity In Helen Cullen's book A Selection of Short Essays on Simone Weil's Life and Writings Weil's background and philosophies on life are laid out and examined Though many believe that her political leanings had become more conservative over time as she embraced a more mystical life Cullen aims to demonstrate how she continued to have very progressive and leftist beliefs until her death Weil wrote copiously during her short life addressing many social political and religious issues such as the rights of factory workers during the Second World War She was an activist during the 1930's herself working in factories so she could live the experiences she wrote about Weil's perspectives on life were heavily influenced by Plato and his philosophy which Cullen analyzes in her essays Cullen also spends time examining Weil's theory of Identical Thought which some believe is her greatest contribution to humanity This book of essays offers new insight into one of this world's greatest female minds inspiring us to consider how we too may contribute to humanity *Simone Weil on Colonialism* Simone Weil, 2003 Twentieth century French philosopher Simone Weil's complete writings on colonialism are collected and translated into English in this volume Visit our website for sample chapters *Rediscovering Léon Brunschvicg's Critical Idealism* Pietro Terzi, 2022-01-13 Léon Brunschvicg's contribution to philosophical thought in fin de siècle France receives full explication in the first English language study on his work Arguing that Brunschvicg is crucial to understanding the philosophical schools which took root in 20th century France Pietro Terzi locates Brunschvicg alongside his contemporary Henri Bergson as well as the range of thinkers he taught and influenced including Lévinas Merleau-Ponty de Beauvoir and Sartre Brunschvicg's deep engagement with debates concerning spiritualism and rationalism neo-Kantian philosophy and the role of mathematics in philosophy made him the perfect supervisor for a whole host of nascent philosophical ideas which were forming in the work of his students Terzi outlines Brunschvicg's defence of neo-Kantian judgement historical analysis and the inextricability of the natural and humanist sciences to any rigorous system of philosophy with wide ranging implications for contemporary scholarship **Etre et don** Emmanuel Gabellieri, 2003
